

CALCULATION OF REGISTRATION FEE

Title of each class of securities offered	Maximum aggregate offering price	Amount of registration fee
Warrants (expiring November 14, 2018)	\$148,731,030.00	\$8,299.19(1)

(1) The filing fee of \$8,299.19 is calculated in accordance with Rule 457(g) of the Securities Act of 1933.

Prospectus Supplement
(to Prospectus Dated May 8, 2009)

Capital One Financial Corporation

12,657,960 Warrants to Purchase Common Stock

The United States Department of the Treasury (referred to in this prospectus supplement as the “selling security holder” or “Treasury”) is offering to sell 12,657,960 warrants, each of which represents the right to purchase one share of our common stock at an exercise price of \$42.13 per share. Both the exercise price and the number of shares that will be acquired upon the exercise of a warrant are subject to adjustment from time to time in the manner described in this prospectus supplement. We will not receive any of the proceeds from the sale of the warrants being sold by the selling security holder. The warrants expire on November 14, 2018.

We originally issued the warrants to Treasury in a private placement. Prior to this offering, there has been no public market for the warrants. The warrants have been approved for listing, subject to notice of issuance, on the New York Stock Exchange (the “Exchange”) under the symbol “COF WS.” Our common stock is listed on the Exchange under the symbol “COF.” On December 3, 2009, the last reported sale price of our common stock on the Exchange was \$36.92 per share.

The public offering price and the allocation of the warrants in this offering were determined by an auction process. During the auction period, potential bidders were able to place bids at any price (in increments of \$0.25) at or above the minimum bid price of \$7.50 per warrant. The minimum bid size was 100 warrants. The public offering price of the warrants is equal to the auction clearing price of \$11.75. The clearing price was equal to the highest price at which all of the offered warrants could be sold in the auction. In certain cases described in this prospectus supplement, bidders may experience pro-ration of their bids. The method for submitting bids and a more detailed description of this auction process are described in “Auction Process” beginning on page S-14 of this prospectus supplement.

Investing in our warrants and our common stock involves risks. See “[Risk Factors](#)” on page S-5 of this prospectus supplement and the sections entitled “Risk Factors” in our most recently filed Annual Report on Form 10-K and any subsequently filed Quarterly Reports on Form 10-Q for factors you should consider before investing in our securities.

The warrants and the underlying common stock are neither deposits nor savings accounts, and are not guaranteed by the United States Department of the Treasury or insured by the Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

You must meet minimum suitability standards in order to purchase the warrants. You must be able to understand and bear the risk of an investment in the warrants and should be experienced with respect to options and option transactions. You should reach an investment decision only after careful consideration, with your advisers, of the suitability of the warrants in light of your particular financial circumstances and the information in this prospectus supplement. **The warrants involve a high degree of risk, are not appropriate for every investor and may expire worthless.**

None of the Securities and Exchange Commission, any state securities commission nor any other regulatory body has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

	Per Warrant	Total
Public offering price	\$ 11.75	\$ 148,731,030.00
Underwriting discounts and commissions	\$ 0.17625	\$ 2,230,965.45
Proceeds, before expenses, to the selling security holder	\$ 11.57375	\$ 146,500,064.55

The underwriters expect to deliver the warrants in book-entry form only, through the facilities of The Depository Trust Company, against payment on or about December 9, 2009.

Deutsche Bank Securities

Siebert Capital Markets

ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement and the accompanying prospectus are part of a registration statement that we filed with the Securities and Exchange Commission (the “SEC”) using a shelf registration process. Both this prospectus supplement and the accompanying prospectus include or incorporate by reference important information about us, the warrants, our common stock and other information you should know before investing. You should read this prospectus supplement and the accompanying prospectus as well as additional information described under “Where You Can Find More Information” in this prospectus supplement.

You should rely only on the information contained or incorporated by reference in this prospectus supplement and the accompanying prospectus. Neither we nor any underwriter or agent nor the selling security holder have authorized anyone to provide you with information that is different. This prospectus supplement and the accompanying prospectus do not constitute an offer to sell or a solicitation of an offer to buy by anyone in any jurisdiction in which such offer or solicitation is not authorized, or in which the person is not qualified to do so or to any person to whom it is unlawful to make such offer or solicitation. Neither the delivery of this prospectus supplement and the accompanying prospectus nor any sale hereunder shall, under any circumstances, create any implication that there has been no change in our affairs since the date of this prospectus supplement, that the information contained herein is correct as of any time subsequent to the date hereof or that any information incorporated or deemed incorporated by reference herein is correct as of any time subsequent to the date hereof. If the information set forth in this prospectus supplement differs in any way from the information set forth in the accompanying prospectus, you should rely on the information set forth in this prospectus supplement.

Unless otherwise mentioned or unless the context requires otherwise, all references in this prospectus supplement to “Capital One,” “we,” “our” and “us” mean Capital One Financial Corporation together with its consolidated subsidiaries.

WHERE YOU CAN FIND MORE INFORMATION

We have filed a registration statement with the SEC. The accompanying prospectus is part of the registration statement, and the registration statement also contains additional information and exhibits. In addition, we are subject to the information and reporting requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), under which we have filed and will file annual, quarterly and special reports, proxy statements and other information with the SEC. Copies of those reports, proxies and information statements may be examined at the SEC’s public reference room at 100 F Street, N.E., Washington, D.C. 20549, where copies of all or a portion of such materials can be obtained. You can call the SEC for further information about its public reference room at 1-800-732-0330. Such material is also available at the SEC’s website at www.sec.gov or at our website at www.capitalone.com. Information on our website does not constitute a part of this prospectus supplement and is not incorporated by reference herein.

The SEC allows us to incorporate documents by reference in this prospectus supplement. This means that if we list or refer to a document that we have filed with the SEC in this prospectus supplement, that document is considered to be a part of this prospectus supplement and should be read with the same care. Documents that we file with the SEC in the future that are incorporated by reference will automatically update and supersede information incorporated by reference in this prospectus supplement and the accompanying prospectus. The documents listed below are incorporated by reference into this prospectus supplement:

- our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, filed on February 26, 2009 (including the portions of our Proxy Statement on Schedule 14A, filed on March 13, 2009, incorporated by reference therein);
- our Quarterly Reports on Form 10-Q for the quarterly periods ended March 31, 2009, June 30, 2009 and September 30, 2009 (filed on May 8, 2009, August 10, 2009 and November 9, 2009, respectively);

[Table of Contents](#)

- our Current Reports on Form 8-K filed on January 22, 2009 (Item 8.01 information only), February 3, 2009, March 2, 2009 (Item 8.01 information only), March 9, 2009 (Item 8.01 information only), March 12, 2009, April 21, 2009 (Item 8.01 information only), May 8, 2009 (Item 8.01 Information only), May 12, 2009 (Item 1.01 information only), May 22, 2009, June 9, 2009, June 17, 2009, July 23, 2009 (Item 8.01 information only), August 6, 2009, October 22, 2009 (Item 8.01 information only), and November 13, 2009 (Item 8.01 information only); and
- any documents filed by us pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act on or after the date of this prospectus supplement and before the termination of the offering of the securities (which filed documents do not include any portion thereof containing information furnished rather than filed under either Item 2.02 or 7.01, or any related exhibit, of any Current Report on Form 8-K).

You may request a copy of any or all of these filings from us, at no cost, by writing or telephoning us at 1680 Capital One Drive, McLean, Virginia 22102, Attention: Investor Relations Department, telephone: (703) 720-2455.

FORWARD-LOOKING STATEMENTS

The information in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Exchange Act. All such forward-looking statements (which will generally be identified by words such as “anticipate,” “estimate,” “expect,” “intend,” “plan,” “believe,” “should” and similar words and phrases) are based upon current beliefs and expectations and are subject to significant risks and uncertainties, some of which are beyond our control. Actual results may differ from those anticipated by such forward-looking statements. Factors that could cause results to differ materially from those described in the forward-looking statements can be found under the heading “Risk Factors” below and in the documents incorporated by reference herein. All forward-looking statements speak only as of the date on which such statements are made, and may turn out to be wrong. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events.

SUMMARY

This summary highlights selected information contained elsewhere or incorporated by reference in this prospectus supplement and may not contain all the information that you need to consider in making your investment decision. You should carefully read this entire prospectus supplement and the accompanying prospectus, as well as the information to which we refer you and the information incorporated by reference herein, before deciding whether to invest in the warrants or the common stock. You should carefully consider the sections entitled “Risk Factors” in this prospectus supplement and the documents incorporated by reference herein to determine whether an investment in the warrants and the common stock is appropriate for you.

The Issuer

We are a diversified banking corporation whose principal subsidiaries, Capital One, N.A. and Capital One Bank (USA), N.A., offer a broad spectrum of financial products and services to consumers, small businesses, and commercial clients. For more information on Capital One, see the documents incorporated by reference into this prospectus supplement and the accompanying prospectus.

The Offering

The following summary contains basic information about the warrants, the common stock and the auction process and is not intended to be complete. It does not contain all the information that is important to you. For a more complete understanding of the warrants and the common stock, you should read the section of this prospectus supplement entitled “Description of Warrants” and the sections of the accompanying prospectus entitled “Description of Warrants” and “Description of Common Stock.”

Issuer	Capital One Financial Corporation.
Warrants offered by the selling security holder	12,657,960 warrants, each of which represents the right to purchase one share of our common stock at an exercise price of \$42.13 per share (subject to adjustment). The exercise price cannot be paid in cash and is payable only by netting out a number of shares of our common stock issuable upon exercise of the warrants equal to the value of the aggregate exercise price of the warrants. The warrants are currently exercisable and expire on November 14, 2018. See “Auction Process.”
Common stock outstanding after this offering	449,609,391 shares ⁽¹⁾⁽²⁾ .
Auction Process	The selling security holder and the underwriters will determine the public offering price and the allocation of the warrants in this offering through an auction process conducted by Deutsche Bank Securities Inc., the sole book-running manager, in its capacity as the auction agent. The auction will entail a modified “Dutch auction” mechanic in which bids may be submitted through the auction agent or one of the other brokers that is a member of the broker network (collectively, the “network brokers”) established in connection with the auction process. Each broker will make suitability determinations with respect to its own customers wishing to participate in the auction process. The auction agent will not provide bidders (including us) with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction. We may bid in the auction for some or all of the warrants. We encourage you to discuss any questions regarding the bidding process and suitability determinations applicable to your bids with your broker. For more information about the auction process, see “Auction Process.”
Minimum bid price and price increments	The offering will be made using an auction process in which prospective purchasers are required to bid for the warrants. During the auction period, bids may be placed by qualifying bidders at any price (in increments of \$0.25) at or above the minimum bid price of \$7.50 per warrant. See “Auction Process.”

Minimum bid size	100 warrants
Submission deadline	The auction commenced at 8:00 a.m., New York City time, on December 3, 2009, the date specified by the auction agent via press release prior to the opening of the equity markets on such day, and closed at 6:30 p.m. on that same day (the “submission deadline”).
Irrevocability of bids	Bids that have not been modified or withdrawn by the time of the submission deadline are final and irrevocable, and bidders who submit successful bids will be obligated to purchase the warrants allocated to them. The auction agent is under no obligation to reconfirm bids for any reason; however, the auction agent may require that bidders confirm their bids at its discretion before the auction process closes. See “Auction Process.”
Clearing price	<p>The price at which the warrants will be sold to the public will be the clearing price set by the auction process, which is \$11.75. The clearing price was determined based on the valid irrevocable bids at the time of the final submission deadline as follows:</p> <ul style="list-style-type: none">• If valid irrevocable bids are received for all or more of the number of warrants being offered, the clearing price will be equal to the highest price in the auction at which the quantity of all bids at or above such price equals 100% or more of the number of warrants being offered in the auction.• If bids are received for half or more, but less than all, of the offered warrants, the clearing price will be equal to the minimum bid price of \$7.50 per warrant. <p>Unless the selling security holder decides not to sell any warrants or as otherwise described below, the warrants will be sold to bidders at the clearing price. If the selling security holder decides to sell warrants in the auction, after the selling security holder confirms its acceptance of the clearing price (and, in the case where bids are received for fewer than 100% of the warrants being offered, the number of warrants to be sold), the auction agent and each network broker that has submitted bids will notify successful bidders that the auction has closed and that their bids have been accepted. The clearing price and number of warrants being sold are also expected to be announced via press release prior to the opening of the equity markets on the business day following the end of the auction. See “Auction Process.”</p>
Number of warrants to be sold	12,657,960. If bids are received for half or more, but less than all, of the offered warrants, then the selling security holder may (but is not required to) sell, at the minimum bid price in the auction

	(which will be deemed the clearing price) as many warrants as it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold. If bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering. Even if bids are received for all of the warrants, the selling security holder may decide not to sell any warrants in the auction, regardless of the clearing price. See “Auction Process.”
Allocation; pro-ration	If bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, then any bids submitted in the auction above the clearing price will receive allocations in full, while any bids submitted at the clearing price may experience pro-rata allocation. If bids for half or more, but fewer than all, of the warrants offered in this offering are received, and the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation. See “Auction Process.”
Our participation in the auction	We could participate in the auction by submitting bids for the warrants. Although we are under no obligation to participate in the auction, we would participate on the same basis as all other bidders and will not receive preferential treatment of any kind.
Use of proceeds	We will not receive any proceeds from the sale of any of the warrants offered by the selling security holder.
Risk factors	See “Risk Factors” and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus for a discussion of factors you should consider carefully before deciding to invest in the warrants.
Listing	The warrants have been approved for listing, subject to notice of issuance, on the New York Stock Exchange (the “Exchange”) under the symbol “COF WS.” Our common stock is listed on the Exchange under the symbol “COF.”
Warrant Agent	Computershare Trust Company, N.A.
Auction Agent	Deutsche Bank Securities Inc.
Network Brokers	See page S-15 for a list of brokers participating as network brokers in the auction.
<hr/> (1) The number of shares of common stock outstanding immediately after the closing of this offering is based on 449,609,391 shares of common stock outstanding as of September 30, 2009.	
(2) Unless otherwise indicated, the number of shares of common stock outstanding after the offering presented in this prospectus supplement excludes shares issuable upon exercise of the warrants and 47,014,878 shares of our common stock held in treasury and 29,682,656 shares of our common stock issuable upon the exercise of stock options and restricted stock awards outstanding under our stock compensation plans.	

RISK FACTORS

An investment in our securities involves certain risks. You should carefully consider the risks described below and the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2009, June 30, 2009 and September 30, 2009, as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of the warrants and/or our common stock could decline due to any of these risks, and you may lose all or part of your investment. This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us that are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Reports on Form 10-Q for the quarters ended March 31, 2009, June 30, 2009 and September 30, 2009 and those that are described below and elsewhere in this prospectus supplement and the accompanying prospectus.

Risks Related to the Auction Process

The price of the warrants could decline rapidly and significantly following this offering.

The public offering price of the warrants, which will be the auction clearing price, will be determined through an auction process conducted by the selling security holder and the auction agent. Although the warrants have been approved for listing, subject to notice of issuance, on the Exchange, prior to this offering there has been no public market for the warrants, and the public offering price may bear no relation to market demand for the warrants once trading begins. We have been informed by both Treasury and Deutsche Bank Securities Inc. (“Deutsche Bank Securities”), as the auction agent, that they believe that the bidding process will reveal a clearing price for the warrants offered in the auction, which will be the highest price at which all of the warrants offered may be sold to bidders. If there is little or no demand for the warrants at or above the public offering price once trading begins, the price of the warrants would likely decline following the offering. Limited or less-than-expected liquidity in the warrants, including decreased liquidity due to a sale of less than all of the warrants being offered or a purchase of warrants by us in the auction, could also cause the trading price of the warrants to decline. In addition, the auction process may lead to more volatility in, or a decline in, the trading price of the warrants after the initial sales of the warrants in the offering. If your objective is to make short-term profit by selling the warrants you purchase in the offering shortly after trading begins, you should not submit a bid in the auction.

The minimum bid price that the auction agent has set for the warrants in this offering may bear no relation to the price of the warrants after the offering.

Prior to this offering, there has been no public market for the warrants. The minimum bid price set forth in this prospectus supplement was agreed by Deutsche Bank Securities, the sole book running manager of this offering, and Treasury. We did not participate in the determination of the minimum bid price and therefore cannot provide any information regarding the factors that the Treasury and Deutsche Bank Securities considered in such determination. An analysis of the value of complex securities such as the warrants is necessarily uncertain as it may depend on several key variables, including for example the volatility of the trading prices of the underlying security. We cannot assure you that the price at which the warrants will trade after completion of the offering will exceed this minimum bid price, or that the Treasury will choose to or will succeed in selling, any or all of the warrants at a price equal to or in excess of the minimum bid price.

The auction process for this offering may result in a phenomenon known as the “winner’s curse,” and, as a result, investors may experience significant losses.

The auction process for this offering may result in a phenomenon known as the “winner’s curse.” At the conclusion of the auction, successful bidders that receive allocations of warrants in this offering may infer that

[Table of Contents](#)

there is little incremental demand for the warrants above or equal to the public offering price. As a result, successful bidders may conclude that they paid too much for the warrants and could seek to immediately sell their warrants to limit their losses should the price of the warrants decline in trading after the auction is completed. In this situation, other investors that did not submit successful bids may wait for this selling to be completed, resulting in reduced demand for the warrants in the public market and a significant decline in the price of the warrants. Therefore, we caution investors that submitting successful bids and receiving allocations may be followed by a significant decline in the value of their investment in the warrants shortly after this offering.

The auction process for this offering may result in a situation in which less price sensitive investors play a larger role in the determination of the public offering price and constitute a larger portion of the investors in this offering, and, therefore, the public offering price may not be sustainable once trading of warrants begins.

In a typical public offering of securities, a majority of the securities sold to the public are purchased by professional investors that have significant experience in determining valuations for companies in connection with such offerings. These professional investors typically have access to, or conduct their own, independent research and analysis regarding investments in such offerings. Other investors typically have less access to this level of research and analysis, and as a result, may be less sensitive to price when participating in the auction for this offering. These less price sensitive investors may have a greater influence in setting the public offering price (because a larger number of higher bids may cause the clearing price in the auction to be higher than it would otherwise have been absent such bids) and may have a higher level of participation in this offering than is normal for other such offerings. This, in turn, could cause the auction to result in a public offering price that is higher than the price professional investors are willing to pay for the warrants. As a result, the price of the warrants may decrease once trading of the warrants begins. Also, because professional investors may have a substantial degree of influence on the trading price of the warrants over time, the price of the warrants may decline and not recover after this offering. Furthermore, if the public offering price of the warrants is above the level that investors determine is reasonable for the warrants, some investors may attempt to short sell the warrants after trading begins, which would create additional downward pressure on the trading price of the warrants.

We are permitted to participate in the auction for the warrants and, if we do so, that could have the effect of raising the clearing price and decreasing liquidity in the market for the warrants.

We are permitted to submit bids in the auction. Although we would participate on the same basis as all other bidders and will not receive preferential treatment of any kind, in some cases the submission of bids by us could cause the clearing price in an auction to be higher than it would otherwise have been (although in such a case we would still be required to purchase any warrants for which we had submitted bids at the clearing price). In addition, to the extent we purchase any warrants, the liquidity of any market for the warrants may decrease, particularly if any such purchases represent a significant percentage of the outstanding warrants.

If the offering is completed, we may from time to time repurchase and retire the warrants in open market purchases or on a privately negotiated basis. Any such repurchases would also decrease liquidity in the market for the warrants.

The clearing price for the warrants may bear little or no relationship to the price that would be established using traditional valuation methods or the market price of our common stock.

The public offering price of the warrants will be equal to the auction clearing price. The clearing price of the warrants may have little or no relationship to, and may be significantly higher than, the price that otherwise would be established using traditional indicators of value, such as our future prospects and those of our industry in general; our revenues, earnings, and other financial and operating information; multiples of revenue, earnings, cash flows, and other operating metrics; market prices of securities and other financial and operating information of companies engaged in activities similar to ours; and the views of research analysts. The trading price of the

warrants may vary significantly from the public offering price. Potential investors should not submit a bid in the auction for this offering unless they are willing to take the risk that the price of the warrants could decline significantly.

No maximum price or set auction price range has been established in connection with the auction, and any bids submitted as “market bids” will be included at the highest bid received from any bidder.

Although the auction agent has established a minimum bid in connection with the auction, no maximum price or set auction price range has been implemented, meaning that there is no ceiling on the per-warrant amount that an investor can bid in the auction. If a bidder submits a market bid (*i.e.*, a bid that specifies the number of warrants the bidder is willing to purchase without specifying the price it is willing to pay), that bid will be treated as a bid at the highest price received from any other bidder in the auction. Because market bids will increase the number of warrants that are covered by bids at the highest price received, the submission of market bids could cause the clearing price in the auction to be higher than it would otherwise have been absent such market bids. Since the only information being provided in connection with the auction is the minimum bid price and the auction agent is under no obligation to reconfirm bids for any reason, potential investors should carefully evaluate all factors that may be relevant about us, our operations or the warrants in determining the appropriateness of any bids they may submit.

Successful bidders may receive the full number of warrants subject to their bids, so potential investors should not make bids for more warrants than they are prepared to purchase.

Each bidder may submit multiple bids. However, as bids are independent, each bid may result in an allocation of warrants. Allocation of the warrants will be determined by, first, allocating warrants to any bids made above the clearing price, and second, allocating warrants on a pro-rata basis among bids made at the clearing price. If bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, the bids of successful bidders that are above the clearing price will be allocated all of the warrants represented by such bids, and only bids submitted at the clearing price will experience any pro-rata allocation. Bids that have not been modified or withdrawn by the time of the submission deadline are final and irrevocable, and bidders who submit successful bids will be obligated to purchase the warrants allocated to them. Accordingly, the sum of a bidder's bid sizes as of the submission deadline should be no more than the total number of warrants the bidder is willing to purchase, and we caution investors against submitting a bid that does not accurately represent the number of warrants that they are willing and prepared to purchase.

Submitting a bid does not guarantee an allocation of warrants, even if a bidder submits a bid at or above the public offering price of the warrants.

The auction agent may require, at its discretion, that bidders confirm their bids before the auction closes (although the auction agent is under no obligation to reconfirm bids for any reason). If a bidder is requested to confirm a bid and fails to do so within the permitted time period, that bid may be deemed to have been withdrawn and, accordingly, that bidder may not receive an allocation of warrants even if the bid is at or above the public offering price. The auction agent may, however, choose to accept any such bid even if it has not been reconfirmed. In addition, the auction agent may determine in some cases to impose size limits on the aggregate size of bids that it chooses to accept from any broker, and may reject any bid that it determines, in its discretion, has a potentially manipulative, disruptive or other adverse effect on the bidding process. Furthermore, if bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, each bid submitted at the clearing price will be allocated a number of warrants approximately equal to the pro-rata allocation percentage multiplied by the number of warrants represented by such bid, rounded to the nearest whole number of warrants (subject to rounding in certain cases). Similarly, if bids for half or more, but fewer than all, of the warrants offered in this offering are received, and the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal

pro-rata allocation. The selling security holder could also decide, in its sole discretion, not to sell any warrants in the offering after the clearing price has been determined. As a result of these factors, you may not receive an allocation for all the warrants for which you submit a bid.

We cannot assure you that the auction will be successful or that the full number of offered warrants will be sold.

If sufficient bids are received and accepted by the auction agent to enable the selling security holder to sell all of the warrants in the offering, the public offering price will be set at the auction clearing price (unless the selling security holder decides, in its sole discretion, not to sell any warrants in the offering after the clearing price is determined). If, however, bids are received for half or more, but less than all, of the offered warrants, then the selling security holder may (but is not required to) sell, at the minimum bid price in the auction (which will be deemed the clearing price) as many warrants as it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold. If bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering. Even if bids are received for all of the offered warrants, the selling security holder is not obligated to sell any warrants regardless of the clearing price set through the auction process. The liquidity of the warrants may be limited if less than all of the offered warrants are sold by the selling security holder, or if we are a winning bidder in the auction and become a significant holder of the warrants following allocation. Possible future sales of the selling security holder's remaining warrants, if any are held following this offering, could affect the trading price of the warrants sold in this offering.

Submitting bids through a network broker or any other broker that is not the auction agent may in some circumstances shorten the deadlines for potential investors to submit, modify or withdraw their bids.

In order to participate in the auction, bidders must have an account with, and submit bids to purchase warrants through, either the auction agent or a network broker (as defined below under "Auction Process"). Brokers that are not network brokers will need to submit their bids, either for their own account or on behalf of their customers, through the auction agent or a network broker. Potential investors and brokers that wish to submit bids in the auction and do not have an account with the auction agent or a network broker must either establish such an account prior to bidding in the auction or cause a broker that has such an account to submit an auction bid through that account. Network brokers and other brokers will impose earlier submission deadlines than that imposed by the auction agent in order to have sufficient time to aggregate bids received from their respective customers and to transmit the aggregate bid to the auction agent (or, in the case of non-network brokers submitting bids through a network broker, to such network broker to transmit to the auction agent) before the auction closes. As a result of such earlier submission deadlines, potential investors who submit bids through a network broker, or brokers that submit bids through the auction agent or a network broker, will need to submit or withdraw their bids earlier than other bidders, and it may in some circumstances be more difficult for such bids to be submitted, modified or withdrawn.

Risks Related to the Warrants

The warrants are a risky investment. You may not be able to recover the value of your investment in the warrants, and the warrants may expire worthless.

Our current stock price is below the exercise price of the warrants. In order for you to recover the value of your investment in the warrants, either a trading market must develop for the warrants and the trading price of the warrants must exceed the public offering price, or our stock price must increase to more than the sum of the exercise price of the warrants (\$42.13) and the clearing price of the warrants sold in the auction. If, for example, the clearing price of the warrants were the minimum bid price set by the auction agent, our stock price would have to be more than \$49.63 for you to have an opportunity to exercise the warrants and achieve a positive return on your investment.

The warrants are only exercisable until November 14, 2018. In the event our common stock price does not increase to the level discussed above during the period when the warrants are exercisable, you will likely not be able to recover the value of your investment in the warrants. In addition, if our common stock price remains below the exercise price of the warrants, the warrants may not have any value and may expire without being exercised, in which case you will lose your entire investment. There can be no assurance that the trading price of our common stock will exceed the exercise price or the price required for you to achieve a positive return on your investment. Furthermore, upon exercise of the warrants, you will receive a number of shares of stock calculated based on the closing price of our common stock on that day. Accordingly, the number of shares and the value of the common stock you receive upon exercise of the warrants will depend on the day on which you choose to exercise those warrants.

There is no existing market for the warrants, and you cannot be certain that an active market will be established.

Prior to this offering, there has been no existing trading market for the warrants. The public offering price for the warrants was determined by an auction process, and may not be indicative of the price that will prevail in the trading market following this offering. The market price for the warrants may decline below the public offering price, and may be volatile. The liquidity of any market for the warrants will depend on a number of factors, including but not limited to:

- the number of warrants, if any, that we and/or investors purchase in the auction;
- the number of warrants that the selling security holder elects to sell in this offering;
- the number of holders of the warrants;
- our performance;
- the market for similar securities;
- the interest of securities dealers in making a market in the warrants; and
- the market price of our common stock.

In addition, many of the risks that are described elsewhere in this “Risk Factors” section and under the heading “Risk Factors” in our most recently filed Annual Report on 10-K and Quarterly Reports on Form 10-Q could materially and adversely affect the price of the warrants.

The warrants are not suitable for all investors.

The warrants are complex financial instruments for which there is no established trading market. Accordingly, the auction agent, each network broker and any other broker that submits bids through the auction agent or any network broker will be required to establish and enforce client suitability standards, including eligibility, account status and size, to evaluate whether an investment in the warrants is appropriate for any particular investor. Each of them will individually apply its own standards in making that determination, but in each case those standards will be implemented in accordance with the applicable requirements and guidelines of the Financial Industry Regulatory Authority, Inc. (“FINRA”). If you do not meet the relevant suitability requirements of the auction agent or another broker, you will not be able to bid in the auction. **You should be prepared to sustain a total loss of the purchase price of your warrants.**

Purchasers of warrants who exercise their warrants for shares of common stock will incur immediate and future dilution.

Upon exercise of your warrants for shares of common stock, you could experience immediate and substantial dilution if the exercise price of your warrants at the time were higher than the net tangible book value

per share of the outstanding common stock. In addition, you will experience dilution (subject to the anti-dilution protections contained in the warrants and described herein) when we issue additional shares of common stock that we are permitted or required to issue in any future offerings or under outstanding options and warrants and under our stock option plan or other employee or director compensation plans.

The trading value of the warrants will be significantly affected by the price of our common stock, which has been volatile.

The market price of our common stock will significantly affect the market price of the warrants, and the resulting percentage change in the market price of our warrants is likely to be much higher than the percentage change in the market price of our common stock. We cannot predict whether the price of our common stock will rise or fall, and the market price of our common stock has been volatile. Negative announcements about our results or business could trigger significant declines in our stock price. In addition, external events, such as news concerning economic conditions, our competitors, our customers or changes in government regulations affecting the financial services industry also are likely to affect our stock price, regardless of our operating performance. Furthermore, general market conditions, including the level of, and fluctuations in, the trading prices of stocks generally, could affect our stock price. Recently, stock markets have experienced price and volume volatility that has affected many companies' stock prices, and stock prices for many companies have experienced wide fluctuations sometimes unrelated to their operating performance. Fluctuations such as these may affect the market price of our common stock. The price of our common stock also could be affected by possible sales of common stock by investors who view the warrants as a more attractive means of equity participation in us and by hedging or arbitrage activity involving our common stock. The hedging or arbitrage could, in turn, affect the trading prices of the warrants.

Holders of the warrants will have no rights as a common stockholder until they acquire our common stock.

Until you acquire shares of our common stock upon exercise of the warrants, you will have no rights with respect to our common stock, including rights to dividend payments, vote or respond to tender offers. Upon exercise of your warrants, you will be entitled to exercise the rights of a common stockholder only as to matters for which the record date occurs after the exercise date.

The exercise price of, and the number of shares underlying, the warrants may not be adjusted for all dilutive events.

The exercise price of and the number of shares underlying the warrants are subject to adjustment for certain events, including, but not limited to, the issuance of stock dividends on our common stock, the issuance of certain rights or warrants, subdivisions, combinations, distributions of capital stock, indebtedness or assets, certain cash dividends and certain issuer tender or exchange offers as described under "Description of Warrants—Adjustments to the Warrants." The exercise price will not be adjusted, however, for other events, such as a third-party tender or exchange offer, a merger or reorganization in which our common stock is acquired for cash or an issuance of common stock for cash, that may adversely affect the trading price of the warrants or our common stock. Other events that adversely affect the value of the warrants may occur that do not result in an adjustment to such exercise price.

Additionally, the exercise price of, and the number of shares underlying, the warrants will not be adjusted for any regular quarterly cash dividends that are in the aggregate less than or equal to \$0.375 per share of common stock, which is the amount of the last dividend per share declared prior to the date on which the warrants were originally issued to Treasury on November 14, 2008. The current quarterly cash dividend paid on our common stock is \$0.05 per share. Holders of our common stock are only entitled to receive such dividends as our board of directors may declare, and our board of directors, in its sole discretion, may decide to increase the quarterly dividend on our common stock at any time.

Your return on the warrants will not reflect dividends on our common stock.

Your return on the warrants will not reflect the return you would realize if you actually owned shares of our common stock and received any dividends paid on our common stock other than to the extent described below under “Description of Warrants—Adjustments to the Warrants.” If we increase our regular quarterly dividends in the future, your warrants will not be adjusted for, and you will not receive any benefit of, any regular quarterly dividend less than or equal to \$0.375 per share per quarter.

The warrant agreement is not an indenture qualified under the Trust Indenture Act, and the obligations of the warrant agent are limited.

The warrant agreement is not an indenture qualified under the Trust Indenture Act of 1939, as amended (the “TIA”), and the warrant agent is not a trustee qualified under the TIA. Accordingly, warrantholders will not have the benefits of the protections of the TIA. Under the terms of the warrant agreement, the warrant agent will have only limited obligations to the warrantholders. Accordingly, it may in some circumstances be difficult for warrant holders, acting individually or collectively, to take actions to enforce their rights under the warrants or the warrant agreement.

The selling security holder is a federal agency and your ability to bring a claim against the selling security holder under the federal securities laws may be limited.

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act (the “FTCA”), provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The FTCA bars claims for fraud or misrepresentation. At least one federal court, in a case involving a federal agency, has held that the United States may assert its sovereign immunity to claims brought under the federal securities laws. In addition, the selling security holder and its officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. Accordingly, any attempt to assert such a claim against the officers, agents or employees of the selling security holder for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus supplement is a part, or resulting from any other act or omission in connection with the offering of the warrants by the selling security holder or the shares of common stock issuable upon the exercise thereof, would likely be barred.

Hedging arrangements relating to the warrants may affect the value of the common stock.

In order to hedge their positions, holders of our warrants may enter into derivative transactions with respect to our common stock, may unwind or adjust derivative transactions and may purchase or sell our common stock in secondary market transactions. The effect, if any, of any of these activities on the trading price of our common stock will depend in part on market conditions and cannot be ascertained in advance, but any of these activities could adversely affect the value of the common stock.

Risks Related to our Common Stock

The price of our common stock may fluctuate significantly, and this may make it difficult for you to resell shares of common stock owned by you at times or at prices you find attractive.

The trading price of our common stock may fluctuate widely as a result of a number of factors, many of which are outside our control. In addition, the stock market is subject to fluctuations in the share prices and trading volumes that affect the market prices of the shares of many companies. These broad market fluctuations

have adversely affected and may continue to adversely affect the market price of our common stock. Among the factors that could affect our stock price are:

- actual or anticipated quarterly fluctuations in our operating results and financial condition;
- changes in revenue or earnings estimates or publication of research reports and recommendations by financial analysts or actions taken by rating agencies with respect to our securities or those of other financial institutions;
- failure to meet analysts' revenue or earnings estimates;
- speculation in the press or investment community generally or relating to our reputation or the financial services industry;
- strategic actions by us or our competitors, such as acquisitions or restructurings;
- actions by institutional shareholders;
- fluctuations in the stock price and operating results of our competitors;
- future sales of our equity or equity-related securities;
- changes in the frequency or amount of dividends or share repurchases;
- proposed or adopted regulatory changes or developments;
- anticipated or pending investigations, proceedings, or litigation that involve or affect us;
- domestic and international economic factors unrelated to our performance; or
- general market conditions and, in particular, developments related to market conditions for the financial services industry.

A significant decline in our stock price could result in substantial losses for individual shareholders and could lead to costly and disruptive securities litigation.

There may be future sales or other dilution of our equity, which may adversely affect the market price of our common stock.

Except as described under "Underwriting," we are not restricted from issuing additional shares of common stock, including any securities that are convertible into or exchangeable for, or that represent the right to receive, common stock. The issuance of any additional shares of common or of preferred stock or convertible securities could be substantially dilutive to shareholders of our common stock. Moreover, to the extent that we issue restricted stock units, stock appreciation rights, options, or warrants to purchase our common stock in the future and those stock appreciation rights, options, or warrants are exercised or as the restricted stock units vest, our shareholders may experience further dilution. Holders of our shares of common stock have no preemptive rights that entitle holders to purchase their pro rata share of any offering of shares of any class or series and, therefore, such sales or offerings could result in increased dilution to our shareholders. The market price of our common stock could decline as a result of sales of shares of our common stock made after this offering or the perception that such sales could occur.

You may not receive dividends on the common stock.

Holders of our common stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. Although we have historically declared cash dividends on our common stock, we are not required to do so and may reduce or eliminate our common stock dividend in the future. This could adversely affect the market price of our common stock.

We are a holding company and depend on our subsidiaries for dividends, distributions and other payments.

We are a holding company and, accordingly, substantially all of our operations are conducted through our subsidiaries. As a result, our cash flow and our ability to make dividend payments to our common stockholders depends upon the earnings of our subsidiaries. In addition, we depend on the distribution of earnings, loans or other payments by our subsidiaries to us. Our subsidiaries are separate and distinct legal entities, and regulations relating to capital requirements affect the ability of Capital One Bank (USA), N.A. and Capital One, N.A. to pay dividends and other distributions to us and to make loans to us. Payments to us by our subsidiaries also will be contingent upon those subsidiaries' earnings and business considerations. Furthermore, our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization is subject to the prior claims of the subsidiary's creditors. In addition, even if we were a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of those subsidiaries and any indebtedness of those subsidiaries senior to that held by us.

The common stock is equity and is subordinate to our existing and future indebtedness and preferred stock.

Shares of the common stock are equity interests in Capital One and do not constitute indebtedness. As such, shares of the common stock will rank junior to all indebtedness and other non-equity claims on Capital One with respect to assets available to satisfy claims on Capital One, including in a liquidation of Capital One. Additionally, holders of our common stock are subject to the prior dividend and liquidation rights of any holders of our preferred stock or depository shares representing such preferred stock then outstanding.

Dividends on the common stock are payable only if declared by our board of directors and are subject to restrictions on payments of dividends out of lawfully available funds. Also, as a consolidated supervisory entity, our ability to declare and pay dividends is dependent on certain federal regulatory considerations. Capital One has issued and outstanding debt securities under which we may defer interest payments from time to time, but in that case we would not be permitted to pay dividends on, or redeem, purchase, acquire or make a liquidation payment with respect to, any of our capital stock, including the common stock, during the deferral period. In addition, Capital One has issued and outstanding debt securities under which, if we are aware of any event that would be an event of default under the indenture governing those debt securities, we would not be permitted to pay dividends on, or redeem, purchase, acquire or making a liquidation payment with respect to, any of our capital stock, including the common stock.

Anti-takeover provisions could adversely affect our stockholders.

Provisions of Delaware law and of our certificate of incorporation and bylaws could make it more difficult for a third party to acquire control of us or have the effect of discouraging a third party from attempting to acquire control of us. For example, we are subject to Section 203 of the Delaware General Corporation Law, which would make it more difficult for another party to acquire us without the approval of our board of directors. Additionally, our certificate of incorporation authorizes our board of directors to issue preferred stock, which could be issued as a defensive measure in response to a takeover proposal. These provisions could make it more difficult for a third party to acquire us even if an acquisition might be in the best interest of our stockholders.

AUCTION PROCESS

The following describes the auction process used to determine the public offering price of the warrants. That process differs from methods traditionally used in other underwritten public offerings. The selling security holder and the underwriters will determine the public offering price and the allocation of the warrants in this offering by an auction process conducted by the sole book-running manager, Deutsche Bank Securities, in its capacity as the “auction agent.” This process will involve a modified “Dutch auction” mechanic in which the auction agent (working with a number of other brokers) will receive and accept bids from bidders at either the minimum bid price of \$7.50 or at price increments of \$0.25. We could bid in the auction for some or all of the warrants. After the auction closes and those bids become irrevocable (which will occur automatically at the submission deadline to the extent such bids have not been modified or withdrawn at that time), the auction agent will determine the clearing price for the sale of the warrants offered hereby and, if the selling security holder chooses to proceed with the offering (which it has), the underwriters will allocate warrants to the winning bidders. The auction agent has reserved the right to round allocations to eliminate odd-lots. The clearing price for the warrants may bear little or no relationship to the price that would be established using traditional valuation methods. You should carefully consider the risks described under “Risk Factors—Risks Related to the Auction Process” beginning on page S-5.

Eligibility and Account Status

In order to participate in the auction, bidders must have an account with, and submit bids to purchase warrants through, either the auction agent or one of the other brokers that is a member of the broker network (collectively, the “network brokers”) established in connection with the auction. Brokers that are not network brokers will need to submit their bids, either for their own account or on behalf of their customers, through the auction agent or a network broker. If you wish to bid in the auction and do not have an account with the auction agent or a network broker, you will either need to establish such an account prior to bidding in the auction (which may be difficult to do before the submission deadline) or contact your existing broker and request that it submit an auction bid through the auction agent or a network broker. Network brokers and other brokers will have deadlines relating to the auction that are earlier than those imposed by the auction agent, as described below under “—The Auction Process—The Bidding Process.”

Because the warrants are complex financial instruments for which there is no established trading market, the auction agent, each network broker and any other broker that submits bids through the auction agent or any network broker will be required to establish and enforce client suitability standards, including eligibility, account status and size, to evaluate whether an investment in the warrants is appropriate for any particular investor. Each of them will individually apply its own standards in making that determination, but in each case those standards will be implemented in accordance with the applicable requirements and guidelines of FINRA. If you do not meet the relevant suitability requirements of the auction agent or another broker, you will not be able to bid in the auction. Accounts at the auction agent or any other broker, including broker accounts, are also subject to the customary rules of those institutions. You should contact your brokerage firm to better understand how you may submit bids in the auction.

The auction agent or network brokers may require bidders (including any brokers that may be bidding on behalf of their customers) to submit additional information, such as tax identification numbers, a valid e-mail address and other contact information, and other information that may be required to establish or maintain an account.

The auction agent and the network brokers, upon request, will provide certain information to you in connection with the offering, including this prospectus supplement and the accompanying prospectus and forms used by such brokers, if any, to submit bids. Additionally, you should understand that:

- before submitting a bid in the auction, you should read this prospectus supplement, including all the risk factors;

[Table of Contents](#)

- the minimum bid price was agreed by the auction agent and Treasury, and we did not participate in that determination and therefore cannot provide any information regarding the factors that Treasury and Deutsche Bank Securities considered in determining the minimum bid price;
- if bids are received for 100% or more of the offered warrants, the public offering price will be set at the auction clearing price (unless the selling security holder decides, in its sole discretion, not to sell any warrants in the offering after the clearing price is determined);
- if bids are received for half or more, but less than all, of the offered warrants, then the selling security holder may (but is not required to) sell, at the minimum bid price in the auction (which will be deemed the clearing price) as many warrants as it chooses to sell up to the number of bids received in the auction, so long as at least half of the offered warrants are sold, and that in such a case if the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation;
- if bids are received for less than half of the offered warrants, the selling security holder will not sell any warrants in this offering;
- if there is little or no demand for the warrants at or above the clearing price once trading begins, the price of the warrants will decline;
- we will be allowed to bid in the auction and, if we do participate, will participate on the same basis as all other bidders without receiving preferential treatment of any kind;
- the liquidity of any market for the warrants may be affected by the number of warrants that the selling security holder elects to sell in this offering and the number of warrants, if any, that we purchase in the auction, and the price of the warrants may decline if the warrants are illiquid;
- the auction agent has the right to reconfirm any bid at its discretion by contacting the purported bidder directly and to impose size limits on the aggregate size of bids that it chooses to accept from any bidder, including network brokers (although the auction agent is under no obligation to reconfirm bids for any reason). If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agent may deem your bid to have been withdrawn, but alternatively may in its discretion choose to accept any such bid even if it has not been reconfirmed;
- the auction agent may reject any bid that it determines, in its discretion, has a potentially manipulative, disruptive or other adverse effect on the bidding process; and
- the auction agent will not provide bidders (including us) with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction.

None of the underwriters, the selling security holder, or we have undertaken any efforts to qualify the warrants for sale in any jurisdiction outside the United States. Except to the limited extent that this offering will be open to certain non-U.S. investors under private placement exemptions in certain countries other than the United States, investors located outside the United States should not expect to be eligible to participate in this offering.

Even if a bidder places a bid in the auction, it may not receive an allocation of the warrants in the offering for a number of reasons described below. You should consider all the information in this prospectus supplement and the accompanying prospectus in determining whether to submit a bid, the number of warrants you seek to purchase and the price per warrant you are willing to pay.

The following brokers have agreed to be network brokers for purposes of the auction: BB&T Capital Markets, a Division of Scott & Stringfellow, LLC; Blaylock Robert Van, LLC; Cabrera Capital Markets, LLC; CastleOak Securities, L.P.; Citigroup Global Markets Inc.; Guzman & Company; Nomura Securities

[Table of Contents](#)

International, Inc.; Sandler O'Neill & Partners, L.P.; Muriel Siebert & Co., Inc.; SL Hare Capital, Inc.; Stifel, Nicolaus & Company, Incorporated; Toussaint Capital Partners, LLC; and Utendahl Capital Partners, L.P. The network brokers will not share in any underwriting discounts or fees paid by the selling security holder in connection with the offering of the warrants but may, subject to applicable FINRA and SEC rules and regulations, charge a separate commission to their own customers.

The Auction Process

The following describes how the auction agent will conduct the auction:

General

- The auction will commence at 8:00 a.m., New York City time, on the date specified by the auction agent (which was December 3, 2009), and will end at 6:30 p.m. on that same day (the “submission deadline”). Unless you submit your bids through the auction agent, your broker will have an earlier deadline for accepting bids. If a malfunction, technical or mechanical problem, calamity, crisis or other similar event occurs that the auction agent believes may interfere with the auction, the auction agent may (in consultation with the selling security holder) decide to extend the auction or cancel and reschedule the auction. The auction agent and the network brokers will advise bidders of any such decision to extend or cancel and reschedule the auction using e-mail, telephone or facsimile, and will attempt to make such notification prior to the time the auction is scheduled to close. If the auction is extended such that it closes at a later time on the same business day, any bids previously submitted will continue to be valid unless amended or cancelled by the bidder, but if the auction is extended such that it closes on the following business day or later, or is cancelled, all bids will be cancelled at the time of such extension or cancellation. We may bid in the auction in the manner described in the last bullet point under “—The Bidding Process” below.
- During the auction period, bids may be placed at any price (in increments of \$0.25) at or above the minimum bid price of \$7.50 per warrant.
- The auction agent and the network brokers will contact potential investors with information about the auction and how to participate and will solicit bids from prospective investors via electronic message, telephone and facsimile. The minimum size of any bid is 100 warrants.

The Bidding Process

- The auction agent and the network brokers will only accept bids in the auction at the minimum bid price and above the minimum bid price at increments of \$0.25.
- No maximum price or auction price range has been established in connection with the auction, which means that there is no ceiling on the price per warrant that you or any other bidder can bid in the auction. If you submit a market bid (*i.e.*, a bid that specifies the number of warrants you are willing to purchase without specifying the price you are willing to pay), that bid will be treated as a bid at the highest price received from any bidder in the auction.
- Once the auction begins, you may submit your bids either directly through the auction agent or through any network broker. Bids through the network brokers will be aggregated and submitted to the auction agent as single bids at each price increment by those brokers. Bids will only be accepted if they are made on an unconditional basis (*i.e.*, no “all-or-none” bids will be accepted).
- In connection with submitting a bid, you will be required to provide the following information:
 - i the number of warrants that you are interested in purchasing;
 - i the price per warrant you are willing to pay; and

i any additional information that may be required to enable the auction agent and/or network broker to identify you, confirm your eligibility and suitability for participating in this offering, and, if you submit a successful bid, consummate a sale of warrants to you.

- You may submit multiple bids. Canceling one bid does not cancel any other bid. However, as bids are independent, each bid may result in an allocation of warrants. Consequently, the sum of your bid sizes should be no more than the total number of warrants you are willing to purchase. In addition, the auction agent may impose size limits on the aggregate size of bids that it chooses to accept from any broker, although the auction agent is under no obligation to do so or to reconfirm bids for any reason.
- At any time prior to the submission deadline, you may modify your bids to increase or decrease the number of warrants bid for or the price bid per warrant and may withdraw your bid and reenter the auction. Network brokers, however, will impose earlier submission deadlines than that imposed by the auction agent in order to have sufficient time to aggregate bids received from their respective customers and to transmit the aggregate bid to the auction agent before the auction closes. If you are bidding through a network broker, or another broker that is submitting bids through the auction agent or a network broker, you should be aware of any earlier submission deadlines that may be imposed by your broker.
- Conditions for valid bids, including eligibility standards and account funding requirements, may vary from broker to broker. Some brokers, for example, may require a prospective investor to maintain a minimum account balance or to ensure that its account balance is equal to or in excess of the amount of its bid. No funds will be transferred to the underwriters until the acceptance of the bid and the allocation of warrants.
- A bid received by the auction agent or any network broker involves no obligation or commitment of any kind prior to the submission deadline. Therefore, you will be able to withdraw a bid at any time prior to the submission deadline (or any deadline imposed by a network broker, if you are bidding through a network broker). Following the submission deadline, however, all bids that have not been modified or withdrawn by you prior to the submission deadline will be considered final and irrevocable and may be accepted. The auction agent and the selling security holder will rely on your bid in setting the public offering price and in sending notices of acceptance to successful bidders.
- If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agent may deem your bid to have been withdrawn. The auction agent may, however, choose to accept your bid even if it has not been reconfirmed.
- The auction agent may reject any bid that it determines, in its discretion, has a potentially manipulative, disruptive or other adverse effect on the bidding process.
- Neither the auction agent nor any network broker will provide bidders (including us) with any information about the bids of other bidders or auction trends, or with advice regarding bidding strategies, in connection with the auction.
- The auction agent or any network broker may require you to deposit funds or securities in your brokerage accounts with value sufficient to cover the aggregate dollar amount of your bids. Bids may be rejected if you do not provide the required funds or securities within the required time. The auction agent or any network broker may, however, decide to accept successful bids regardless of whether you have deposited funds or securities in your brokerage accounts. In any case, if you are a successful bidder, you will be obligated to purchase the warrants allocated to you in the allocation process and will be required to deposit funds in your brokerage accounts prior to settlement, which is expected to occur three or four business days after the notices of acceptance are sent to you.
- We will be allowed to bid in the auction. If we decide to bid, we will participate on the same basis as all other bidders without receiving preferential treatment of any kind. We will be required to submit any bids we make through the auction agent. The submission of issuer bids may cause the clearing price in an auction to be higher than it would otherwise have been absent such bids.

Pricing and Allocation

- Deutsche Bank Securities will manage the master order book that will aggregate all bids and will include the identity of the bidders (or their brokers, in the case of bids submitted through a network broker). The master order book will not be available for viewing by bidders (including us). Bidders whose bids are accepted will be informed about the result of their bids.
- If valid irrevocable bids are received for all or more of the warrants being offered, the clearing price will equal the highest price in the auction at which the quantity of all bids at or above such price equals 100% or more of the number of warrants being offered.
- If valid irrevocable bids are received for at least 50% but less than 100% of the warrants being offered, the clearing price will equal the minimum bid price.
- Unless the selling security holder decides not to sell any warrants or as otherwise described below, all warrants will be sold to bidders at the clearing price.
- If the number of warrants for which bids are received in the auction is:
 - i 100% or more of the number of warrants offered in this offering as disclosed on the cover of this prospectus supplement (the “Number of Offered Warrants”), then all warrants sold in the offering will be sold at the clearing price (although the selling security holder could, in its discretion, decide to refrain from selling any warrants in the offering after the clearing price has been determined).
 - i 50% or more but less than 100% of the Number of Offered Warrants, then the selling security holder may, but will not be required to, sell, at the clearing price (equal to the minimum bid price) as many warrants as it chooses to sell up to the number of bids received in the auction; provided that if it chooses to sell any warrants in such a case it will sell a number of warrants equal to at least 50% of the Number of Offered Warrants; or
 - i less than 50% of the Number of Offered Warrants, then the selling security holder will not sell any warrants in this offering
- Promptly after the auction agent determines the clearing price, it will communicate that clearing price to the selling security holder. The selling security holder may decide not to sell any warrants after the clearing price is determined. Once the selling security holder confirms its acceptance of the clearing price (and, in the case where bids are received for fewer than 100% of the warrants being offered, the number of warrants to be sold), the auction agent will confirm allocations of warrants to its clients and the network brokers. The underwriters will sell all warrants at the same price per warrant.
- If bids for all the warrants offered in this offering are received, and the selling security holder elects to sell warrants in the offering, allocation of the warrants will be determined by, first, allocating warrants to any bids made above the clearing price, and second, allocating warrants on a pro-rata basis among bids made at the clearing price. The pro-rata allocation percentage for bids made at the clearing price will be determined by dividing the number of warrants to be allocated at the bidding increment equal to the clearing price by the number of warrants represented by bids at that bidding increment. Each bid submitted at the clearing price will be allocated a number of warrants approximately equal to the pro-rata allocation percentage multiplied by the number of warrants represented by its bid, rounded to the nearest whole number of warrants; *provided* that bids at the clearing price that are pro-rated may be rounded to the nearest 100 warrants. In no case, however, will any rounded amount exceed the original bid size.
- If bids for half or more, but fewer than all, of the warrants offered in this offering are received, and the selling security holder chooses to sell fewer warrants than the number of warrants for which bids were received, then all bids will experience equal pro-rata allocation. In other words, each bid, not just those at the lowest price increment, will be allocated a number of warrants approximately equal to the

pro-rata allocation percentage multiplied by the number of warrants represented by its bid, rounded to the nearest whole number of warrants; *provided* that bids at the clearing price that are pro-rated may be rounded to the nearest 100 warrants. In no case, however, will any rounded amount exceed the original bid size.

- After the selling security holder confirms its acceptance of the clearing price (and, in the case where bids are received for fewer than 100% of the warrants being offered, the number of warrants to be sold), the auction agent and each network broker that has submitted bids will notify you, in the event your bids have been accepted, by electronic message, telephone, facsimile or otherwise that the auction has closed and that your bids have been accepted. They may also provide you with a preliminary allocation estimate, which will be subsequently followed by a final allocation and confirmation of sale. In the event your bids are not accepted, you may be notified that your bids have not been accepted. As a result of the varying delivery times involved in sending e-mails over the Internet and other methods of delivery, you may receive notices of acceptance before or after other bidders.
- The clearing price and number of warrants being sold are expected to be announced via press release prior to the opening of the equity markets on the business day following the end of the auction. The price will also be included in the notice of acceptance and the confirmation of sale that will be sent to successful bidders, and will also be included in the final prospectus supplement for the offering.
- Sales to investors bidding directly through the auction agent will be settled via their accounts with Deutsche Bank Securities, while sales through network brokers will be settled through your account with the broker through which your bid was submitted.
- If you submit successful bids, you will be obligated to purchase the warrants allocated to you regardless of whether you are aware that the notice of acceptance of your bid has been sent. Once an underwriter has sent out an notice of acceptance and confirmation of sale, it will not cancel or reject your bid. The auction agent and the selling security holder will rely on your bid in setting the public offering price and in sending notices of acceptance to successful bidders. As a result, you will be responsible for paying for all of the warrants that are finally allocated to you, at the public offering price.

You should carefully review the procedures of, and communications from, the institution through which you bid to purchase warrants.

Auction Developments

You should keep in contact with the institution through which your bid has been submitted and monitor your relevant e-mail accounts, telephone and facsimile for notifications related to this offering, which may include:

- Potential Request for Reconfirmation. The auction agent may ask you to reconfirm your bid at its discretion by directly contacting you (or your broker, if you submitted your bid through a broker other than the auction agent), although the auction agent is under no obligation to reconfirm bids for any reason. If you are requested to reconfirm a bid and fail to do so in a timely manner, the auction agent may deem your bid to have been withdrawn. The auction agent may, however, choose to accept your bid even if it has not been reconfirmed.
- Notice of Additional Information Conveyed by Free Writing Prospectus. Notification that additional information relating to this offering is available in a free writing prospectus.
- Notice of Acceptance. Notification as to whether any of your bids are successful and have been accepted. This notification will include the final clearing price. If your bids have been accepted, you will be informed about the results of the auction.

USE OF PROCEEDS

The warrants offered by this prospectus supplement are being sold for the account of the selling security holder named in this prospectus supplement. Any proceeds from the sale of these warrants will be received by the selling security holder for its own account, and we will not receive any proceeds from the sale of any of the warrants offered by this prospectus supplement.

DESCRIPTION OF WARRANTS

The following is a brief description of the terms of the warrants being sold by the selling security holder. This summary does not purport to be complete in all respects. This description is subject to, and qualified in its entirety by reference to, the warrant and warrant agreement, copies of which will be filed with the SEC.

Common Stock Subject to the Warrant

Each warrant initially represents the right to purchase one share of our common stock. The number of shares deliverable upon the exercise of each warrant is subject to the adjustments described below under the heading “—Adjustments to the Warrants.”

Exercise of the Warrant

The initial exercise price applicable to each warrant is \$42.13 per share of common stock for which the warrant may be exercised. The warrants may be exercised in whole or in part at any time on or before November 14, 2018 by surrender to the warrant agent of the warrant and a completed notice of exercise attached as an annex to the warrant and the payment of the exercise price for the shares of common stock for which the warrants are being exercised. The exercise price will be paid by the withholding by us of such number of shares of common stock issuable upon exercise of the warrants equal to the value of the aggregate exercise price of the warrants determined by reference to the market price of our common stock on the trading day on which the warrants are exercised. The exercise price cannot be paid in cash. The exercise price applicable to the warrants is subject to further adjustment as described below under the heading “—Adjustments to the Warrants.” So long as the warrants are in global form, any exercise notice will be delivered to the warrant agent through and in accordance with the procedures of the depository for the warrants.

Upon exercise of warrants, the remaining shares of common stock issuable upon exercise will be issued by our transfer agent for the account of the exercising warrantholder. Shares issued upon exercise of warrants will be issued in the name or names designated by the exercising warrantholder and will be delivered by the transfer agent to the exercising warrantholder (or its nominee or nominees) either via book-entry transfer crediting the account of such warrantholder (or the relevant participant of The Depository Trust Company (“DTC”) for the benefit of such warrantholder) through DTC’s DWAC system, or otherwise in certificated form by physical delivery to the address specified by such warrantholder in the exercise notice. We will not issue fractional shares upon any exercise of the warrants. Instead, the exercising warrantholder will be entitled to a cash payment based on the per share market price of our common stock on the date of the exercise of the warrants for any fractional share that would have otherwise been issuable upon exercise of the warrants. We will at all times reserve the aggregate number of shares of our common stock for which the warrants may be exercised.

Issuance of any shares deliverable upon the exercise of warrants will be made without charge to the warrantholder for any issue or transfer tax or other incidental expense in respect of the issuance of those shares (other than liens or charges created by a warrantholder, income and franchise taxes incurred in connection with the exercise of the warrant or taxes in respect of any transfer occurring contemporaneously therewith).

The shares of common stock issuable upon the exercise of the warrants have been approved for listing, subject to notice of issuance, on the Exchange.

Rights as a Stockholder

The warrantholders will have no rights or privileges of holders of our common stock, including any voting rights and rights to dividend payments, until (and then only to the extent) the warrants have been exercised.

Adjustments to the Warrants

Pursuant to the warrant agreement between us and Computershare Trust Company, N.A., as warrant agent, dated December 3, 2009, the number of shares of our common stock issuable upon exercise of each warrant (the “warrant shares”) and the warrant exercise price will be adjusted upon occurrence of certain events as follows.

- In the case of stock splits, subdivisions, reclassifications or combinations of common stock. If we declare and pay a dividend or make a distribution on our common stock in shares of our common stock, subdivide or reclassify the outstanding shares of our common stock into a greater number of shares, or combine or reclassify the outstanding shares of our common stock into a smaller number of shares, the number of warrant shares at the time of the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification will be proportionately adjusted so that the holder of a warrant after such date will be entitled to purchase the number of shares of our common stock that it would have owned or been entitled to receive in respect of the number of warrant shares had such warrant been exercised immediately prior to such date. The exercise price in effect immediately prior to the record date for such dividend or distribution or the effective date of such subdivision, combination or reclassification will be adjusted by multiplying such exercise price by the quotient of (x) the number of warrant shares immediately prior to such adjustment divided by (y) the new number of warrant shares as determined in accordance with the immediately preceding sentence.
- In the case of cash dividends or other distributions. If we fix a record date for making a distribution to all holders of our common stock of securities, evidences of indebtedness, assets, cash, rights or warrants (excluding ordinary cash dividends (as defined below) and dividends of our common stock and other dividends or distributions referred to in the preceding bullet point), the exercise price in effect prior to such record date will be reduced immediately thereafter to the price determined by multiplying the exercise price in effect immediately prior to the reduction by the quotient of (x) the market price (as defined below) of our common stock on the last trading day preceding the first date on which our common stock trades regular way on the principal national securities exchange on which our common stock is listed or admitted to trading without the right to receive such distribution, minus the amount of cash and/or the fair market value of the securities, evidences of indebtedness, assets, rights or warrants to be so distributed in respect of one share of our common stock (such amount and/or fair market value, the “per share fair market value”) divided by (y) such market price on the date specified in clause (x). Any such adjustment will be made successively whenever such a record date is fixed. The number of warrant shares will be increased to the number obtained by multiplying the number of warrant shares deliverable upon exercise of a warrant immediately prior to such adjustment by the quotient of (a) the exercise price in effect immediately prior to the distribution giving rise to this adjustment divided by (b) the new exercise price as determined in accordance with the immediately preceding sentence. In the case of adjustment for a cash dividend that is, or is coincident with, a regular quarterly cash dividend, the per share fair market value would be reduced only by the per share amount of the portion of the cash dividend that would constitute an ordinary cash dividend. If, after the declaration of any such record date, the related distribution is not made, the exercise price and the number of warrant shares then in effect will be readjusted, effective as of the date when our board of directors determines not to make such distribution, to the exercise price and the number of warrant shares that would then be in effect if such record date had not been fixed.
- In the case of a pro rata repurchase of common stock. A “pro rata repurchase” is defined as any purchase of shares of our common stock by us or an affiliate of ours pursuant to any tender offer or exchange offer subject to Section 13(e) or 14(e) of the Exchange Act, or Regulation 14E thereunder, or any other offer available to substantially all holders of our common stock. If we effect a pro rata repurchase of our common stock, then the exercise price will be reduced to the price determined by multiplying the exercise price in effect immediately prior to the effective date of such pro rata repurchase by a fraction of which (A) the numerator will be (i) the product of (x) the number of shares of our common stock outstanding immediately before such pro rata repurchase and (y) the market price

of a share of our common stock on the trading day immediately preceding the first public announcement by us or any of our affiliates of the intent to effect such pro rata repurchase, minus (ii) the aggregate purchase price of the pro rata repurchase, and (B) the denominator will be the product of (i) the number of shares of our common stock outstanding immediately prior to such pro rata repurchase minus the number of shares of our common stock so repurchased and (ii) the market price per share of our common stock on the trading day immediately preceding the first public announcement by us or any of our affiliates of the intent to effect such pro rata repurchase. The number of warrant shares will be increased to the number obtained by multiplying the number of warrant shares immediately prior to such adjustment by the quotient of (x) the exercise price in effect immediately prior to the pro rata repurchase giving rise to this adjustment divided by (y) the new exercise price as determined in accordance with the immediately preceding sentence. For the avoidance of doubt, no increase to the exercise price or decrease in the number of warrant shares deliverable upon exercise of a warrant will be made pursuant to this adjustment provision.

- In the case of a merger, consolidation, statutory share exchange or similar transaction that requires the approval of our stockholders (any such transaction, a “business combination”). In the event of any business combination (other than a reclassification referenced in the first bullet point above), a warrant holder’s right to receive shares of our common stock upon exercise of a warrant will be converted into the right to exercise that warrant to acquire the number of shares of stock or other securities or property (including cash) which our common stock issuable (at the time of such business combination) upon exercise of such warrant immediately prior to such business combination would have been entitled to receive upon consummation of such business combination. In determining the kind and amount of stock, securities or the property receivable upon exercise of a warrant following the consummation of such business combination, if the holders of our common stock have the right to elect the kind or amount of consideration receivable upon consummation of such business combination, then the consideration that a warrant holder will be entitled to receive upon exercise will be deemed to be the types and amounts of consideration received by the majority of all holders of the shares of our common stock that affirmatively make an election (or of all such holders if none make an election). For purposes of determining any amount of warrant shares to be withheld by us as payment of the exercise price from stock, securities or the property that would otherwise be delivered to a warrant holder upon exercise of warrants following any business combination, the amount of such stock, securities or property to be withheld will have a market price equal to the aggregate exercise price as to which such warrants are so exercised, based on the fair market value of such stock, securities or property on the trading day on which such warrants are exercised. If any such property is not a security, the market price of such property will be deemed to be its fair market value as determined in good faith by our board of directors in reliance on an opinion of a nationally recognized independent investment banking corporation retained by us for this purpose. If making such determination requires the conversion of any currency other than U.S. dollars into U.S. dollars, such conversion will be done in accordance with customary procedures based on the relevant noon buying rate published by the Federal Reserve Bank of New York on such exercise date.

Neither the exercise price nor the number of shares issuable upon exercise of a warrant will be adjusted in the event of a change in the par value of our common stock or a change in our jurisdiction of incorporation. If an adjustment in the exercise price made in accordance with the adjustment provisions above would reduce the exercise price to an amount below the par value of our common stock, then that adjustment will reduce the exercise price to that par value.

The warrant agent will notify the warrant holders of any adjustments. If the warrant agent fails to give such notice, the exercise price and the number of shares issuable upon exercise of the warrants will nevertheless be adjusted.

[Table of Contents](#)

If more than one adjustment provision applies to a single event, the adjustment provision that produces the largest adjustment with respect to such event will be applied, and no single event will cause an adjustment under more than one adjustment provision so as to result in duplication. All such adjustments will be made to the nearest one-tenth (1/10th) of a cent or to the nearest one-hundredth (1/100th) of a share, as the case may be. No adjustment in the exercise price or the number of shares issuable upon exercise of a warrant will be made if the amount of such adjustment would be less than \$0.01 or one-tenth (1/10th) of a share of our common stock, but any such amount will be carried forward and an adjustment with respect thereto will be made at the time of and together with any subsequent adjustment which, together with such amount and any other amount or amounts so carried forward, will aggregate \$0.01 or 1/10th of a share of our common stock, or more, or on exercise of a warrant if that occurs earlier.

For purposes of these adjustment provisions:

“*ordinary cash dividends*” means a regular quarterly cash dividend on shares of our common stock out of surplus or net profits legally available therefor (determined in accordance with generally accepted accounting principles in effect from time to time). Ordinary cash dividends will not include any cash dividends paid subsequent to November 14, 2008 to the extent the aggregate per share dividends paid on our outstanding common stock in any quarter exceed \$0.375, as adjusted for any stock split, stock dividend, reverse stock split, reclassification or similar transaction.

“*market price*” means, with respect to a particular security, on any given day, the last reported sale price regular way or, in case no such reported sale takes place on such day, the average of the last closing bid and ask prices regular way, in either case on the principal national securities exchange on which the applicable securities are listed or admitted to trading, or if not listed or admitted to trading on any national securities exchange, the average of the closing bid and ask prices as furnished by two FINRA members selected from time to time by us for that purpose, and will be determined without reference to after hours or extended hours trading. If such security is not listed and traded in a manner that the quotations referred to above are available for the period required under the warrants, the market price will be deemed to be the fair market value per share of such security as determined in good faith by our board of directors in reliance on an opinion of a nationally recognized independent investment banking corporation retained by us for this purpose. If any such security is listed or traded on a non-U.S. market, such fair market value will be determined by reference to the closing price of such security as of the end of the most recently ended business day in such market prior to the date of determination. If making any such determination requires the conversion of any currency other than U.S. dollars into U.S. dollars, such conversion will be done in accordance with customary procedures based on the relevant noon buying rate published by the Federal Reserve Bank of New York on such exercise date. For the purposes of determining the market price of our common stock on the “trading day” preceding, on or following the occurrence of an event, (i) that trading day will be deemed to commence immediately after the regular scheduled closing time of trading on the Exchange or, if trading is closed at an earlier time, such earlier time and (ii) that trading day will end at the next regular scheduled closing time, or if trading is closed at an earlier time, such earlier time (for the avoidance of doubt, and as an example, if the market price is to be determined as of the last trading day preceding a specified event and the closing time of trading on a particular day is 4:00 p.m. and the specified event occurs at 5:00 p.m. on that day, the market price would be determined by reference to such 4:00 p.m. closing price).

Amendment

Any warrants may be amended and the observance of any material term of such warrants may be waived with the consent of a majority of the holders of such warrants; provided that the consent of each affected warrant holder is necessary for any amendment to increase the exercise price or to decrease the number of shares issuable upon exercise of the warrants (other than pursuant to the terms of the adjustment provisions in the warrant certificate described above).

Description of the Warrant Agreement

Under the warrant agreement, Computershare Trust Company, N.A. is appointed as the warrant agent to act on our behalf in connection with the transfer, exchange, redemption, exercise and cancellation of the warrants and required to maintain a registry recording the names and addresses of all registered holders of warrants. The warrant agent will receive a fee in exchange for performing these duties under the warrant agreement and will be indemnified by us for liabilities not involving gross negligence, willful misconduct or bad faith and arising out of its service as warrant agent.

The warrants will initially be issued in the form of one or more global warrants as specified in the warrant agreement. Each global security will be deposited upon issuance with, or on behalf of, DTC, and will be registered in the name of DTC or a nominee of DTC, in each case for credit to an account of a direct or indirect participant in DTC. For a description of book-entry procedures and settlement mechanics generally applicable to securities held through DTC participants, see the section entitled “Book-Entry Procedures and Settlement” in the accompanying prospectus. Owners of a beneficial interest in any global warrant are entitled to receive a warrant in definitive form not held by a depository or the warrant agent only if (i) DTC is unwilling or unable to continue as depository for the global warrant or ceases to be a “clearing agency” under the Exchange Act (and, in each case, no successor depository is appointed within 90 days), (ii) we, in our sole discretion, notify the warrant agent of our election to issued warrants in definitive form under the warrant agreement or (iii) we have been adjudged bankrupt, consented to the filing of bankruptcy proceedings, or filed a petition, answer or consent seeking to reorganize under federal or state law.

Governing Law

The warrants and the warrant agreement will be governed by New York law.

SELLING SECURITY HOLDER

On November 14, 2008, we issued to Treasury a warrant to purchase 12,657,960 shares of our common stock together with shares of our preferred stock pursuant to the Securities Purchase Agreement (as defined below). Treasury acquired the warrants and shares of our preferred stock as part of the Troubled Assets Relief Program, or TARP. TARP was established pursuant to the Emergency Economic Stabilization Act of 2008 (the “EESA”), which was enacted into law on October 3, 2008 in response to the financial crisis. EESA requires the Secretary of the Treasury to acquire warrants in connection with certain purchases from a financial institution, subject to certain exceptions. The warrants being offered were acquired when Treasury acquired our preferred stock in November 2008. On June 17, 2009, Capital One Financial Corporation redeemed the preferred stock issued to Treasury. We are registering the warrants (and the shares of common stock issuable upon exercise of the warrants) offered by this prospectus supplement and the accompanying prospectus on behalf of Treasury as the selling security holder.

The following description of the selling security holder was provided by Treasury and derived from Treasury’s website. Treasury is the executive agency of the U.S. government responsible for promoting economic prosperity and ensuring the financial security of the United States. Treasury is responsible for a wide range of activities, such as advising the President on economic and financial issues, encouraging sustainable economic growth and fostering improved governance in financial institutions. Treasury operates and maintains systems that are critical to the nation’s financial infrastructure, such as the production of coin and currency, the disbursement of payments to the American public, revenue collection and the borrowing of funds necessary to run the federal government. Treasury works with other federal agencies, foreign governments, and international financial institutions to encourage global economic growth, raise standards of living and, to the extent possible, predict and prevent economic and financial crises. Treasury also performs a critical and far-reaching role in enhancing national security by implementing economic sanctions against foreign threats to the U.S., identifying and targeting the financial support networks of national security threats and improving the safeguards of our financial systems. In addition, under EESA, Treasury was given certain authority and facilities to restore the liquidity and stability of the financial system.

The table below sets forth information with respect to the beneficial ownership of the warrants held as of November 30, 2009 by the selling security holder, the number of warrants being offered hereby, and information with respect to warrants to be beneficially owned by the selling security holder assuming all the warrants offered hereby are sold.

<u>Selling Security Holder</u>	<u>Warrants Beneficially Owned Prior to this Offering</u>		<u>Warrants Offered in this Offering</u>	<u>Warrants Beneficially Owned after this Offering</u>	
	<u>Number</u>	<u>Percentage</u>	<u>Number</u>	<u>Number</u>	<u>Percentage</u>
United States Department of the Treasury	12,657,960	100%	12,657,960	0	0%

The warrants currently are exercisable for 12,657,960 shares of our common stock, which represent approximately 2.7% of our common stock outstanding as of September 30, 2009 (however, because the warrants must be exercised on a cashless basis, we will withhold from an exercising warrant holder a number of shares with a value equal to the aggregate exercise price as payment for the exercise of the warrants). The actual number of shares that could be issued upon exercise of the warrants will depend upon the market price of our common stock at the time of exercise and other factors, including the adjustment provisions described above under “Description of Warrants—Adjustments to the Warrants,” and cannot be determined at this time. Other than the warrants, Treasury does not own any of our equity securities.

Our operations are regulated by various U.S. governmental authorities, including in certain respects by the selling security holder. Other than an agreement dated November 14, 2008 between us and the selling security holder under which we issued preferred stock and the warrants (the “Securities Purchase Agreement”), we have

no material contractual relationships with the selling security holder. Purchasers of the warrants will have no rights under the Securities Purchase Agreement.

Under the Securities Purchase Agreement, we have agreed to indemnify the selling security holder in connection with certain liabilities in connection with this offering, including any liabilities under the Securities Act. As an agency of the United States, Treasury is likely immune from suit on claims by purchasers of warrants in connection with this offering. See “Risk Factors—Risks Related to the Warrants—The selling security holder is a federal agency and your ability to bring a claim against the selling security holder under the federal securities laws may be limited” above.

Governmental Immunity

The doctrine of sovereign immunity, as limited by the Federal Tort Claims Act, provides that claims may not be brought against the United States of America or any agency or instrumentality thereof unless specifically permitted by act of Congress. The Federal Tort Claims Act bars claims for fraud or misrepresentation. The courts have held, in cases involving federal agencies and instrumentalities, that the United States may assert its sovereign immunity to claims brought under the federal securities laws. Thus, any attempt to assert a claim against the Treasury alleging a violation of the federal securities laws, including the Securities Act and the Exchange Act, resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus is a part, or any other act or omission in connection with the offering to which this prospectus relates, likely would be barred. In addition, Treasury has advised us that Treasury and its members, officers, agents, and employees are exempt from liability for any violation or alleged violation of the anti-fraud provisions of Section 10(b) of the Exchange Act by virtue of Section 3(c) thereof. Accordingly, any attempt to assert such a claim against the members, officers, agents or employees of Treasury for a violation of the Securities Act or the Exchange Act resulting from an alleged material misstatement in or material omission from this prospectus or the registration statement of which this prospectus is a part or resulting from any other act or omission in connection with the offering of the warrants or the shares of common stock issuable upon the exercise thereof likely would be barred.

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following section summarizes the material U.S. federal income tax consequences of the ownership, exercise, and disposition of warrants and common stock acquired upon exercise of warrants. This summary deals only with warrants and common stock that are held as capital assets. This summary does not describe all of the U.S. federal income tax consequences that may be relevant to a holder in light of its particular circumstances or to holders subject to special rules, such as:

- dealers in securities or traders in securities that elect to use a mark-to-market method of accounting for its securities holdings;
- banks, regulated investment companies, real estate investment trusts and financial institutions;
- insurance companies;
- tax-exempt organizations;
- persons holding warrants or common stock as part of a “straddle,” “hedge,” “conversion” or similar transaction;
- holders subject to the alternative minimum tax; or
- U.S. holders (as defined below) whose functional currency for tax purposes is not the U.S. dollar.

This section is based upon the Internal Revenue Code of 1986, as amended (the “Code”), judicial decisions, final, temporary and proposed Treasury regulations, published rulings and other administrative pronouncements, all as currently in effect. Some of these authorities are subject to various interpretations. These laws are subject to change, possibly on a retroactive basis.

The authorities on which this summary is based are subject to various interpretations. The summary below is not binding on the Internal Revenue Service (“IRS”) or the courts, either of which could disagree with the explanations or conclusions contained in this summary. We have not sought any rulings concerning the treatment of the warrants or common stock. Accordingly, there can be no assurance that the IRS will not challenge the treatments expressed in this summary or that a court would not sustain such a challenge.

In addition, this summary does not contain a detailed description of all the U.S. federal income tax consequences to you in light of your particular circumstances and does not address the effects of any state, local or non-U.S. tax laws or any tax laws other than income tax laws.

If you are considering the purchase, ownership or disposition of the warrants or common stock, you should consult your own tax advisor concerning the U.S. federal income tax consequences to you in light of your particular circumstances, as well as any consequences arising under the laws of any other taxing jurisdiction.

U.S. Holders

This subsection describes certain material U.S. federal income tax consequences to a U.S. holder. You are a “U.S. holder” if you are a beneficial owner of warrants or common stock and you are:

- an individual who is a citizen or resident of the United States,
- a corporation (or entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the United States or any state thereof or the District of Columbia,
- an estate the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source, or
- a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons are authorized to control all substantial decisions of the trust.

If a partnership holds warrants or common stock, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership holding warrants or common stock, you should consult your tax advisor.

If you are not a U.S. holder, this subsection does not apply to you and you should refer to “—Non-U.S. Holders” below.

Tax Treatment of Warrants

Exercise

The tax consequences of the exercise of a warrant that requires a cashless exercise is not clear. We expect that the warrants will be treated for U.S. federal income tax purposes as an option to receive a variable number of shares of common stock on exercise with no exercise price. Alternatively, the exercise of the warrants could be treated as a recapitalization. In either case, a U.S. holder generally will not recognize gain or loss upon exercise of a warrant except with respect to any cash received in lieu of a fractional share. A U.S. holder will have a tax basis in the common stock received upon the exercise of a warrant equal to its tax basis in the warrant, less any amount attributable to any fractional share. The initial tax basis in a warrant of a U.S. holder is the purchase price of the warrants. If the warrant is treated as an option to receive a variable number of shares, the holding period of common stock received upon the exercise of a warrant will commence on the day the warrant is exercised. If the exercise is treated as a recapitalization, the holding period of common stock received upon the exercise of a warrant will include the holder’s holding period of the warrants.

However, the IRS could take the position that the exercise of the warrants would result in a taxable exchange resulting in gain or loss. The amount of gain or loss recognized on such deemed exchange and its character as short term or long term will depend on the position taken by the IRS regarding the nature of that exchange. If the U.S. holder is treated as exchanging the warrants for the common stock received on exercise, the amount of gain or loss will be the difference between the fair market value of the common stock and cash in lieu of fractional shares received on exercise and the holder’s basis in the warrants. In that case, the U.S. holder will have long term capital gain or loss if it has held the warrant for more than one year.

Alternatively, the IRS could take the position that the U.S. holder is treated as selling a portion of the warrants or underlying common stock for cash that is used to pay the exercise price for the warrant, the amount of gain or loss will be the difference between that exercise and the holder’s basis attributable to the warrants or common stock deemed to have been sold. If the U.S. holder is treated as selling warrants, the holder will have long term capital gain or loss if it has held the warrants for more than one year. If the U.S. holder is treated as selling common stock, the holder will have short term capital gain or loss. In either case, a U.S. holder of a warrant will also recognize gain or loss in respect of the cash received in lieu of a fractional share of common stock in an amount equal to the difference between the amount of cash received and the portion of the holder’s tax basis attributable to such fractional share.

Any gain or loss will be capital gain or loss and will be taxable in the same manner as described under “Expiration and Disposition,” below.

Expiration and Disposition

If a warrant expires without being exercised, a U.S. holder will recognize a capital loss in an amount equal to its tax basis in the warrant. Upon the sale, exchange, or redemption of a warrant, a U.S. holder generally will recognize gain or loss equal to the difference between the amount realized on such sale, exchange, or redemption and the U.S. holder’s tax basis in such warrant. Such gain or loss will be long-term capital gain or loss if, at the time of such sale, exchange, or redemption, the warrant has been held for more than one year. Long-term capital gains of individuals derived with respect to capital assets held for more than one year are subject to tax at a

[Table of Contents](#)

maximum rate of 15% for taxable years beginning on or before December 31, 2010, after which the maximum rate will increase to 20% absent congressional action. The deductibility of capital losses is subject to limitation. U.S. holders who recognize a loss that exceeds certain thresholds as a result of the expiration or disposition of warrants may be required to file a disclosure statement with the IRS.

Adjustments to Exercise Ratio

Adjustments made to the number of shares that may be acquired upon the exercise of a warrant or to the exercise price thereof, or the failure to make such adjustments, may result in a constructive distribution to holders of warrants to the extent any such adjustment or failure to adjust results in an increase in the proportionate interest of such holders in our earnings and profits. As a result, U.S. holders of warrants may be required to include amounts in income even though such holders will not have received any cash or other property with which to pay the related tax. Any taxable constructive distribution resulting from such an adjustment, or failure to make such an adjustment, would be treated in the same manner as distributions paid in cash or other property, as described below under “Tax Treatment of Common Stock—Distributions.”

Tax Treatment of Common Stock

Distributions

Any distribution we make in respect of our common stock will be treated as a dividend to the extent paid out of our current or accumulated earnings and profits. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a tax-free return of capital to the extent of the U.S. holder’s adjusted tax basis in the common stock, and thereafter as capital gain. Dividend income received by an individual U.S. holder in a tax year beginning on or before December 31, 2010 and that satisfies certain requirements generally will be subject to tax at a reduced rate. Unless the reduced rate provision is extended or made permanent by subsequent legislation, for tax years beginning after December 31, 2010, dividends will be taxed at regular ordinary income rates. Subject to certain restrictions, dividends received by a U.S. holder that is a corporation will be eligible for a dividends-received deduction.

Disposition of Common Stock

A U.S. holder will recognize gain or loss upon the sale, exchange, or other taxable disposition of common stock in an amount equal to the difference between (1) the amount of cash and the fair market value of any other property received in exchange for such stock and (2) the U.S. holder’s tax basis in the common stock. Generally, any such gain or loss will be capital gain or loss, and will be long-term capital gain or loss if, at the time of such disposition, the U.S. holder has a holding period in the common stock of more than one year. Long-term capital gains of individuals derived with respect to capital assets held for more than one year are subject to tax at a maximum rate of 15% for taxable years beginning on or before December 31, 2010, after which the maximum rate will increase to 20% absent congressional action. Net long-term capital gain recognized by a non-corporate U.S. holder generally is subject to U.S. federal income tax at a reduced rate. The deductibility of capital losses is subject to limitation.

Backup Withholding and Information Reporting

In general, you will be subject to backup withholding (currently at the rate of 28%) with respect to dividends paid on the common stock unless you (i) are an entity that is exempt from backup withholding (generally including corporations, tax-exempt organizations and certain qualified nominees) and, when required, provide appropriate documentation to that effect, or (ii) provide us or our paying agent with your social security number or other taxpayer identification number (“TIN”) within a reasonable time after a request therefor, certify that the TIN provided is correct and that you have not been notified by the IRS that you are subject to backup withholding due to underreporting of interest or dividends, and otherwise comply with applicable requirements of the backup withholding rules.

[Table of Contents](#)

In addition, such payments or proceeds received by you if you are not a corporation or tax-exempt organization will generally be subject to information reporting requirements. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to you will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that you timely furnish the required information to the IRS.

Non-U.S. Holders

The following summary is addressed to non-U.S. holders. A non-U.S. holder is a holder that is neither a partnership nor a U.S. person for U.S. federal income tax purposes. Special rules may apply to certain non-U.S. holders, such as “controlled foreign corporations,” “passive foreign investment companies,” corporations that accumulate earnings to avoid U.S. federal income tax and certain expatriates, among others, that are subject to special treatment under the Code. Such non-U.S. holders should consult their own tax advisors to determine the U.S. federal, state, local and other tax consequences that may be relevant to them.

U.S. Federal Withholding Tax

In general, U.S. federal withholding tax at a rate of 30% will apply to dividends paid on the common stock acquired on the exercise of the warrants (and generally any deemed dividends resulting from certain adjustments or failures to make an adjustment as described above under “—U.S. Holders—Tax Treatment of Warrants—Adjustments to Exercise Ratio”), if any. It is possible that U.S. withholding tax on dividends (including deemed dividends) would be withheld from common stock to be delivered on exercise of warrants. If a tax treaty applies, you may be eligible for a reduced rate of withholding if you provide us (or our paying agent) with a properly executed IRS Form W-8BEN (or suitable substitute form) claiming a reduction of or an exemption from withholding under an applicable tax treaty.

Any payments made to you on the warrants or common stock or gain realized by you on the sale, exchange or other disposition of the warrants or common stock that are effectively connected with the conduct of a trade or business by you in the United States (and, where an applicable tax treaty so provides, are also attributable to a U.S. permanent establishment maintained by you) are not subject to the U.S. federal withholding tax, but instead are subject to U.S. federal income tax, as described below. In order to claim any such exemption from the 30% withholding tax, you should provide a properly executed IRS Form W-8ECI (or a suitable substitute form) stating that such amounts are not subject to withholding tax because they are effectively connected with your conduct of a trade or business in the United States.

Federal Income Tax

If you are engaged in a trade or business in the United States (and, if a tax treaty applies, if you maintain a permanent establishment within the United States) and the warrants or common stock are effectively connected with the conduct of such trade or business (and, if a tax treaty applies, attributable to such permanent establishment), you will generally be subject to U.S. federal income tax (but not the U.S. federal withholding tax described above), on the warrants and common stock on a net income basis in the same manner as if you were a U.S. holder. In addition, in certain circumstances, if you are a foreign corporation, you may be subject to a 30% (or, if a tax treaty applies, such lower rate as provided) branch profits tax.

Any gain or income realized on the disposition of the warrants or common stock will not be subject to U.S. federal income tax unless:

- such gain or income is effectively connected with your conduct of a trade or business in the U.S. (and, where an applicable tax treaty so provides, are also attributable to a U.S. permanent establishment maintained by you); or

- you are an individual who is present in the U.S. for 183 days or more in the taxable year of the disposition and certain other conditions are met.

Backup Withholding and Information Reporting

You may be subject to information reporting and you may also be subject to U.S. federal backup withholding at the applicable rate on amounts paid to you if you fail to comply with applicable U.S. certification requirements. Any amounts so withheld under the backup withholding rules may be allowed as a credit against your U.S. federal income tax liability, provided you timely furnish the required information to the IRS.

Proposed Legislation

In October 2009, legislation was introduced in the U.S. Congress that, if enacted in its current form, would expand the scope of U.S. withholding obligations on payments made after December 31, 2010, to include, among other things, gross proceeds from the sale of our common stock. The expanded withholding obligations may be reduced or minimized in certain circumstances. We cannot predict whether this legislation will be enacted or whether it will be enacted in its current form. You should consult your own tax advisor regarding this and other proposed legislation.

CERTAIN ERISA CONSIDERATIONS

The following is a summary of certain considerations associated with the acquisition, holding, disposition and exercise of the warrants by employee benefit plans that are subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (“ERISA”), Keogh plans, individual retirement accounts and other arrangements that are subject to Section 4975 of the Code, and entities whose underlying assets are considered to include “plan assets” of such plans, accounts and arrangements (each, a “Plan”).

General Fiduciary Matters

Each fiduciary of a Plan should consider the fiduciary standards of ERISA in the context of the Plan’s particular circumstances before authorizing the acquisition, holding, disposition and exercise of the warrants. Among other factors, the fiduciary should consider whether the action is consistent with the documents and instruments governing the Plan and whether the action would satisfy the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA and the Code.

Any insurance company proposing to invest assets of its general account in warrants should consult with its counsel concerning the potential application of ERISA to such investment.

Prohibited Transaction Issues

Section 406 of ERISA and Section 4975 of the Code prohibit Plans from engaging in specified transactions involving “plan assets” with persons or entities who are “parties in interest,” within the meaning of ERISA, or “disqualified persons,” within the meaning of Section 4975 of the Code, unless an exemption is available. For example, we may be considered a party in interest or disqualified person with respect to a Plan to the extent we or our affiliates are engaged in businesses which provide services to Plans.

A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of the Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and foreign plans (as described in Section 4(b)(4) of ERISA) are not subject to the requirements of ERISA or Section 4975 of the Code. It is possible, however, that a governmental, church or foreign plan may be subject to other federal, state or local laws that contain fiduciary and prohibited transaction provisions substantially similar to those under Title I of ERISA and Section 4975 of the Code (“Similar Laws”).

There are a number of statutory prohibited transaction exemptions. For example, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide an exemption for certain transactions, such as sales or exchanges of property with a party in interest, provided the following conditions are satisfied: (a) the transaction is with a party in interest, other than a fiduciary (or an affiliate) who has, or exercises, any discretionary authority or control with respect to the investment of plan assets involved in the transaction or renders investment advice with respect to such plan assets, solely by reason of providing services to the Plan or solely by reason of a relationship to certain service providers, or both, and (b) the Plan receives no less and/or pays no more than “adequate consideration,” as the case may be. In addition, the Department of Labor has issued several prohibited transaction class exemptions, or “PTCEs,” that may provide exemptive relief for direct or indirect prohibited transactions resulting from the purchase, holding, disposition and exercise of warrants. These class exemptions include PTCE 84-14 for certain transactions determined by independent qualified professional asset managers, PTCE 90-1 for certain transactions involving insurance company pooled separate accounts, PTCE 91-38 for certain transactions involving bank collective investment funds, PTCE 95-60 for certain transactions involving life insurance company general accounts, and PTCE 96-23 for certain transactions determined by in-house asset managers.

[Table of Contents](#)

Accordingly, any purchaser or holder of warrants will be deemed to have represented and warranted by its purchase and holding thereof that either (A) it is not a Plan, or a governmental, church or foreign plan subject to any Similar Law, and it is not purchasing warrants on behalf of or with “plan assets” of any such Plan or governmental, church or foreign plan or (B) its purchase, holding and, to the extent relevant, disposition or exercise of a warrant either (i) qualifies for exemptive relief under PTCE 84-14, 90-1, 91-38, 95-60 or 96-23 (or some other applicable statutory, class or individual exemption) or (ii) will not result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code (or, in the case of a governmental, church or foreign plan, a violation of any Similar Law).

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing warrants on behalf of or with “plan assets” of any Plan or governmental, church or foreign plan consult with their counsel regarding the potential consequences of the investment and the availability of exemptive relief.

UNDERWRITING

Subject to the terms and conditions of the underwriting agreement, the underwriters named below, through their representative Deutsche Bank Securities, have severally agreed to purchase from the selling security holder the following respective number of warrants at a public offering price less the underwriting discounts and commissions set forth on the cover page of this prospectus supplement:

Underwriter	Number of Warrants
Deutsche Bank Securities Inc.	11,392,164
Muriel Siebert & Co., Inc.	1,265,796
Total	12,657,960

The underwriting agreement provides that the obligations of the several underwriters to purchase the warrants offered hereby are subject to certain conditions precedent and that the underwriters will purchase all of the warrants the selling security holder determines to sell, if any are purchased.

The underwriters plan to offer the warrants for sale pursuant to the auction process described above under “Auction Process.” Warrants sold by the underwriters to the public will be sold at the clearing price determined through that auction process. During the auction period, bids may be placed at any price (in increments of \$0.25) at or above the minimum bid price of \$7.50 per warrant. The offering of the warrants by the underwriters is subject to receipt and acceptance and subject to the underwriters’ right to reject any order in whole or in part. As described under “Auction Process,” the selling security holder may decide not to sell any warrants in the auction, regardless of the clearing price.

The underwriting discounts and commissions are 1.5% of the public offering price per warrant. The selling security holder has agreed to pay the underwriters the following discounts and commissions:

Per Warrant	\$ 0.17625
Total	\$ 2,230,965.45

We estimate that our share of the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$600,000.

We have agreed to indemnify the several underwriters against some specified types of liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of any of these liabilities.

Each of our executive officers and directors has agreed, subject to certain specified exceptions, not to offer, sell, contract to sell or otherwise dispose of, or enter into any transaction that is designed to, or could be expected to, result in the disposition of any warrants or shares of our common stock or other securities convertible into or exchangeable or exercisable for shares of our common stock or derivatives of our warrants or our common stock owned by these persons prior to this offering or common stock issuable upon exercise of options or warrants held by these persons during the period from the date of this prospectus supplement continuing through the date 45 days after the date of this prospectus supplement, except with the prior written consent of Deutsche Bank Securities. Any such consent may be given at any time without public notice. We have entered into a similar agreement with the representatives of the underwriters with respect to the period from the date of this prospectus supplement continuing through the date 45 days after the date of this prospectus supplement, which can only be

[Table of Contents](#)

waived with the prior written consent of Deutsche Bank Securities, except that without such consent we may among other things (i) issue common stock or securities convertible into or exchange for common stock in connection the exercise of options, warrants and securities outstanding on the date hereof, (ii) sell or distribute equity securities and/or options or other rights in respect thereof solely registered on Form S-4 or S-8 (or any successor form), (iii) grant and issue shares of equity securities and/or options or other rights in respect thereof pursuant to stock-based compensation or incentive plans; (iv) issue common stock in connection with dividend reinvestment plans or employee stock purchase plans; and (v) issue common stock in connection with any court order or decree. There are no agreements between either Deutsche Bank Securities or the selling security holder and us or any of our stockholders or affiliates releasing us or them from these lock-up agreements prior to the expiration of the 45-day period.

The warrants have no established trading market. The warrants have been approved for listing, subject to notice of issuance, on the Exchange. The underwriters may make a market in the warrants after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for the warrants or that an active public market for the warrants will develop.

In connection with the offering and any subsequent market-making activities, the underwriters may purchase and sell warrants or common stock in the open market. These transactions may include stabilizing transactions, which consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering, or other purchases. In addition, the underwriters may engage in short sales and purchases to cover positions created by short sales in connection with any market-making activities. Short sales would involve the sale by the underwriters of a greater number of securities than they then hold, and must be closed out by purchasing those securities in the open market. Stabilizing transactions and purchases to cover a short position, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the warrants, and may stabilize, maintain or otherwise affect the market price of the warrants or the common stock. As a result, the price of the warrants or the common stock may be higher than the price that otherwise might exist in the open market. If these activities are commenced, they may be discontinued at any time. These transactions may be effected on the Exchange, in the over-the-counter market or otherwise.

Certain of the underwriters and their respective affiliates have, from time to time, provided, and may in the future provide, various investment banking and financial advisory services to us and to the selling security holder, for which they received or will receive customary fees and expenses. Deutsche Bank Securities has agreed to provide various services to Treasury in connection with sales of the warrants of certain financial institutions (as defined in the EESA) in connection with offerings of those warrants to be conducted as public auctions, pursuant to which Deutsche Bank Securities is entitled to an administrative fee of \$250,000 and a minimum commitment fee of up to \$10 million for services performed during the two-year commitment period (subject to reduction by the amount of any underwriting compensation received by Deutsche Bank Securities in connection with completed auctions). The commitment fee (as so reduced) generally is payable only at the end of that two-year period.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area that has implemented the Prospectus Directive (each, a relevant member state), with effect from and including the date on which the Prospectus Directive is implemented in that relevant member state (the relevant implementation date), an offer of warrants and shares of common stock described in this prospectus supplement may not be made to the public in that relevant member state prior to the publication of a prospectus in relation to the warrants and shares of common stock that has been approved by the competent authority in that relevant member state or, where appropriate, approved in another relevant member state and notified to the competent authority in that relevant member state,

[Table of Contents](#)

all in accordance with the Prospectus Directive, except that, with effect from and including the relevant implementation date, an offer of warrants may be made to the public in that relevant member state at any time:

- to any legal entity that is authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities;
- to any legal entity that has two or more of (1) an average of at least 250 employees during the last financial year; (2) a total balance sheet of more than €43,000,000 and (3) an annual net turnover of more than €50,000,000, as shown in its last annual or consolidated accounts;
- to fewer than 100 natural or legal persons (other than qualified investors as defined in the Prospectus Directive) subject to obtaining the prior consent of the representatives for any such offer; or
- in any other circumstances that do not require the publication of a prospectus pursuant to Article 3 of the Prospectus Directive.

For purposes of this provision, the expression an “offer of the warrants to the public” in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the warrants to be offered so as to enable an investor to decide to purchase or subscribe the warrants, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression “Prospectus Directive” means Directive 2003/71/EC and includes any relevant implementing measure in each relevant member state.

Notice to Prospective Investors in the United Kingdom

This prospectus supplement and the accompanying prospectus are only being distributed to, and are only directed at, persons in the United Kingdom that are qualified investors within the meaning of Article 2(1)(e) of the Prospectus Directive that are also (i) investment professionals falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the “Order”) or (ii) high net worth entities, and other persons to whom it may lawfully be communicated, falling within Article 49(2)(a) to (d) of the Order (each such person being referred to as a “relevant person”). This prospectus supplement and its contents are confidential and should not be distributed, published or reproduced (in whole or in part) or disclosed by recipients to any other persons in the United Kingdom. Any person in the United Kingdom that is not a relevant person should not act or rely on this document or any of its contents.

Notice to Prospective Investors in Hong Kong

The warrants may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the warrants may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to warrants which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Japan

No securities registration statement (“SRS”) has been filed under Article 4, Paragraph 1 of the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) (“FIEL”) in relation to the warrants.

[Table of Contents](#)

The warrants are being offered in a private placement to “qualified institutional investors” (tekikaku-kikan-toshika) under Article 10 of the Cabinet Office Ordinance concerning Definitions provided in Article 2 of the FIEL (the Ministry of Finance Ordinance No. 14, as amended) (“QIIs”), under Article 2, Paragraph 3, Item 2 i of the FIEL. Any QII acquiring the warrants in this offer may not transfer or resell those warrants except to other QIIs.

Notice to Prospective Investors in Singapore

This prospectus supplement has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the warrants may not be circulated or distributed, nor may the warrants be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the warrants are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or
- a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor,

then shares, debentures and units of shares and debentures of that corporation or the beneficiaries’ rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the warrants pursuant to an offer made under Section 275 of the SFA except:

- to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;
- where no consideration is or will be given for the transfer; or
- where the transfer is by operation of law.

United Arab Emirates

This prospectus supplement and the attached prospectus have not been approved or licensed by the Central Bank of the United Arab Emirates (the “UAE”), Securities and Commodities Authority of the UAE and/or any other relevant licensing authority in the UAE. The offer of the warrants does not constitute a public offer of securities in the UAE in accordance with relevant laws of the UAE, in particular, the Commercial Companies Law, Federal law No. 8 of 1984 (as amended). The warrants may not be offered to the public in the UAE. The warrants may only be offered and issued to a limited number of investors in the UAE who qualify as sophisticated investors under the relevant laws and regulations of the UAE. The underwriters represent and warrant that the warrants will not be offered, sold, transferred or delivered to the public in the UAE.

Notice to Prospective Investors in the Dubai International Financial Centre

This statement relates to an “exempt offer” in accordance with the Offered Securities Rules of the Dubai Financial Services Authority. This statement is intended for distribution only to persons of a type specified in those rules. It must not be delivered to, or relied on by, any other person. The Dubai Financial Services Authority has no responsibility for reviewing or verifying any documents in connection with exempt offers. The Dubai Financial Services Authority has not approved this prospectus supplement nor taken steps to verify the information set out in it, and has no responsibility for it. The warrants to which this prospectus supplement relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the warrants offered should conduct their own due diligence on the warrants. If you do not understand the contents of this prospectus supplement you should consult an authorized financial adviser. For the avoidance of doubt, the warrants are not interests in a “fund” or “collective investment scheme” within the meaning of either the Collective Investment Law (DIFC Law No. 1 of 2006) or the Collective Investment Rules Module of the Dubai Financial Services Authority Rulebook.

LEGAL MATTERS

The validity of the warrants to be offered in this offering will be passed on for us by Gibson, Dunn & Crutcher LLP, New York, New York. Certain legal matters in connection with the offering will be passed on for the underwriters by Morrison & Foerster LLP, New York, New York, and by Cleary Gottlieb Steen & Hamilton LLP, New York, New York.

Capital One Financial Corporation

Capital One Financial Corporation from time to time may offer to sell senior, subordinated or junior subordinated debt securities, preferred stock, either separately or represented by depository shares, common stock, purchase contracts, warrants or units. Capital One Capital V, Capital One Capital VI, Capital One Capital VII, and Capital One Capital VIII from time to time may offer to sell trust securities and use the proceeds of these sales to purchase junior subordinated debt securities from Capital One Financial Corporation.

We will provide specific terms of these securities in supplements to this prospectus. You should read this prospectus and the accompanying prospectus supplement carefully before you make your investment decision.

Our common stock is listed on the New York Stock Exchange under the symbol “COF.”

Investing in our securities involves a high degree of risk. See the “Risk Factors” section of our filings with the Securities and Exchange Commission and the applicable prospectus supplement.

This prospectus may not be used to sell any of the securities unless it is accompanied by a prospectus supplement.

These securities are not deposits or savings accounts or other obligations of a bank. These securities are not insured by the Federal Deposit Insurance Corporation or any other governmental agency or instrumentality.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this prospectus is May 8, 2009.

ABOUT THIS PROSPECTUS

In this prospectus, “we,” “our,” “us,” or “the Corporation,” each refer to Capital One Financial Corporation, and “trust” or “trusts” refer to one or all of Capital One Capital V, Capital One Capital VI, Capital One Capital VII and Capital One Capital VIII.

This prospectus is part of a registration statement (No. 333-159085) that we and the trusts have filed with the Securities and Exchange Commission, or the SEC, utilizing a “shelf” registration process. This prospectus provides you with a general description of the securities we and the trusts may issue and sell. Each time we and the trusts issue and sell securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may add, update or change information in this prospectus. If there is any inconsistency between the information in this prospectus and the prospectus supplement, you should rely on the information in the prospectus supplement. You should read both this prospectus and the prospectus supplement applicable to any offering, together with the additional information described under the heading “Where You Can Find More Information” below.

FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference in this prospectus contain forward-looking statements. Statements that are not historical facts, including statements about our beliefs and expectations, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements include information relating to our future earnings per share, growth in managed loans outstanding, product mix, segment growth, managed revenue margin, funding costs, operations costs, employment growth, marketing expense, delinquencies and charge-offs. Forward-looking statements also include statements using words such as “expect,” “anticipate,” “hope,” “intend,” “plan,” “believe,” “estimate” or similar expressions. We have based these forward-looking statements on our current plans, estimates and projections, and you should not unduly rely on them.

Numerous factors could cause our actual results to differ materially from those described in forward-looking statements, including, among other things:

- general economic, political and business conditions in the U.S., the UK, or our local markets, including conditions affecting employment levels, interest rates and consumer income and confidence, spending, and savings which may affect consumer bankruptcies, defaults, charge-offs, and deposit activity;
- changes in the labor and employment market;
- changes in the credit environment;
- increases or decreases in interest rates;
- our ability to execute on our strategic and operational plans;
- competition from providers of products and services that compete with our businesses;
- with respect to financial and other products, increases or decreases in the Corporation’s aggregate account balances and/or number of customers and the growth rate and composition thereof, including increases or decreases resulting from factors such as shifting product mix, amount of actual marketing expenses made by the Corporation and attrition of account balances;
- the risk that the benefits of our cost savings initiative may not be fully realized;
- changes in the reputation of or expectations regarding the financial services industry or us with respect to practices, products or financial condition;
- financial, legal, regulatory, tax, or accounting changes or actions, including with respect to any litigation matter involving us; and
- the success of our marketing efforts in attracting or retaining customers.

You should carefully consider the factors referred to above in evaluating these forward-looking statements.

When considering these forward-looking statements, you should keep in mind these risks, uncertainties and other cautionary statements made in this prospectus and any accompanying prospectus supplement. Forward-looking statements speak only as of the date that they are made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. See the factors set forth under the caption “Risk Factors” in any prospectus supplement and any other documents incorporated or deemed to be incorporated by reference therein or herein, including our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2009, for additional information that you should consider carefully in evaluating these forward-looking statements.

Forward-looking statements are not guarantees of future performance. They involve risks, uncertainties and assumptions, including the risks factors referred to above. Our future performance and actual results may differ materially from those expressed in forward-looking statements. Many of the factors that will determine these results and values are beyond our ability to control or predict. Forward-looking statements speak only as of the date that they are made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

WHERE YOU CAN FIND MORE INFORMATION

This prospectus is part of a registration statement we have filed with the SEC under the Securities Act of 1933, as amended, or the Securities Act. The registration statement, including the attached exhibits and schedules, contains additional relevant information about us and the securities described in this prospectus. The SEC’s rules and regulations allow us to omit certain information included in the registration statement from this prospectus. The registration statement may be inspected by anyone without charge at the SEC’s principal office at 100 F Street, N.E., Washington, D.C. 20549.

In addition, we file annual, quarterly and special reports, proxy statements and other information with the SEC under the Securities Exchange Act of 1934, as amended, or the Exchange Act. You may read and copy this information at the following SEC location:

Public Reference Room
100 F Street, N.E.
Washington, D.C. 20549

You may also obtain copies of this information by mail from the SEC’s Public Reference Room, 100 F Street, N.E., Washington, D.C. 20549, at rates determined by the SEC. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. You may also inspect reports, proxy statements and other information that we have filed electronically with the SEC at the SEC’s web site at <http://www.sec.gov>. These documents can also be inspected at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

The SEC’s rules allow us to “incorporate by reference” information into this prospectus and any prospectus supplement. This means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is considered to be a part of this prospectus and any prospectus supplement. Any information incorporated by reference in this prospectus that we file with the SEC after the date of this prospectus and any information incorporated by reference in any prospectus supplement will automatically update and supersede information contained in this prospectus and any prospectus supplement. Our SEC file number is 001-13300.

[Table of Contents](#)

We are incorporating by reference in this prospectus the documents listed below and any future filings that we make with the SEC under Section 13(a), 13(c), 14 or 15(d) of the Exchange Act prior to the termination of this offering, provided, however, that we are not incorporating by reference any information furnished (but not filed) under Item 2.02 or Item 7.01 of any Current Report on Form 8-K:

- our Annual Report on Form 10-K for the fiscal year ended December 31, 2008, filed on February 26, 2009 (including the portions of our proxy statement for our 2009 annual meeting of stockholders incorporated by reference therein);
- our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2009, filed on May 8, 2009;
- our Current Reports on Form 8-K filed on January 22, 2009 (Item 8.01 information only), February 3, 2009, March 2, 2009, March 9, 2009, March 12, 2009, April 21, 2009 (Item 8.01 information only); and
- the description of our common stock on amendment no. 1 to Form 8-A, dated October 17, 1994.

You can obtain copies of documents incorporated by reference in this prospectus, without charge, by requesting them in writing or by telephone from us at Capital One Financial Corporation, Investor Relations Department, 1680 Capital One Drive, McLean, Virginia 22102, telephone (703) 720-2455.

You should rely only on the information incorporated by reference or provided in this prospectus or any prospectus supplement. Neither we nor the trusts have authorized anyone else to provide you with different information. Neither we nor the trusts are making an offer of these securities in any state where the offer is not permitted. You should not assume that the information in this prospectus, any prospectus supplement or any document incorporated by reference is accurate as of any date other than the date of the applicable document.

Our principal executive office is located at 1680 Capital One Drive, McLean, Virginia 22102 (telephone number (703) 720-1000). We maintain a website at www.capitalone.com. The information on our website is not part of this prospectus nor is it incorporated by reference. Documents available on our website include our (i) Code of Business Conduct and Ethics, (ii) Corporate Governance Principles; and (iii) charters for the Audit and Risk, Compensation, Finance, and Governance and Nominating Committees.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our consolidated ratios of earnings to fixed charges for the periods indicated:

<u>Ratio of Earnings to Fixed Charges:</u>	<u>Three Months Ended March 31,</u>		<u>Years Ended December 31,</u>				
	<u>2009⁽¹⁾</u>	<u>2008⁽¹⁾</u>	<u>2008⁽¹⁾</u>	<u>2007⁽¹⁾</u>	<u>2006⁽¹⁾</u>	<u>2005</u>	<u>2004</u>
Including Interest on Deposits	0.85 ⁽²⁾	1.91	1.16	1.85	2.19	2.38	2.31
Excluding Interest on Deposits	0.45 ⁽²⁾	3.11	1.43	3.33	3.90	4.22	4.00
Including Preferred Stock Dividends (and Including Interest on Deposits)	0.79 ⁽²⁾	1.91	1.16	1.85	2.19	2.38	2.31
Including Preferred Stock Dividends (and Excluding Interest on Deposits)	0.35 ⁽²⁾	3.11	1.42	3.33	3.90	4.22	4.00

(1) Based on continuing operations.

(2) Earnings are inadequate to cover fixed charges. The coverage deficiency is \$128.9 million and \$193.5 million for the ratio of earnings to fixed charges and the ratio of earnings to fixed charges and preferred dividends, respectively, regardless of interest.

The ratio of earnings to fixed charges is computed by dividing income (or loss) from continuing operations before income taxes and fixed charges less interest capitalized during such period, net of amortization of previously capitalized interest, and preferred stock dividends or accretion on preferred stock by fixed charges. Fixed charges consist of interest, expensed or capitalized, on borrowings (including or excluding deposits, as applicable), and the portion of rental expense which is representative of interest.

On November 14, 2008 the Corporation issued 3,555,199 shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series A, par value \$0.01 per share, having a liquidation amount per share equal to \$1,000 (the "Series A Preferred Stock"), to the United States Department of the Treasury as part of the Corporation's participation in the Troubled Asset Relief Program Capital Purchase Program. The Series A Preferred Stock pays cumulative dividends at a rate of 5% per year for the first five years and thereafter at a rate of 9% per year.

We did not declare or pay any preferred stock dividends in the years ended December 31, 2004, 2005, 2006, 2007 and 2008, or the three months ended March 31, 2008. We recorded accretion of the discount on preferred stock associated with the preferred stock issuance noted in the paragraph above in the year ended December 31, 2008 and the three months ended March 31, 2009. We began paying preferred stock dividends in the three months ended March 31, 2009.

USE OF PROCEEDS

Except as otherwise described in the applicable prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes in the ordinary course of our business, including the reduction of short-term debt, possible acquisitions, investments in, or extensions of credit to, our subsidiaries and investments in securities.

Each of the trusts will invest all proceeds received from the sale of its trust preferred and common securities to acquire a series of corresponding junior subordinated debt securities issued by us, which we call the “junior subordinated debt securities.”

We may temporarily invest any funds not required immediately for purposes described above in short-term marketable securities.

DESCRIPTION OF DEBT SECURITIES

We may from time to time issue and sell debt securities which will be our direct unsecured general obligations. These debt securities are described below and will be senior debt securities or subordinated debt securities and any senior or subordinated debt securities that may be part of a unit, all of which are called debt securities. The senior debt securities will be issued under an indenture between us and The Bank of New York Mellon Trust Company, N.A., formerly known as The Bank of New York Trust Company, N.A. (as successor to Harris Trust and Savings Bank), as trustee, dated as of November 1, 1996, and the subordinated debt securities will be issued under an indenture dated as of August 29, 2006 between us and The Bank of New York Mellon, formerly known as The Bank of New York, as trustee, subject in each case to such amendments or supplemental indentures as may be adopted from time to time. Together, the senior indenture and the subordinated indenture are called the indentures, and the senior indenture trustee and the subordinated indenture trustee are called the indenture trustees.

We have summarized selected provisions of the indentures below. The summary is not complete and does not describe every aspect of the indentures. A copy of each of the senior indenture and the subordinated indenture has been filed as an exhibit to the registration statement of which this prospectus is a part and has been qualified as an indenture under the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. You should read the more detailed provisions of the applicable indenture, including the defined terms, for provisions that may be important to you. You should also consider applicable provisions of the Trust Indenture Act. In the summary below, we have included references to section numbers so that you can easily locate these provisions. The particular terms of any debt securities we offer will be described in the related prospectus supplement, along with any applicable modifications of or additions to the general terms of the debt securities described below and in the indentures. For a description of the terms of any series of debt securities, you should also review both the prospectus supplement relating to that series and the description of the debt securities set forth in this prospectus before making an investment decision. Capitalized terms used in the summary have the meanings specified in the applicable indenture.

As of March 31, 2009, we had \$8.3 billion in senior and subordinated notes outstanding that mature in varying amounts from 2009 to 2017, of which \$6.2 billion in aggregate principal amount was senior debt securities and \$2.1 billion in aggregate principal was subordinated debt securities. A portion of both our senior and subordinated debt securities were issued by predecessor entities pursuant to indentures not described herein, and \$1.8 billion in senior and subordinated debt securities were issued by our consolidated subsidiary, Capital One Bank (USA), National Association.

General

The debt securities will be our direct unsecured obligations. The indentures do not significantly limit our operations. In particular, they do not:

- limit the amount of debt securities that we can issue under the indentures;
- limit the number of series of debt securities that we can issue from time to time;
- limit or otherwise restrict the total amount of debt that we or our subsidiaries may incur or the amount of other securities that we may issue;
- require us or an acquiror to repurchase debt securities in the event of a “change in control”; or
- contain any covenant or other provision that is specifically intended to afford any holder of the debt securities any protection in the event of highly leveraged transactions or similar transactions involving us or our subsidiaries.

The senior debt securities will rank equally with all of our other unsecured unsubordinated indebtedness. The subordinated debt securities will have a position junior to all of our senior indebtedness.

[Table of Contents](#)

Because we are a holding company, dividends and fees from our subsidiaries are our principal source of revenues from which to repay the debt securities. Our subsidiaries engaged in the banking or credit card business can only pay dividends if they are in compliance with applicable United States federal and state regulatory requirements. Our right to participate in any asset distribution of any of our subsidiaries, including Capital One Bank (USA), National Association (“COBNA”), and Capital One, National Association (“CONA”), on liquidation, reorganization or otherwise, will rank junior to the rights of all creditors of that subsidiary (except to the extent that we may ourselves be an unsubordinated creditor of that subsidiary). As a result, the rights of holders of debt securities to benefit from those distributions will also be junior to the rights of all creditors of our subsidiaries. Consequently, the debt securities will be effectively subordinated to all liabilities of our subsidiaries. COBNA and CONA are subject to claims by creditors for long-term and short-term debt obligations, including deposit liabilities, obligations for federal funds purchased and securities sold under repurchase agreements. There are also various legal limitations on the extent to which COBNA and CONA may pay dividends or otherwise supply funds to us or our other affiliates.

Terms

A prospectus supplement relating to the offering of any series of debt securities will include specific terms relating to the offering. These terms will include some or all of the following (unless specified otherwise or in context, section references are to sections of both the senior indenture and subordinated indenture):

- the title, series, form and type of the offered debt securities;
- whether the offered debt securities will be senior or subordinated debt;
- the indenture under which the offered debt securities are being issued;
- whether the offered debt securities are to be issued in registered form, bearer form or both;
- the aggregate principal amount of the offered debt securities and any limit upon the aggregate principal amount of the debt securities of such title or series;
- the date or dates (including the maturity date) or method, if any, for determining such dates, on which the principal of the offered debt securities will be payable (and any provisions relating to extending or shortening the date on which the principal of the offered debt securities is payable);
- the interest rate, or method, if any, for determining the interest rate, the date or dates from which interest will accrue, or method, if any, for determining such dates, the interest payment dates, if any, on which interest will be payable, and whether and under what circumstances additional amounts on the offered debt securities will be payable; the manner in which payments with respect to the offered debt securities will be made; and the place or places where principal of, premium, if any, interest on and additional amount, if any, will be payable;
- whether the offered debt securities are redeemable at our option, and if so, the periods, prices, and other terms regarding such optional redemption;
- whether we are obligated to redeem or repurchase the offered debt securities pursuant to any sinking fund or at the option of any holder thereof and, if so, the periods, prices, and other terms regarding such repurchase or redemption;
- the denominations in which the offered debt securities will be issuable;
- if other than the principal amount, the portion of the principal amount of the offered debt securities payable upon the acceleration of the maturity date or the method by which such portion is to be determined;
- the currency for payment of principal, premium, interest and any additional amount with respect to the offered debt securities, whether the principal of, premium, if any, interest on or additional amount, if any, with respect to the offered debt securities are to be payable, at our election or any holder’s

election, in a currency other than that in which the offered debt securities are denominated, the period in which that election may be made and the time and manner of determining the applicable exchange rate;

- the percentage of the principal amount or price at which the offered debt securities will be issued;
- whether the amount of payments of principal of, premium, if any, interest on, or additional amount, if any, with respect to the offered debt securities may be determined by reference to an index, formula or other method, and if so, the terms and conditions and the manner in which such amounts will be determined and paid or payable;
- any changes to the covenants or additional events of default or covenants;
- whether and upon what terms the offered debt securities may be defeased (which means that we would be discharged from our obligations by depositing sufficient cash or government securities to pay the principal of, premium, if any, interest on, or additional amount, if any, due to the stated maturity date or a redemption date of the offered debt securities);
- whether the offered debt securities will be convertible into our common stock and, if so, the initial conversion price, the periods and terms of the conversion or exchange; and
- any other terms not inconsistent with the provisions of the indentures. (Section 301)

Form of the Debt Securities

The indentures provide that we may issue senior and subordinated debt securities in registered form, in bearer form or in both registered and bearer form. Unless we indicate otherwise in the applicable prospectus supplement, each series of senior and subordinated debt securities will be issued in registered form, without coupons. Holders of “registered form” securities are listed on the applicable indenture trustee’s register for the applicable debt securities. (Sections 201 and 305)

Unless we indicate otherwise in the applicable prospectus supplement, we will issue senior and subordinated debt securities in registered form, without coupons, in denominations of \$1,000 or any integral multiple of \$1,000. Unless we indicate otherwise in the applicable prospectus supplement, we will issue senior and subordinated debt securities in bearer form in denominations of \$5,000 or any integral multiple of \$5,000. There will be no service charge for any registration of transfer, exchange, redemption, or conversion of senior and subordinated debt securities, but we or the applicable indenture trustee may require the holder to pay any tax or other governmental charge that may be imposed in connection with any registration of a transfer or exchange of the senior or subordinated debt securities, other than certain exchanges not involving any transfer. (Sections 302 and 305)

If we issue the debt securities in bearer form, the debt securities will have interest coupons attached. “Bearer form” securities are payable to whomever physically holds them from time to time. Debt securities in bearer form will not be offered, sold, resold or delivered in connection with their original issuance in the United States or to any United States person other than through offices of certain United States financial institutions located outside the United States. Purchasers of debt securities in bearer form will be subject to certification procedures and may be affected by United States tax law limitations. These procedures and limitations will be described in the applicable prospectus supplement.

Registration, Transfer, Payment and Paying Agent

Unless we indicate otherwise in the applicable prospectus supplement, payments on the debt securities will be made at our office or agency maintained for that purpose. We have appointed an agency in New York, New York to make payments on the debt securities; however, we may change our agent from time to time. Any transfer of the debt securities will be registerable at the same place. In addition, we may choose to pay interest by

[Table of Contents](#)

check mailed to the address in the security register of the person in whose name the debt security is registered at the close of business on the applicable record date. (Sections 1002 and 307) Unless we indicate otherwise in the applicable prospectus supplement, any interest and any additional amounts with respect to any debt securities which is payable, but not punctually paid or duly provided for, may be paid to the holders as of a special record date fixed by the trustee or in any other lawful manner. (Section 307)

Unless we indicate otherwise in the applicable prospectus supplement, payments of principal of, premium, if any, and interest on debt securities in bearer form will be made at the office outside the United States specified in the applicable prospectus supplement and as we may designate from time to time. Payment can also be made by check or by transfer to an account maintained by the payee with a bank located outside the United States. Unless we indicate otherwise in the applicable prospectus supplement, payment on debt securities in bearer form will be made only if the holder surrenders the coupon relating to the interest payment date. We will not make any payments on any debt security in bearer form at any office or agency in the United States, by check mailed to any address in the United States or by transfer to any account maintained with a bank located in the United States. (Sections 1001 and 1002)

Global Debt Securities

Unless we indicate otherwise in the applicable prospectus supplement for a series of debt securities, each series of debt securities will be issued in global form, which means that we will deposit with the depositary identified in the applicable prospectus supplement (or its custodian) one or more certificates representing the entire series, as described below under “Book-Entry Procedures and Settlement.” Global debt securities may be issued in either temporary or permanent form. (Sections 201 and 203)

The applicable prospectus supplement will describe any limitations and restrictions relating to a series of global senior or subordinated debt securities.

Covenants

Under the senior indenture, we agree to the following:

- Except as permitted as described in this prospectus under “Description of Debt Securities—Consolidation, Merger and Sale of Assets,” we will preserve and keep in full force and effect our corporate existence and the corporate existence of each of our significant subsidiaries (as defined below) and our rights (charter and statutory) and franchises and those of each of our significant subsidiaries. However, neither we nor any of our significant subsidiaries will be required to preserve any of these rights or franchises if we or the significant subsidiary, as the case may be, determine that the preservation of these rights or franchises is no longer desirable in the conduct of our or its business, as applicable, and that the loss of these rights or franchises is not disadvantageous in any material respect to the holders of the senior debt securities. (Section 1007)
- The senior indenture contains a covenant by us limiting our ability to dispose of the voting stock of a significant subsidiary. A “significant subsidiary” is any of our majority-owned subsidiaries the consolidated assets of which (as reflected on our consolidated balance sheet) constitute 20% or more of our consolidated assets. This covenant generally provides that, except as permitted as described in this prospectus under “Description of Debt Securities—Consolidation, Merger and Sale of Assets,” as long as any of the senior debt securities are outstanding:
 - neither we nor any of our significant subsidiaries will sell, assign, transfer or otherwise dispose of the voting stock of a significant subsidiary or securities convertible into or options, warrants or rights to subscribe for or purchase such voting stock, and we will not permit a significant subsidiary to issue voting stock, or securities convertible into or options, warrants or rights to subscribe for or purchase such voting stock, in each case if, after giving effect to such transaction

and to the issuance of the maximum number of shares of voting stock of the significant subsidiary issuable upon the exercise of all such convertibles securities, options, warrants or rights, such significant subsidiary would cease to be a controlled subsidiary (as defined below); and

- we will not permit a significant subsidiary to merge or consolidate with or into any corporation unless the survivor is us or is, or upon consummation of the merger or consolidation will become, a controlled subsidiary, or to lease, sell or transfer all or substantially all of its properties and assets except to us or a controlled subsidiary or a person that upon such lease, sale or transfer will become a controlled subsidiary. (Section 1005)

A “controlled subsidiary” is a significant subsidiary at least 80% of the voting stock of which is owned by us and/or one or more of our controlled subsidiaries.

The limitations described above do not apply to certain transactions required by law, rule, regulation or governmental order (including as a condition to an acquisition of another entity by us) or to any sale or transfer of assets in a securitization transaction.

Under the subordinated indenture, we agree to the following:

- Except as permitted as described in this prospectus under “Description of Debt Securities—Consolidation, Merger and Sale of Assets,” we will preserve and keep in full force and effect our corporate existence and our rights (charter and statutory) and franchises. However, we will not be required to preserve any of these rights or franchises if we determine that the preservation of these rights or franchises is no longer desirable in the conduct of our business and that the loss of these rights or franchises is not disadvantageous in any material respect to the holders of the subordinated debt securities. (Section 1007)

In addition, the senior indenture contains a covenant by us limiting our ability to create liens on the voting stock of a significant subsidiary. This covenant generally provides that, as long as any of the senior debt securities are outstanding, neither we nor any of our subsidiaries will create, assume or incur any pledge, encumbrance or lien upon a significant subsidiary’s voting stock, or upon securities convertible into or options, warrants or rights to subscribe for or purchase, a significant subsidiary’s voting stock, directly or indirectly, to secure indebtedness for borrowed money, if, treating such pledge, encumbrance or lien as a transfer of the significant subsidiary’s voting stock or securities convertible into or options, warrants or rights to subscribe for or purchase the significant subsidiary’s voting stock to the secured party (in each case after giving effect to such transaction and to the issuance of the maximum number of shares of voting stock of the significant subsidiary issuable upon the exercise of all such convertible securities, options, warrants or rights), the significant subsidiary would not continue to be a controlled subsidiary, unless the senior debt securities are equally and ratably secured with any and all such indebtedness by this pledge, encumbrance or lien. (Section 1006)

Subordination of Subordinated Debt Securities

Unless we indicate otherwise in the applicable prospectus supplement, the following provisions will apply to subordinated debt securities. Section references are to sections of the subordinated indenture.

Subordinated debt securities will be subordinated in right of payment to all “senior indebtedness,” as defined below. Payments on subordinated debt securities also will be effectively subordinated if:

- we are involved in insolvency, bankruptcy or similar proceedings;
- the maturity of any series of our subordinated debt securities is accelerated because of certain events of bankruptcy, insolvency or reorganization of us or a major depositary institution subsidiary; or

Table of Contents

- we fail to pay the principal of, premium, if any, or interest on any senior indebtedness when due, or an event of default occurs and is continuing with respect to any senior indebtedness permitting the holders of such senior indebtedness to declare the senior indebtedness due and payable prior to the date on which it would otherwise have become due and payable. (Section 1601)

Because of this subordination, some of our creditors may receive more, ratably, than holders of subordinated debt securities if we are insolvent.

After all payments have been made to the holders of senior indebtedness, any holders of subordinated debt securities will be subrogated to the rights of holders of senior indebtedness to receive payments or distributions of cash, property or securities from us applicable to such senior indebtedness until all amounts owing on the subordinated debt securities have been paid in full. (Section 1602)

“Senior indebtedness” includes: (1) the principal of, premium, if any, and interest on, whether outstanding now or incurred later, (a) all indebtedness for money borrowed by us, including indebtedness of others that we guarantee, other than the subordinated debt securities and the junior subordinated debt securities and other indebtedness that is expressly stated as not senior, and (b) any amendments, renewals, extensions, modifications and refundings of any indebtedness, unless in either case the instrument evidencing the indebtedness provides that it is not senior in right of payment to the subordinated debt securities; (2) all our capital lease obligations and any synthetic lease or tax retention operating lease; (3) all our obligations issued or assumed as the deferred purchase price of property, and all conditional sale or title retention agreements, but excluding trade accounts payable in the ordinary course of business; (4) all our obligations, contingent or otherwise, in respect of any letters of credit, bankers acceptances, security purchase facilities and similar credit transactions; (5) all our obligations in respect of interest rate swap, cap or similar agreements, interest rate future or options contracts, currency swap agreements, currency future or option contracts, commodity contracts and other similar agreements; (6) all obligations of the type referred to in clauses (1) through (5) of other persons for the payment of which we are responsible or liable as obligor, guarantor or otherwise; and (7) all obligations of the type referred to in clauses (1) through (6) of other persons secured by any lien on any of our property or assets whether or not such obligation is assumed by us.

Senior indebtedness does not include: (1) subordinated debt securities; (2) any indebtedness that by its terms is subordinated to, or ranks on an equal basis with, subordinated debt securities; and (3) any indebtedness between or among us and our affiliates, including (a) any junior subordinated debt securities, (b) trust preferred securities guarantees and (c) all other debt securities and guarantees in respect of those debt securities, issued to any trust, or a trustee of such trust, partnership or other entity affiliated with us which is our financing vehicle in connection with the issuance by such financing vehicle of trust preferred securities or other securities guaranteed by us pursuant to an instrument that ranks on an equal basis with, or junior to, the trust preferred securities guarantees.

Consolidation, Merger and Sale of Assets

Each indenture generally permits a consolidation or merger between us and another corporation and the conveyance, transfer or lease by us of all or substantially all of our property or assets, in each case without the consent of the holders of any outstanding debt securities. However, each indenture requires that:

- the successor or purchaser is a corporation organized under the laws of the United States of America, any state thereof or the District of Columbia and expressly assumes our obligations on the debt securities under the applicable indenture;
- immediately after giving effect to the transaction, no event which, after notice or lapse of time, would become an event of default, will have occurred and be continuing pursuant to the applicable indenture; and

[Table of Contents](#)

- either we or the successor person has delivered to the applicable indenture trustee an officer's certificate and an opinion of counsel stating the consolidation, merger, transfer or lease, as applicable, complied with these provisions and all conditions precedent of the applicable indenture. (Section 801)

The successor shall be substituted for us as if it had been an original party to the indentures and the debt securities. Thereafter, the successor may exercise our rights and powers under the indentures and the debt securities and, except in the case of a lease, we will be released from all of our obligations and covenants under those documents. (Section 802)

Exchange of Debt Securities

Registered debt securities may be exchanged for an equal aggregate principal amount of registered debt securities of the same series containing identical terms and provisions in authorized denominations requested by the holders upon surrender of the registered debt securities at an office or agency that we maintain for that purpose and upon fulfillment of all other requirements set forth in the indentures. (Section 305)

Conversion and Exchangeability

The holders of debt securities that are convertible into our common stock or exchangeable into other securities will be entitled to convert or exchange the debt securities under some circumstances. The terms of any conversion or exchange will be described in the applicable prospectus supplement.

Events of Default

Unless we indicate otherwise in the applicable prospectus supplement for any series of debt securities, events of default with respect to any series of debt securities are:

- failure to pay the interest or any additional amount payable on any debt security of such series when due and continuance of that default for 30 days;
- failure to pay the principal of or any premium on any debt security of such series when due and payable;
- failure to deposit any sinking fund payment when and as due by the terms of any debt security of such series;
- failure to perform or the breach of any covenant or warranty in the applicable indenture or the debt securities (other than a covenant or warranty included solely for the benefit of a series of debt securities other than such series) that continues for 60 days after we are given written notice by the trustee or we and the trustee are given written notice by the holders of at least 25% of the outstanding debt securities of such series;
- in the case of the senior debt securities, any event of default under any mortgage, indenture or other instrument securing or evidencing any indebtedness of us or any significant subsidiary for money borrowed, resulting in such indebtedness in principal amount exceeding \$10,000,000 becoming or being declared due and payable prior to the date on which it would otherwise become due and payable, if the acceleration is not rescinded or annulled within 30 days after written notice;
- in the case of the senior debt securities, certain events of bankruptcy, insolvency or reorganization of us or any of our significant subsidiaries and in the case of the subordinated debt securities, certain events of bankruptcy, insolvency or reorganization of us or a major depository institution subsidiary; or
- any other event of default included in any indenture or supplemental indenture. (Section 501)

If a default occurs with respect to any series of senior or subordinated debt securities, the applicable indenture trustee will give the holders of those debt securities notice of the default as and to the extent provided by the Trust Indenture Act. (Section 501)

[Table of Contents](#)

If an event of default with respect to any series of senior debt securities occurs and continues, either the senior indenture trustee or the holders of not less than 25% of the aggregate principal amount of the outstanding senior debt securities of that series may declare the principal amount (or such lesser amount as may be provided for the senior debt securities of such series) of all the senior debt securities of that series to be due and payable immediately. Payment of the principal of subordinated debt securities may be accelerated only in the case of certain events of bankruptcy, insolvency or reorganization of us or one of our major depositary institution subsidiaries. Subordinated debt securities cannot be accelerated if we default in our performance of any other covenant, including payment of principal or interest. (Section 502)

Any time after a declaration of acceleration has been made and before a judgment or decree for payment of the money due has been obtained the majority holders may, under certain circumstances, void the declaration. “Majority holders” are the holders of a majority of the aggregate principal amount of outstanding senior or subordinated debt securities of that series. (Section 502)

The majority holders may direct the time, method and place of conducting any proceeding for any remedy available to the applicable indenture trustee, or exercising any trust or power conferred on the applicable indenture trustee, for the senior or subordinated debt securities of that series. (Section 512). The applicable indenture trustee generally is not obligated to exercise any of its rights or powers under any senior or subordinated indenture at the request or direction of any of the holders, unless those holders offer the applicable indenture trustee reasonable indemnity. (Section 601)

A holder does not have the right to institute a proceeding with respect to the indenture, for the appointment of a receiver or a trustee, or for any other remedy, unless:

- the holder has previously given written notice to the applicable indenture trustee of a continuing event of default;
- the holders of not less than 25% of the aggregate principal amount of the outstanding debt securities of the applicable series have made a written request to the applicable indenture trustee to institute proceedings in respect of such event of default in its own name as trustee under the applicable indenture, and such holders have offered to the applicable indenture trustee reasonable indemnity against the costs, expenses and liabilities to be incurred in compliance with such request;
- the applicable indenture trustee has failed to institute a proceeding within 60 days after receipt of such notice, request and offer of indemnity; and
- the applicable indenture trustee has not received an inconsistent direction from the majority holders within such 60-day period. (Section 507)

However, these limitations do not apply to a suit for the enforcement of payment or conversion rights instituted on or after the respective due dates of the senior and subordinated debt securities of the applicable series. (Section 508)

Waivers of Certain Covenants and Past Defaults

The holders of not less than a majority of the aggregate principal amount of the outstanding senior and subordinated debt securities of each series may, on behalf of all holders of that series, waive our compliance with certain restrictive provisions of the applicable indenture. They also may waive any past default with respect to that series under the applicable indenture, except (1) a default in the payment of principal of, premium, if any, interest on or any additional amount, or (2) a default in the performance of certain covenants which cannot be modified without the consent of all of the holders of the applicable series. (Sections 513 and 1008)

Amendments to the Indentures

Supplemental Indentures with Consent of Holders

Unless we indicate otherwise in the applicable prospectus supplement, we and the applicable trustee may modify or amend an indenture, with the consent of the holders of at least 66-2/3% in principal amount of each series of the senior or subordinated debt securities affected by the modification or amendment. However, no modification or amendment may, without the consent of each holder affected by the modification or amendment:

- change the due date of the principal of, or any premium or installment of interest on, or any additional amounts with respect to any debt security;
- reduce the principal amount of, or the rate of interest on, or any additional amounts or premium, if any, payable with respect to any debt security, or, except as otherwise permitted, change an obligation to pay additional amounts with respect to any debt security, or adversely affect the right of repayment at the option of any holder, if any;
- change the place of payment, the currency in which the principal of, any premium, if any, or interest on, or any additional amounts with respect to any debt security is payable or impair the right to institute suit for the enforcement of any such payment on or after the due date thereof (or, in the case of redemption, on or after the redemption date or, in the case of repayment at the option of the holder, on or after the date for repayment);
- reduce the percentage in principal amount of outstanding debt securities of any series the consent of whose holders is required for any supplemental indenture, or the consent of whose holders is required for any waiver (of compliance with certain provisions of the applicable indenture or certain defaults thereunder and their consequences) under the applicable indenture or reduce requirements for quorum or voting;
- modify any of the provisions in the applicable indenture provisions described above under “Waivers of Certain Covenants and Past Defaults” and in this section “Amendments to the Indentures—Supplemental Indentures with Consent of Holders,” except to increase any percentage in principal amount of outstanding debt securities of any series the consent of whose holders is required for a supplemental indenture or waiver, or to provide that certain other provisions of the applicable indenture cannot be modified or waived without the consent of the holders of each outstanding debt security affected thereby;
- adversely affect the right of any holder to convert any convertible debt securities; or
- in the case of the subordinated indenture, modify the subordination provisions in a manner adverse to the holders of the subordinated debt securities. (Section 902)

Supplemental Indentures without Consent of Holders

Except as otherwise provided in the applicable prospectus supplement, we and the applicable indenture trustee may modify and amend an indenture without the consent of any holder for any of the following purposes:

- to evidence the succession of another person to us, and the assumption by the successor of our covenants in the applicable indenture and in the debt securities;
- to add to our covenants for the benefit of the holders of all or any series of debt securities or to surrender any right or power conferred upon us in the applicable indenture;
- to add or change any provisions of the applicable indenture to provide that bearer debt securities may be registrable as to principal, to change or eliminate restrictions on payments with respect to debt securities, to permit registered securities to be exchanged for bearer securities, to permit bearer securities to be exchanged for bearer securities of other authorized denominations or to permit or facilitate the issuance of securities in uncertificated form, provided any such action does not adversely affect the interests of the holders of any debt securities or related coupons in any material respect;

[Table of Contents](#)

- to establish the form or terms of debt securities of any series and any related coupons;
- to evidence and provide for the acceptance of appointment by a successor trustee and to add to or change any provisions of the applicable indenture as necessary to provide for or facilitate the administration of the trusts under the applicable indenture by more than one trustee;
- to cure any ambiguity or to correct or supplement any provision in the applicable indenture that may be defective or inconsistent with any other provision of the applicable indenture, or to make any other provisions with respect to matters or questions arising under the applicable indenture which do not adversely affect the interests of the holders of any debt securities or related coupons in any material respect;
- to modify the conditions, limitations and restrictions on the authorized amount, terms or purposes of issue, authentication and delivery of debt securities;
- to add additional events of default with respect to all or any series of debt securities;
- to supplement any of the provisions of the applicable indenture to the extent necessary to permit or facilitate the defeasance and discharge of any series of debt securities, provided the action does not adversely affect the interests of the holders of any debt securities of that series or related coupons or any other debt securities or related coupons in any material respect;
- to secure the debt securities;
- to amend or supplement any provision of the applicable indenture or any supplemental indenture, provided that the amendment or supplement does not materially adversely affect the interests of the holders of outstanding debt securities; and
- to make certain provisions with respect to conversion rights. (Section 901)

Legal Defeasance and Covenant Defeasance

If the applicable prospectus supplement provides for defeasance, we may at any time elect to defease and will be deemed to have paid and discharged our obligations on the applicable debt securities if:

- no event of default has occurred and is continuing, or would occur upon the giving of notice or lapse of time, at the time of the satisfaction and discharge;
- either (1) we have irrevocably deposited with the applicable indenture trustee sufficient cash or government securities to pay when due all the principal of, premium, if any, interest on and additional amounts, if any, with respect to the applicable debt securities, through the stated maturity or redemption date of the applicable debt securities (or, in the case of debt securities which have become due and payable, through the date of such deposit), or (2) we have properly fulfilled such other means of satisfaction and discharge as is provided in or pursuant to the applicable indenture for the applicable debt securities;
- we have paid all other sums payable under the applicable indenture with respect to the applicable debt securities and any related coupons;
- we have delivered to the applicable trustee a certificate of our independent public accountants certifying as to the sufficiency of the amounts deposited by us, and an officers' certificate and opinion of counsel as required by the applicable indenture; and
- we have delivered to the applicable trustee an opinion of counsel to the effect that the holders will have no federal income tax consequences as a result of the deposit or termination and if the applicable debt securities are listed on the New York Stock Exchange, an opinion of counsel that the applicable debt securities will not be delisted.

[Table of Contents](#)

In the case of a defeasance, the holders of the applicable debt securities of the series will not be entitled to the benefits of the applicable indenture, except for the registration of transfer or exchange and the replacement of stolen, lost or mutilated applicable debt securities and the requirements regarding the maintenance of an office or agency where the applicable debt securities can be surrendered for payment or registration of transfer or exchange and the right of the holders of the applicable debt securities to receive from the deposited funds payment of the principal of, premium, if any, interest on, and any additional amounts, if any, with respect to the applicable debt securities when due. (Section 402)

Determining the Outstanding Debt Securities

Unless otherwise provided in or pursuant to the applicable indenture, we will consider the following factors in determining whether the holders of the requisite principal amount of outstanding debt securities have given any request, demand, authorization, direction, notice, consent or waiver under the applicable indenture or are present at a meeting of holders of debt securities for quorum purposes:

- in the case of any debt security that by its terms provides for declaration of a principal amount less than the principal face amount of the debt security to be due and payable upon acceleration, the principal amount that will be deemed to be outstanding will be the principal amount that would be declared to be due and payable upon a declaration of acceleration thereof at the time of such determination;
- in the case of any indexed security, the principal amount that will be deemed to be outstanding will be the principal face amount of the indexed security at original issuance;
- in the case of any debt security denominated in one or more foreign currency units, the principal amount that will be deemed to be outstanding will be the U.S. dollar equivalent based on the applicable exchange rate or rates at the time of sale; and
- any debt securities owned by us or any other obligor upon the debt securities or any of our or such other obligor's affiliates, will be disregarded and deemed not to be outstanding. (Section 101)

Governing Law

The indentures will be governed by, and construed in accordance with, the laws of the State of New York.

Regarding the Indenture Trustees

In the normal course of business, we and our subsidiaries conduct banking transactions with the indenture trustees, and the indenture trustees conduct banking transactions with us and our subsidiaries.

DESCRIPTION OF THE TRUST PREFERRED SECURITIES

The following description of the terms and provisions of the trust preferred securities summarizes the general terms that will apply to each series of trust preferred securities. The applicable prospectus supplement will describe the specific terms of the series of trust preferred securities offered by that prospectus supplement and any general terms outlined in this section that will not apply to those trust preferred securities. The institutional trustee will act as trustee for each series of trust preferred securities under the applicable declaration of trust for purposes of compliance with the provisions of the Trust Indenture Act. The terms of each series of trust preferred securities will include those stated in the applicable declaration of trust and those made part of such declaration of trust by the Trust Indenture Act. This following description is not complete, and we refer you to the declaration of trust for each trust, a form of which we filed as an exhibit to the registration statement of which this prospectus is a part.

General

Each declaration of trust authorizes the administrative trustees of the applicable trust to issue common securities and trust preferred securities on behalf of such trust. The trust securities represent undivided beneficial interests in the assets of such trust. All of the common securities will be owned, directly or indirectly, by us. The common securities will rank equally, and payments will be made on the common securities on a ratable basis, with the trust preferred securities except as set forth below under “—Ranking of Common Securities.”

No declaration of trust permits a trust to issue any securities other than the trust securities or to incur any indebtedness. Under each declaration of trust, the institutional trustee will hold title to the junior subordinated debt securities purchased by such trust for the benefit of the holders of the trust securities.

Each series of trust preferred securities will be issued in the amount, at the price and on the terms described in the prospectus supplement relating to the offering of those trust preferred securities. These terms will be substantially the same as the terms of the corresponding junior subordinated debt securities.

We will guarantee the trust preferred securities to the extent described in the applicable prospectus supplement. The trust preferred securities guarantee agreement executed for the benefit of the holders of the trust preferred securities will be a guarantee on a junior subordinated basis with respect to the related trust preferred securities. However, such guarantee will not guarantee payment of distributions or amounts payable on redemption or liquidation of such trust preferred securities when a trust does not have funds available to make such payments. See “Description of the Trust Preferred Securities Guarantees.”

When a trust issues a series of trust preferred securities, the prospectus supplement relating to that new series will summarize the particular amount, price and other terms and provisions of that series of trust preferred securities. Those terms may include the following:

- the distinctive designation of the trust preferred securities;
- the number of trust preferred securities issued by the trust and the liquidation amount of each trust preferred security;
- the annual distribution rate (or method of determining that rate) for the trust preferred securities and the dates upon which those distributions will be payable;
- whether distributions on the trust preferred securities may be deferred and, if so, the maximum number of distributions that may be deferred and the terms and conditions of those deferrals;
- whether distributions on the trust preferred securities will be cumulative, and, in the case of trust preferred securities having such cumulative distribution rights, the date or dates or method of determining the date or dates from which distributions will be cumulative;

- the amount or amounts which will be paid out of the assets of the trust to the holders of the trust preferred securities upon voluntary or involuntary dissolution, winding up or termination of the trust;
- the obligation, if any, of the trust to purchase or redeem the trust preferred securities and the price or prices at which, the period within which, and the terms and conditions upon which the trust preferred securities will be purchased or redeemed, in whole or in part, in accordance with that obligation;
- the denominations in which the trust preferred securities will be issuable;
- the voting rights, if any, of the trust preferred securities in addition to those required by law, including the number of votes per trust preferred security and any requirement for the approval by the holders of the trust preferred securities as a condition to a specified action or amendment to the relevant declaration of trust;
- whether the trust preferred securities will be convertible into or exchangeable for our common stock or preferred stock to the same extent and on the same terms as the underlying junior subordinated debt securities held by the trust, if applicable;
- whether any remarketing or extension features will apply to the trust preferred securities; and
- any other relevant rights, preferences, privileges, limitations or restrictions of the trust preferred securities.

Distributions

When this prospectus refers to any payment of distributions, distributions include any interest payable unless otherwise stated. When, as and if available for payment, distributions will be made by the institutional trustee, except as otherwise described below.

Distributions will be cumulative, will accumulate from the original issue date (unless otherwise specified in the prospectus supplement) and will be payable on the dates specified in the prospectus supplement. The distribution rate and the distribution dates and other payment dates for the trust preferred securities will correspond to the interest rate and distribution dates and other payment dates on the related junior subordinated debt securities.

If provided in the applicable prospectus supplement, we will have the right to defer interest payments on the junior subordinated debt securities for an extension period of up to the number of consecutive interest payment periods specified in the applicable prospectus supplement as described under “Description of the Junior Subordinated Debt Securities—Option to Extend Interest Payment Period.” Distributions will continue to accumulate additional distributions at the rate per annum set forth in the applicable prospectus supplement during any extension period.

Redemption

Unless otherwise provided in the applicable prospectus supplement, a trust may not redeem its trust preferred securities, except upon the occurrence of a special event, until the optional redemption date specified in such prospectus supplement. On or after such date, or upon the occurrence of a special event, upon any permitted redemption by us of any junior subordinated debt securities, the applicable trust will apply the proceeds from such redemption to redeem the corresponding trust preferred securities and common securities having an aggregate liquidation amount equal to the principal amount of the junior subordinated debt securities redeemed. The redemption price for any trust preferred securities so redeemed will be equal to their liquidation amount plus any accumulated and unpaid distributions on the securities redeemed to the date of redemption. A special event will result from certain changes in law or interpretation that will be described in the applicable prospectus supplement, which may include changes in tax, investment company or bank regulatory law or interpretation.

[Table of Contents](#)

Except to the extent described under “—Ranking of Common Securities” below, the trust preferred securities and the common securities will be redeemed in proportion to their respective aggregate liquidation amounts outstanding. If required, we will obtain the prior approval of the Board of Governors of the Federal Reserve System, or Federal Reserve, before exercising the redemption rights described in the preceding paragraph. The specific procedures relating to the redemption of the trust preferred securities are set forth below.

Redemption Procedures

Because the trust preferred securities will be issued in the form of global securities held by The Depository Trust Company, or DTC, the following description relates to the procedures applicable to global securities. Please read “Book-Entry Procedures and Settlement” for more information about global securities.

The institutional trustee will give each holder of trust preferred securities at least 30, but not more than 60 days’ notice of any redemption of trust preferred securities of such series, which notice will be irrevocable. If the institutional trustee gives a notice of redemption of the trust preferred securities, then by 12:00 noon, New York City time, on the redemption date, unless otherwise specified in the applicable prospectus supplement, the institutional trustee will deposit irrevocably with DTC or its nominee, funds sufficient to pay the applicable redemption price to the extent we have paid the institutional trustee a sufficient amount of cash in connection with the related redemption or repayment of the corresponding junior subordinated debt securities. The institutional trustee will also give DTC irrevocable instructions and authority to pay the redemption price to the holders of such trust preferred securities.

If notice of redemption has been given and funds deposited as required, then, upon the date of such deposit, immediately before the close of business on the date of such deposit, distributions will cease to accrue on the trust preferred securities called for redemption and all rights of the holders of such trust preferred securities so called for redemption will cease, except the right of the holders of such trust preferred securities to receive the redemption price, but without interest on such redemption price.

If payment of the redemption price in respect of trust preferred securities called for redemption is improperly withheld or refused and not paid either by the applicable trust or by us pursuant to a guarantee as described under “Description of the Trust Preferred Guarantees,” distributions on such trust preferred securities will continue to accrue at the distribution rate for such trust preferred securities, unless otherwise specified in the applicable prospectus supplement, from the redemption date originally established by the applicable trust to the date such redemption price is actually paid, in which case the actual payment date will be the date fixed for redemption for purposes of calculating the redemption price.

Subject to applicable law including, without limitation, United States federal securities law, we or our affiliates may at any time and from time to time purchase outstanding trust preferred securities by tender, in the open market or by private agreement.

Payment of the redemption price on the trust preferred securities and any distribution or exchange of junior subordinated debt securities to holders of trust preferred securities shall be made to the applicable record holders thereof as they appear on the register for such trust preferred securities on the relevant record date, which shall be one business day before the redemption date or liquidation date, as applicable, so long as the securities are in book-entry form.

If a trust redeems less than all of its trust securities on a redemption date, then the aggregate liquidation amount of such trust securities to be redeemed shall be allocated proportionately among the trust securities. In the case of trust preferred securities held by DTC (or any successor) or its nominee, the distribution of the proceeds of such redemption will be made in accordance with the procedures of DTC or its nominee.

Distribution of the Junior Subordinated Debt Securities

Unless stated otherwise in the applicable prospectus supplement, we will have the right at any time to elect to dissolve a trust by causing the junior subordinated debt securities it holds to be distributed to the holders of the related trust securities. This may require the prior approval of the Federal Reserve. If we elect to dissolve a trust, the junior subordinated debt securities will be distributed to the holders of related trust securities in exchange therefor, and thereupon the trust shall dissolve.

If the applicable junior subordinated debt securities are distributed to the holders of the trust preferred securities, we will attempt to cause the junior subordinated debt securities to be listed on the New York Stock Exchange or on such other exchange as the trust preferred securities are then listed.

After the date for any distribution of junior subordinated debt securities upon dissolution of any trust:

- the trust preferred securities of such trust will no longer be deemed to be outstanding;
- the securities depository or its nominee, as the record holder of the trust preferred securities, will receive a registered global certificate or certificates representing the junior subordinated debt securities to be delivered upon such distribution; and
- any certificates representing trust preferred securities not held by the depository or its nominee will be deemed to represent junior subordinated debt securities having an aggregate principal amount equal to the aggregate stated liquidation amount of, with an interest rate identical to the distribution rate of, and with accrued and unpaid interest equal to accrued and unpaid distributions on, such trust preferred securities until such certificates are presented to us or our agent for transfer or reissue.

There can be no assurance as to the market prices for either the trust preferred securities or the junior subordinated debt securities that may be distributed in exchange for the trust preferred securities if a dissolution and liquidation of a trust were to occur. This means that the trust preferred securities that an investor may purchase, whether pursuant to the offer made by this prospectus or in the secondary market, or the junior subordinated debt securities that an investor may receive if a dissolution and liquidation of the trust were to occur, may trade at a discount to the price that the investor paid to purchase the trust preferred securities.

Liquidation Distribution Upon Dissolution

This prospectus refers to any voluntary or involuntary liquidation, dissolution, winding-up or termination of a trust as a “liquidation.” Upon the liquidation of a trust, the holders of the trust preferred securities will be entitled to receive the stated liquidation amount of their securities plus accrued and unpaid distributions thereon to the date of payment. However, such holders will not receive such distribution if we instead distribute on a ratable basis to the holders of the trust preferred securities junior subordinated debt securities in an aggregate stated principal amount equal to the aggregate stated liquidation amount of, with an interest rate identical to the distribution rate of, and with accrued and unpaid interest equal to accrued and unpaid distributions on, the trust preferred securities outstanding at such time. See “—Distribution of the Junior Subordinated Debt Securities” above.

If this distribution can be paid only in part because a trust has insufficient assets available to pay in full such aggregate liquidation distribution, then the amounts payable directly by such trust on its trust securities shall be paid on a pro rata basis, except as set forth below under “—Ranking of Common Securities.”

Pursuant to the applicable declaration of trust, a trust will dissolve:

- (1) unless earlier dissolved, on the expiration of the term of such trust;
- (2) upon the bankruptcy of us or the holder of the common securities;

Table of Contents

- (3) upon (a) the filing of a certificate of dissolution or its equivalent regarding the holder of the common securities or us or (b) the revocation of the charter of the holder of common securities or of our charter and the expiration of 90 days after the date of such action without a reinstatement thereof;
- (4) upon the distribution of junior subordinated debt securities to holders of trust preferred securities after an election by us to make such a distribution and dissolve the trust;
- (5) upon the entry of a decree of a judicial dissolution of the holder of the common securities, us or the trust;
- (6) before the trust issues any trust securities, with the consent of the administrative trustees and the Corporation; or
- (7) upon the redemption of all the trust securities of such trust.

Ranking of Common Securities

In connection with the issuance of trust preferred securities, each trust will also issue a series of common securities to us. Payment of distributions on, and the redemption price of and the liquidation distribution in respect of, trust preferred securities and common securities, as applicable, shall be made pro rata based on the liquidation amount of such trust preferred securities and common securities, except that upon certain events of default under the applicable declaration of trust relating to payment defaults on the corresponding junior subordinated debt securities, the rights of the holders of the common securities to payment in respect of distributions and payments upon liquidation, redemption and otherwise will be subordinated to the rights of the holders of the trust preferred securities.

In the case of any event of default under a declaration of trust resulting from an event of default under the junior subordinated indenture, we as holder of the trust's common securities will have no right to act with respect to the event of default until the effect of all events of default with respect to such trust preferred securities have been cured, waived or otherwise eliminated, as described under "—Declaration Defaults" below.

Declaration Defaults

An "indenture default" is a default under a junior subordinated indenture and also constitutes a "declaration default," which is an event of default under a declaration of trust relating to the trust securities. Pursuant to each declaration of trust, any holder of the common securities will be deemed to have waived any declaration defaults relating to the common securities until all declaration defaults relating to the trust preferred securities have been cured, waived or otherwise eliminated. Until such declaration defaults relating to the trust preferred securities have been so cured, waived or otherwise eliminated, the institutional trustee will be deemed to be acting solely on behalf of the holders of the trust preferred securities. Only the holders of the trust preferred securities will have the right to direct the institutional trustee as to matters under the applicable declaration of trust, and therefore the junior subordinated indenture. If any declaration default relating to the trust preferred securities is waived by the holders of the trust preferred securities as provided in the applicable declaration of trust, such waiver will also constitute a waiver of such declaration default relating to the common securities for all purposes under the applicable declaration of trust without any further act, vote or consent of the holders of common securities. See "—Voting Rights."

If the institutional trustee fails to enforce its rights under the junior subordinated debt securities, any holder of trust preferred securities may directly institute a legal proceeding against us to enforce these rights without first suing the institutional trustee or any other person or entity. If a declaration default has occurred and is continuing and such event is attributable to our failure to pay interest or principal on the junior subordinated debt securities on the date such interest or principal is otherwise payable, or in the case of redemption, the redemption date, then a holder of trust preferred securities may also bring a direct action. This means that a holder may directly sue for enforcement of payment to such holder of the principal of or interest on junior subordinated debt

securities having a principal amount equal to the aggregate liquidation amount of the trust preferred securities of such holder on or after the respective due date specified in the junior subordinated debt securities. Such holder need not first (1) direct the institutional trustee to enforce the terms of the junior subordinated debt securities or (2) sue us to enforce the institutional trustee's rights under the junior subordinated debt securities.

In connection with such direct action, we will be subrogated to the rights of such holder of trust preferred securities under the applicable declaration of trust to the extent of any payment made by us to such holder of trust preferred securities in such direct action. This means that we will be entitled to payment of amounts that a holder of trust preferred securities receives in respect of an unpaid distribution that resulted in the bringing of a direct action to the extent that such holder receives or has already received full payment relating to such unpaid distribution from the trust. The holders of trust preferred securities will not be able to exercise directly any other remedy available to the holders of the junior subordinated debt securities.

Upon the occurrence of an indenture event of default, as described under "Description of the Junior Subordinated Debt Securities—Indenture Events of Default," the institutional trustee as the sole holder of the junior subordinated debt securities will have the right under the junior subordinated indenture to declare the principal of and interest on the junior subordinated debt securities to be immediately due and payable.

The Corporation and each trust are each required to file annually with the institutional trustee an officers' certificate as to their compliance with all conditions and covenants under the applicable declaration of trust.

Merger, Consolidation and Amalgamation

A trust may not consolidate, amalgamate, merge with or into, or be replaced by, or convey, transfer or lease its properties and assets substantially as an entirety, to any corporation or other body except as described below. A trust may, with the consent of the administrative trustees and without the consent of the holders of the trust securities, the Delaware trustee, or the institutional trustee, consolidate, amalgamate, merge with or into, or be replaced by a trust organized as such under the laws of any State, provided that:

- (1) such successor entity either:
 - (a) expressly assumes all of the obligations of the trust under the trust securities; or
 - (b) substitutes for the trust preferred securities other successor securities having substantially the same terms as the trust preferred securities, so long as the successor securities rank the same as the trust preferred securities rank regarding distributions and payments upon liquidation, redemption and otherwise;
- (2) we, as issuer of the junior subordinated debt securities, expressly acknowledge a trustee of such successor entity possessing the same powers and duties as the institutional trustee, in its capacity as the holder of the junior subordinated debt securities;
- (3) immediately following such merger, consolidation, amalgamation or replacement, the trust preferred securities or any successor securities are listed, or any successor securities will be listed upon notification of issuance, on any national securities exchange or with another organization on which the trust preferred securities are then listed or quoted, if any;
- (4) such merger, consolidation, amalgamation or replacement does not cause the trust preferred securities, including any successor securities, to be downgraded by any nationally recognized statistical rating organization;
- (5) such merger, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the holders of the trust securities, including any successor securities, in any material respect, other than in connection with any dilution of the holders' interest in the new entity;

[Table of Contents](#)

- (6) such successor entity has a purpose identical to that of the trust;
- (7) prior to such merger, consolidation, amalgamation or replacement, the trust has received an opinion of a nationally recognized independent counsel to the trust experienced in such matters to the effect that:
 - (a) such merger, consolidation, amalgamation or replacement does not adversely affect the rights, preferences and privileges of the holders of the trust securities, including any successor securities, in any material respect, other than in connection with any dilution of the holders' interest in the new entity;
 - (b) following such merger, consolidation, amalgamation or replacement, neither the trust nor such successor entity will be required to register as an "investment company" under the Investment Company Act of 1940, or the Investment Company Act; and
 - (c) following such merger, consolidation, amalgamation or replacement, the trust or such successor entity will continue to be classified as a grantor trust for United States federal income tax purposes; and
- (8) we guarantee the obligations of such successor entity under the successor securities at least to the extent provided by the guarantee.

Voting Rights

Except as described in this prospectus under "Description of the Trust Preferred Securities Guarantees—Amendments and Assignment," and except as provided under Chapter 38 of Title 12 of the Delaware Code, 12 Del. Code §3801 et seq., as it may be amended from time to time, or any successor legislation, or the Statutory Trust Act, the Trust Indenture Act and as otherwise required by law and the applicable declaration of trust, the holders of the trust preferred securities will have no voting rights.

The holders of a majority in aggregate liquidation amount of the trust securities have the right to direct any proceeding for any remedy available to the institutional trustee so long as the institutional trustee receives the tax opinion discussed below. The holders also have the right to direct the institutional trustee, as holder of the junior subordinated debt securities, to:

- (1) direct any proceeding for any remedy available to the indenture trustee, or exercising any trust or power conferred on the indenture trustee with respect to the junior subordinated debt securities;
- (2) waive any past indenture default that may be waived under the junior subordinated indenture;
- (3) exercise any right to rescind or annul an acceleration of the maturity of the corresponding junior subordinated debt securities; or
- (4) consent to any amendment, modification or termination of the junior subordinated indenture where such consent is required.

If a default under a junior subordinated indenture has occurred, we, as holder of the common securities of the applicable trust, will be restricted in our ability to direct the institutional trustee, as described under "—Declaration Defaults" above.

The institutional trustee is required to notify all holders of the trust preferred securities of any notice of default received from the indenture trustee. The notice is required to state that the default also constitutes a declaration default. Except for directing the time, method and place of conducting a proceeding for a remedy available to the institutional trustee, the institutional trustee will not take any of the actions described in clauses (1), (2), (3) or (4) above unless the institutional trustee receives an opinion of a nationally recognized independent tax counsel. The opinion must be to the effect that, as a result of such action, the applicable trust will not fail to be classified as a grantor trust for United States federal income tax purposes.

[Table of Contents](#)

If the consent of the institutional trustee is required under the junior subordinated indenture for any amendment, modification or termination of the junior subordinated indenture, the institutional trustee is required to request the written direction of the holders of the trust securities. Then, the institutional trustee will vote as directed by a majority in liquidation amount of the trust securities voting together as a single class. Where any amendment, modification or termination under the junior subordinated indenture would require the consent of a super majority, however, the institutional trustee may only give such consent at the direction of the holders of the same super majority of the holders of the trust securities. The institutional trustee is not required to take any such action in accordance with the directions of the holders of the trust securities unless the institutional trustee has obtained a tax opinion to the effect described above.

A waiver of an indenture default by the institutional trustee at the direction of the holders of the trust preferred securities will constitute a waiver of the corresponding declaration default.

Any required approval or direction of holders of trust preferred securities may be given at a separate meeting of holders of trust preferred securities convened for such purpose, at a meeting of all of the holders of trust securities or by written consent. The administrative trustees will mail to each holder of record of trust preferred securities a notice of any meeting at which such holders are entitled to vote. Each such notice will include a statement setting forth the following information:

- the date and time of such meeting;
- a description of any resolution proposed for adoption at such meeting on which such holders are entitled to vote; and
- instructions for the delivery of proxies.

No vote or consent of the holders of trust preferred securities will be required for the trust to redeem and cancel trust preferred securities or distribute junior subordinated debt securities in accordance with the declaration of trust.

Despite the fact that holders of trust preferred securities are entitled to vote or consent under the circumstances described above, any trust preferred securities that are owned at the time by us or any entity directly or indirectly controlling or controlled by, or under direct or indirect common control with, us, will not be entitled to vote or consent. Instead, these trust preferred securities will be treated for purposes of such vote or consent as if they were not outstanding.

Holders of the trust preferred securities generally will have no rights to appoint or remove the administrative trustees. Instead, these trustees may be appointed, removed or replaced solely by us as the indirect or direct holder of all of the common securities.

Amendment of Declarations of Trust

The administrative trustees may generally amend a declaration of trust without the consent of the holders of the trust preferred securities, unless such amendment will materially and adversely affect the rights, privileges or preferences of any holder of trust preferred securities. In particular, the administrative trustees may amend a declaration of trust to:

- cure any ambiguity, correct or supplement any provisions in such declaration of trust that may be defective or inconsistent with any other provision, or to make any other provisions with respect to matters or questions arising under such declaration of trust, which may not be inconsistent with the other provisions of such declaration of trust;
- modify, eliminate or add to any provisions of such declaration of trust to such extent as shall be necessary to ensure that such trust will be classified for United States federal income tax purposes as a

grantor trust at all times that any trust securities are outstanding, to ensure that such trust will not be required to register as an “investment company” under the Investment Company Act or to ensure the treatment of the trust preferred securities as Tier 1 regulatory capital under prevailing Federal Reserve rules and regulations;

- add to our covenants, restrictions or obligations;
- maintain the qualification of such declaration of trust under the Trust Indenture Act; or
- modify, eliminate or add to any provision of such declaration of trust to such extent as may be reasonably necessary to effectuate any of the foregoing or to otherwise comply with applicable law.

Such amendment may only be made with the consent of the institutional trustee, if the rights, powers, duties, obligations or immunities of the institutional trustee will be affected, and with the consent of the Delaware trustee, if the rights, powers, duties, obligations or immunities of the Delaware trustee will be affected.

If any proposed amendment provides for, or the administrative trustees otherwise propose to effect,

- (1) any action that would adversely affect the powers, preferences or special rights of the trust securities of the trust, whether by way of amendment to the declaration of trust or otherwise or
- (2) the dissolution, winding-up or termination of the trust other than pursuant to the terms of the declaration of trust,

then the holders of the trust securities of such trust, voting together as a single class, will be entitled to vote on such amendment or proposal. Such amendment or proposal shall not be effective except with the approval of holders of at least a majority in liquidation amount of the trust securities of the trust, voting together as a single class. If, however, any amendment or proposal referred to in clause (1) above would adversely affect only the trust preferred securities or the common securities, then only holders of the affected class will be entitled to vote on such amendment or proposal. Such amendment or proposal shall not be effective except with the approval of holders of a majority in liquidation amount of such class of trust securities.

Despite the foregoing, no amendment or modification may be made to a declaration of trust if such amendment or modification would:

- cause the applicable trust to be classified for United States federal income tax purposes as other than a grantor trust,
- reduce or otherwise adversely affect the powers of the institutional trustee in contravention of the Trust Indenture Act, or
- cause the applicable trust to be deemed an “investment company” which is required to be registered under the Investment Company Act.

Payment and Paying Agent

Payments on the trust preferred securities shall be made to the depositary, which shall credit the relevant accounts at the depositary on the applicable distribution dates as specified under “Book-Entry Procedures and Settlement”.

Unless otherwise specified in the applicable prospectus supplement, the paying agent shall initially be the institutional trustee and any co-paying agent chosen by the institutional trustee and acceptable to us and to the administrative trustees. The paying agent shall be permitted to resign as paying agent upon 30 days’ written notice to the administrative trustees, to the institutional trustee and to us. In the event that the institutional trustee shall no longer be the paying agent, the administrative trustees will appoint a successor, which will be a bank or trust company acceptable to us and the institutional trustee, to act as paying agent.

Registrar and Transfer Agent

Unless otherwise specified in the applicable prospectus supplement, the administrative trustees, or an agent designated by the administrative trustees for a trust will act as registrar and transfer agent for the trust preferred securities issued by that trust.

Registration of transfers of trust preferred securities will be effected without charge by or on behalf of the applicable trust, but upon payment of any tax or other governmental charges that may be imposed in connection with any transfer or exchange. A trust will not be required to register or cause to be registered the transfer of its trust preferred securities after such trust preferred securities have been called for redemption.

Information Concerning the Institutional Trustee

The institutional trustee for each trust holds title to the junior subordinated debt securities purchased by the trust for the benefit of the holders of the trust's trust securities. In that capacity, the institutional trustee has the power to exercise all rights, power and privileges as a holder under the junior subordinated indenture pursuant to which the junior subordinated debt securities are issued. In addition, the institutional trustee has exclusive control of a segregated non-interest-bearing account of the trust, in which all payments made on the junior subordinated debt securities will be held for the benefit of the holders of the applicable trust preferred securities. The institutional trustee will make payments of distributions and payments on liquidation, redemption and otherwise to the holders of the applicable trust preferred securities out of funds in that account.

Prior to the occurrence and during the continuance of an event of default under the applicable declaration of trust, the institutional trustee will undertake to perform only such duties as are specifically set forth in the applicable declaration of trust. After a default, the institutional trustee will exercise the same degree of care and skill as a prudent individual would exercise or use in the conduct of his or her own affairs.

However, the institutional trustee is under no obligation to exercise any of the powers vested in it by the applicable declaration of trust at the request of any holder of trust preferred securities unless offered indemnity reasonably satisfactory to it by such holder against the costs, expenses and liabilities which might be incurred thereby. Despite the foregoing, the holders of trust preferred securities will not be required to offer such indemnity in the event such holders, by exercising their voting rights, direct the institutional trustee to take any action following a declaration default.

If no declaration default has occurred and is continuing and the institutional trustee is required to decide between alternative causes of action, construe ambiguous provisions in the applicable declaration of trust or is unsure of the application of any provision of such declaration of trust, and the matter is not one on which holders of trust preferred securities are entitled under such declaration of trust to vote, then the institutional trustee will take such action as is directed by us and, if not so directed, shall take such action as it deems necessary and will have no liability except for its own bad faith, negligence or willful misconduct.

We and certain of our subsidiaries may maintain deposit accounts and banking relationships and conduct other banking and corporate securities transactions with the institutional trustee or its affiliates in the ordinary course of their businesses.

Miscellaneous

The administrative trustees for any trust are authorized and directed to conduct the affairs of and to operate that trust in such a way that it:

- will not be required to register as an "investment company" under the Investment Company Act;
- will not cause the trust to be characterized as other than a grantor trust for United States federal income tax purposes; and

[Table of Contents](#)

- cooperates with us to cause the junior subordinated debt securities held by that trust to be treated as indebtedness of ours for United States federal income tax purposes.

Holders of the trust preferred securities have no preemptive or similar rights.

No trust may borrow money or issue debt or mortgage or pledge any of its assets.

Governing Law

The declarations of trust will be governed by and construed in accordance with the laws of the State of Delaware.

DESCRIPTION OF THE JUNIOR SUBORDINATED DEBT SECURITIES

The following description of the terms and provisions of our junior subordinated debt securities summarizes the general terms that will apply to each series of junior subordinated debt securities that will be issued and sold by us and purchased by the trust that issues the corresponding series of trust preferred securities. Each prospectus supplement will describe the specific terms of the series of junior subordinated debt securities through that prospectus supplement and any general terms outlined in this section that will not apply to those junior subordinated debt securities.

Unless otherwise specified in the applicable prospectus supplement, each time a trust issues a series of trust preferred securities, we will issue a new series of junior subordinated debt securities. Each series of junior subordinated debt securities will be issued under a corresponding indenture between us and the indenture trustee, as may be supplemented from time to time by one or more supplemental indentures (each, a “junior subordinated indenture”). There is no limit on the aggregate principal amount of junior subordinated debt securities we may issue, and we may issue the junior subordinated debt securities from time to time in one or more series under a supplemental indenture or pursuant to a resolution of our Board of Directors. Each purchaser should read the applicable junior subordinated indenture for additional information before purchasing any trust preferred securities.

General

Unless the applicable prospectus supplement states otherwise, we will issue each new series of junior subordinated debt securities in a total principal amount equal to the total liquidation amount of the trust preferred securities and common securities that the applicable trust issues. The applicable trust will use the proceeds of the issuance and sale of the trust securities to purchase the corresponding junior subordinated debt securities from us. Unless the applicable prospectus supplement states otherwise, the interest payment provisions of the junior subordinated debt securities will correspond to the distribution payment provisions of the corresponding series of trust preferred securities.

Each series of junior subordinated debt securities will be unsecured and, unless stated otherwise in the applicable prospectus supplement, will rank equally with all of our other series of junior subordinated debt securities. Each series of junior subordinated debt securities, will be subordinated to all of our existing and future “Senior Indebtedness,” as such term is defined in the applicable prospectus supplement.

Under circumstances involving the dissolution of a trust, the junior subordinated debt securities owned by that trust may be distributed to the holders of trust preferred securities in liquidation of that trust, provided that any required regulatory approval is obtained.

A prospectus supplement relating to a series of junior subordinated debt securities being offered will include specific terms relating to the offering. The terms will include some or all of the following:

- the title and type of the junior subordinated debt securities of the series, which will distinguish the junior subordinated debt securities of the series from all other junior subordinated debt securities;
- any limit on the total principal amount of the junior subordinated debt securities of the series;
- the price at which the junior subordinated debt securities of the series will be issued;
- the date or dates on which the principal of and any premium on the junior subordinated debt securities of the series will be payable;
- the maturity date or dates of the junior subordinated debt securities of the series or the method by which those dates can be determined;
- if the junior subordinated debt securities of the series will bear interest:
 - the interest rate on the junior subordinated debt securities of the series or the method by which the interest rate may be determined;

- whether payment of interest will be contingent in any respect and/or the interest rate reset;
- the date from which interest will accrue;
- the record and interest payment dates for the junior subordinated debt securities of the series;
- the circumstances under which we may defer interest payments; and
- any remarketing or extension features of the junior subordinated debt securities of the series;
- the place or places where:
 - payments of principal of and premium, if any, and interest on the junior subordinated debt securities of the series will be payable;
 - the junior subordinated debt securities of the series can be surrendered for registration of transfer or exchange; and
 - notices and demands can be given to us relating to the junior subordinated debt securities of the series and under the applicable junior subordinated indenture;
- the period or periods within which, or the date or dates on which, if any, the price or prices at which and the terms and conditions upon which the junior subordinated debt securities of the series may be redeemed, in whole or in part, at our option;
- our obligation, if any, to redeem, repay or purchase the junior subordinated debt securities of the series, and the period or periods within which, the price or prices at which, and the other terms and conditions upon which junior subordinated debt securities of the series will be redeemed, repaid or purchased, in whole or in part, in accordance with that obligation;
- any sinking fund provisions that would obligate us to redeem the junior subordinated debt securities of the series before their final maturity;
- whether the junior subordinated debt securities of the series will be convertible into or exchangeable for shares of common stock or shares of preferred stock and, if so, the terms and conditions of any such conversion or exchange, and, if convertible into or exchangeable for shares of preferred stock, the terms of such preferred stock;
- the additions or changes, if any, to the applicable junior subordinated indenture regarding the junior subordinated debt securities of the series as will be necessary to permit or facilitate the issuance of the junior subordinated debt securities of the series in bearer form, registrable or not registrable as to principal, and with or without interest coupons;
- the denominations in which any junior subordinated debt securities of the series will be issuable;
- if other than U.S. dollars, the currency or currencies (including currency unit or units) in which the principal of (and premium, if any) and interest, if any, on the junior subordinated debt securities of the series will be payable, or in which the junior subordinated debt securities of the series will be denominated;
- any circumstances under which the junior subordinated debt securities of the series may be paid in a currency other than the currency in which the junior subordinated debt securities are denominated and any provisions relating thereto;
- whether the provisions described below under the heading “—Satisfaction and Discharge” apply to the junior subordinated debt securities of the series;
- any events of default which will apply to the junior subordinated debt securities of the series in addition to those contained in the applicable junior subordinated indenture and any events of default contained in the applicable junior subordinated indenture which will not apply to the junior subordinated debt securities of the series;

Table of Contents

- if other than the principal amount, the portion of the principal amount of junior subordinated debt securities of the series that will be payable upon declaration of acceleration of the maturity of the junior subordinated debt securities of the series;
- any additions or changes to or deletions of the covenants contained in the applicable junior subordinated indenture and the ability, if any, of the holders to waive our compliance with those additional or changed covenants;
- whether any junior subordinated debt securities of the series will be issuable in whole or in part in the form of one of more global securities and, if so, the respective depositaries for the global securities and the form of any legend or legends which will be borne by any global security, if applicable;
- whether the junior subordinated debt securities of the series, or any portion thereof, will initially be issuable in the form of a temporary global security representing all or a portion of the junior subordinated debt securities of the series and provisions for the exchange of the temporary global security for definitive junior subordinated debt securities of the series;
- the identity of the security registrar and paying agent for the junior subordinated debt securities of the series if other than the institutional trustee;
- any special tax implications of the junior subordinated debt securities of the series;
- any special provisions relating to the payment of any additional amounts on the junior subordinated debt securities of the series;
- the terms of any securities being offered together with or separately from the junior subordinated debt securities of the series;
- the terms and conditions of any obligation or our right or the right of a holder to convert or exchange the junior subordinated debt securities of the series into trust preferred securities or other securities; and
- any other terms of the junior subordinated debt securities of the series.

Whenever the term “holder” is used in this prospectus with respect to a registered junior subordinated debt security, it refers to the person in whose name such junior subordinated debt security is registered in the security register.

Subordination

Unless otherwise stated in the applicable prospectus supplement, each series of junior subordinated debt securities will be subordinated and junior in right of payment to all our existing and future Senior Indebtedness (as such term is defined in the applicable prospectus supplement).

This means that no payment of principal, including redemption payments, premium, if any, or interest on the junior subordinated debt securities may be made if:

- any of our Senior Indebtedness has not been paid when due and any applicable grace period relating to such default has ended and such default has not been cured or been waived or ceased to exist; or
- the maturity of any of our Senior Indebtedness has been accelerated because of a default.

Upon any payment by us or distribution of our assets to creditors upon any dissolution, winding-up, liquidation or reorganization, whether voluntary or involuntary, or in bankruptcy, insolvency, receivership or other proceedings, all principal, premium, if any, and interest due or to become due on all of our Senior Indebtedness must be paid in full before the holders of junior subordinated debt securities are entitled to receive or retain any payment.

Conversion or Exchange

The terms on which a series of junior subordinated debt securities may be convertible or exchangeable into trust preferred securities, our common stock, preferred stock or other securities will be set forth in the applicable prospectus supplement relating to such series. Such terms may include provisions for conversion or exchange, either mandatory, at the option of the holder, or at our option, in which case the number of shares of trust preferred securities or other securities to be received by the holders of junior subordinated debt securities shall be calculated as of a time and in the manner stated in the applicable prospectus supplement.

Redemption

Unless stated otherwise in the accompanying prospectus supplement, we shall have the right to redeem junior subordinated debt securities as described above under “Description of the Trust Preferred Securities—Redemption.” The redemption price for any junior subordinated debt securities so redeemed will equal any accrued and unpaid interest to the redemption date, plus 100% of the outstanding principal amount, unless the applicable prospectus supplement states differently.

Option to Extend Interest Payment Period

If provided in the applicable prospectus supplement, we will have the right from time to time to defer interest payments by extending the interest payment period for up to such number of consecutive interest payment periods as may be specified in the applicable prospectus supplement, subject to the terms, conditions and covenants, if any, specified in such prospectus supplement.

Some U.S. federal income tax consequences and considerations applicable to any junior subordinated debt securities that permit a deferral of interest payments will be described in the applicable prospectus supplement.

If the institutional trustee is the sole holder of the series of junior subordinated debt securities for which we are deferring interest, we will give the administrative trustees and the institutional trustee notice of our selection of an extension period at least one business day prior to the earlier of:

- (1) the date distributions on the corresponding trust preferred securities would be payable, if not for such extension period, or
- (2) the date the administrative trustees of the applicable trust are required to give notice to the New York Stock Exchange or other applicable self-regulatory organization or to holders of the corresponding trust preferred securities of the record date or the date such distributions would be payable, if not for such extension period, but in any event at least one business day prior to such record date.

The administrative trustees will give notice of our selection of such extension period to the holders of the corresponding trust preferred securities. If the institutional trustee is not the sole holder of the junior subordinated debt securities for which we are deferring interest, we will give the holders of the junior subordinated debt securities notice of our selection of the extension period ten business days prior to the earlier of:

- (1) the next succeeding interest payment date; or
- (2) the date upon which we are required to give notice to the New York Stock Exchange or other applicable self-regulatory organization or to holders of the junior subordinated debt securities of the record or payment date of such related interest payment.

Indenture Events of Default

Each junior subordinated indenture will provide that the following are indenture events of default relating to the junior subordinated debt securities:

- (1) failure to pay in full interest accrued (including any interest accrued on deferred payments) on any junior subordinated debt security upon the conclusion of a period of consecutive interest payment periods (such period to be stated in the applicable prospectus supplement) commencing with the earliest quarterly or semi-annual period for which interest has not been paid in full and continuance of such failure to pay for a period of 30 days;
- (2) the applicable trust shall have voluntarily or involuntarily dissolved, wound-up its business or otherwise terminated its existence except in connection with (i) the distribution of the junior subordinated debt securities to holders of the trust preferred securities, (ii) the redemption of all outstanding trust preferred securities, or (iii) certain mergers, consolidations or amalgamations;
- (3) specified events of bankruptcy, insolvency or reorganization, or court appointment of a receiver, liquidator or trustee; or
- (4) any other indenture event of default that may be specified for the junior subordinated debt securities of a series when that series is created.

If any indenture event of default shall occur and be continuing, either the indenture trustee or the holders of 25% or more in principal amount of the junior subordinated debt securities, will have the right to declare the principal of and the interest on the junior subordinated debt securities, including any accrued and unpaid interest (including any additional amounts, as defined in the applicable prospectus supplement), and any other amounts payable under the junior subordinated indenture to be immediately due and payable. The indenture trustee may also enforce its other rights as a creditor relating to the junior subordinated debt securities.

Indenture Defaults

Each junior subordinated indenture will provide that the following are “indenture defaults” relating to the junior subordinated debt securities:

- (1) an indenture event of default, as described above;
- (2) a default in the payment of the principal of, or premium, if any, on any junior subordinated debt security when payable, whether at its final maturity or upon redemption or otherwise;
- (3) a default for 30 days in the payment of any installment of interest on any junior subordinated debt security;
- (4) a default by us for 90 days after written notice in the performance of any other covenant in respect of the junior subordinated debt securities; and
- (5) the applicable trust shall have voluntarily or involuntarily dissolved, wound-up its business or otherwise terminated its existence, except in connection with (i) the distribution of the junior subordinated debt securities to holders of the trust securities in liquidation or redemption of their interests in the trust upon a special event, (ii) the redemption of all of the outstanding trust preferred securities of such trust or (iii) certain mergers, consolidations or amalgamations of the trust.

There is no right of acceleration with respect to indenture defaults, except for indenture defaults that are also indenture events of default, as defined above. An indenture default will also constitute a declaration default. The holders of trust preferred securities in limited circumstances will have the right to direct the indenture trustee to exercise their rights as the holders of the junior subordinated debt securities. See “Description of the Trust Preferred Securities—Declaration Defaults” and “—Voting Rights.”

[Table of Contents](#)

Any deferral of interest or extension of interest payment period on the junior subordinated debt securities made in accordance with any interest deferral provisions of the corresponding prospectus supplement will not constitute a default under any junior subordinated indenture.

The indenture trustee may withhold notice to the holders of the junior subordinated debt securities of any default with respect thereto, except in the payment of principal, premium or interest, if it considers such withholding to be in the interests of such holders.

Enforcement of Rights by Holders of Trust Preferred Securities

If a default occurs under any junior subordinated indenture and that default is attributable to our failure to pay interest, premium, if any, or principal on the junior subordinated debt securities when due, then if the junior subordinated debt securities are held by a trust, a holder of the related trust preferred securities may institute a legal proceeding directly against us for enforcement of payment on the junior subordinated debt securities having a principal amount equal to the aggregate liquidation amount of the trust preferred securities of that holder. The holders of trust preferred securities will not be able to exercise directly any other remedy available to the holders of the junior subordinated debt securities.

Consolidation, Merger and Sale of Assets

Each junior subordinated indenture will provide that we will not consolidate or merge with another corporation or convey, transfer or lease our assets substantially as an entirety unless:

- the successor is a corporation organized in the United States and expressly assumes the due and punctual payment of the principal of, and premium, if any, and interest (including additional amounts) on all junior subordinated debt securities issued thereunder and the performance of every other covenant of the junior subordinated indenture on our part;
- immediately thereafter no default and no event which, after notice or lapse of time, or both, would become a default, shall have happened and be continuing; and
- we have delivered to the indenture trustee an officer's certificate stating that such merger, conveyance, transfer or lease and any supplemental junior subordinated indenture will comply with the terms of the junior subordinated indenture.

Upon any such consolidation, merger, conveyance, transfer or lease, the successor corporation shall succeed to and be substituted for us under the junior subordinated indenture. Thereafter we shall be relieved of all obligations and covenants under the junior subordinated indenture and the junior subordinated debt securities. See "Description of the Trust Preferred Securities—Merger, Consolidation or Amalgamation" above.

Certain Covenants

Unless stated otherwise in the applicable prospectus supplement, so long as any trust has trust preferred securities outstanding, we will covenant in each junior subordinated indenture to:

- (1) directly or indirectly maintain 100% ownership of the common securities of the trust, unless a permitted successor succeeds to our ownership of the common securities;
- (2) not voluntarily dissolve, wind-up or terminate the trust, except in connection with:
 - (a) a distribution of junior subordinated debt securities; or
 - (b) mergers, consolidations or amalgamations of the trust permitted by the declaration of trust;
- (3) timely perform our duties as sponsor of the trust; and

[Table of Contents](#)

- (4) use our reasonable efforts to cause the trust to:
 - (a) remain a statutory trust, except in connection with the distribution of junior subordinated debt securities to the holders of trust securities in liquidation of the trust, the redemption of all of the trust securities of such trust, or mergers, consolidations or amalgamations of the trust, each as permitted by the declaration of trust of such trust, and
 - (b) otherwise continue to be classified as a grantor trust for United States federal income tax purposes.

Modifications and Amendments

Without the consent of any holders of junior subordinated debt securities, we and the indenture trustee may through supplemental indentures make certain modifications and amendments to a junior subordinated indenture to add covenants for the benefit of holders of all or any series of junior subordinated debt securities, to add additional defaults, to change or eliminate provisions of such indenture when no junior subordinated debt security of any series created prior thereto is entitled to the benefit of such provision, to cure ambiguities, correct or supplement any defects or inconsistent provisions or make any other provision provided that such cure, correction, supplement or provision does not materially adversely affect the interests of the holders of any junior subordinated debt securities, and for certain other specified purposes.

We and the trustees, with the consent of the holders of at least a majority in aggregate principal amount of the junior subordinated debt securities of a series that are affected by the modification, may modify the applicable junior subordinated indenture or any supplemental indenture affecting that series or the rights of the holders of such junior subordinated debt securities. However, no such modification or amendment may, without the consent of the holder of each junior subordinated debt security affected thereby:

- (1) change the date on which principal of or interest on such securities is due and payable;
- (2) reduce the rate of interest on such securities;
- (3) reduce the principal amount of such securities or the premium, if any, on such securities;
- (4) change the place any principal, premium or interest is payable;
- (5) change the currency in which any such securities or any interest thereon are payable; or
- (6) impair the right of holders of trust preferred securities to take direct action against us as described under “Description of the Trust Preferred Securities—Declaration Defaults.”

In addition, a junior subordinated indenture may not be amended without the consent of each holder of junior subordinated debt securities affected thereby to modify the subordination of the junior subordinated debt securities issued under that junior subordinated indenture in a manner adverse to the holders of the junior subordinated debt securities.

Satisfaction and Discharge

A junior subordinated indenture will cease to be of further effect and we will be deemed to have satisfied and discharged our obligations under such junior subordinated indenture when all junior subordinated debt securities issued under such indenture not previously delivered to the indenture trustee for cancellation:

- have become due and payable;
- will become due and payable at their final maturity within one year; or
- are to be called for redemption within one year;

and, in each case, subject to prior approval of the Federal Reserve, if required, we have deposited with the indenture trustee funds sufficient to make all remaining interest and principal payments on the junior

subordinated debt securities of that series and any other amounts payable under the junior subordinated indenture, and we have provided the indenture trustee with an officer's certificate and opinion of counsel stating that the applicable terms of the junior subordinated indenture have been complied with.

Book-Entry and Settlement

Unless stated otherwise in the applicable prospectus supplement, if junior subordinated debt securities are distributed to holders of trust preferred securities in connection with the involuntary or voluntary dissolution, winding-up or liquidation of a trust as a result of the occurrence of a special event, the junior subordinated debt securities will be issued in the form of one or more global certificates registered in the name of the depositary or its nominee. Each global certificate is referred to as a "global security." Except under certain limited circumstances described in the applicable prospectus supplement, junior subordinated debt securities represented by a global security will not be exchangeable for, and will not otherwise be issuable as, junior subordinated debt securities in definitive form. The global securities may not be transferred except by the depositary to a nominee of the depositary or by a nominee of the depositary to the depositary or another nominee of the depositary or to a successor depositary or its nominee.

The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in definitive form. These laws may impair the ability to transfer or pledge beneficial interests in a global security.

Except as provided below, owners of beneficial interests in a global security will not be entitled to receive physical delivery of junior subordinated debt securities in definitive form and will not be considered the holders, as defined in the applicable junior subordinated indenture, of the global security for any purpose under the applicable junior subordinated indenture. A global security representing junior subordinated debt securities is only exchangeable for another global security of like denomination and tenor to be registered in the name of the depositary or its nominee or to a successor depositary or its nominee. This means that each beneficial owner must rely on the procedures of the depositary, or if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the junior subordinated indenture.

The Depositary

If junior subordinated debt securities are distributed to holders of trust preferred securities in liquidation of such holders' interests in the applicable trust, DTC will act as securities depositary for the junior subordinated debt securities. As of the date of this prospectus, the description of DTC's book-entry system and DTC's practices as they relate to purchases, transfers, notices and payments relating to the trust preferred securities apply in all material respects to any debt obligations represented by one or more global securities held by DTC. We may appoint a successor to DTC or any successor depositary in the event DTC or such successor depositary is unable or unwilling to continue as a depositary for the global securities. For a description of DTC and the specific terms of the depositary arrangements, see "Book-Entry Procedures and Settlement."

None of the Corporation, any trust, any paying agent or any other agent we may appoint nor the indenture trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global security for such junior subordinated debt securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

A global security will be exchangeable for junior subordinated debt securities registered in the names of persons other than the depositary or its nominee only if:

- the depositary notifies us that it is unwilling or unable to continue as a depositary for such global security or has ceased to be a clearing agency registered under the Exchange Act at a time when the depositary is required to be so registered to act as such depositary and in either case we fail to appoint a successor depositary within 90 days;

[Table of Contents](#)

- we, in our sole discretion, determine that such global security shall be so exchangeable; or
- there shall have occurred and be continuing an indenture event of default and the holders of a majority in principal amount of the outstanding junior subordinated debt securities determine that the global security will be so exchangeable.

Any global security that is exchangeable pursuant to the preceding sentence shall be exchangeable for junior subordinated debt securities registered in such names as the depositary shall direct. It is expected that such instructions will be based upon directions received by the depositary from its participants relating to ownership of beneficial interests in such global security.

Information Regarding the Indenture Trustee

The indenture trustee is under no obligation to exercise any of the powers vested in it by any junior subordinated indenture at the request of any holder of the junior subordinated debt securities, unless offered reasonable indemnity by such holder against the costs, expenses and liabilities which might be incurred thereby. The indenture trustee is not required to expend or risk its own funds or otherwise incur personal financial liability in the performance of its duties if the indenture trustee reasonably believes that repayment or adequate indemnity is not reasonably assured to it.

Governing Law

Each junior subordinated indenture will be governed by and construed in accordance with the laws of the State of New York.

Miscellaneous

Unless stated otherwise in the applicable prospectus supplement, each junior subordinated indenture will provide that we will pay all fees and expenses related to:

- (1) the offering of the junior subordinated debt securities and the corresponding trust securities;
- (2) the organization, maintenance and dissolution of each trust;
- (3) the retention of the trustees; and
- (4) the enforcement by the institutional trustee of the rights of the holders of the trust preferred securities.

DESCRIPTION OF THE TRUST PREFERRED SECURITIES GUARANTEES

Set forth below is a summary of the general terms that apply to the trust preferred securities guarantees that we will execute and deliver for the benefit of the holders of trust preferred securities when a trust issues trust preferred securities, unless specified otherwise in the applicable prospectus supplement. Each trust preferred securities guarantee will be qualified as an indenture under the Trust Indenture Act. The guarantee trustee for purposes of the Trust Indenture Act will be named in the applicable prospectus supplement. The guarantee trustee will hold the trust preferred securities guarantee for the benefit of the holders of the trust preferred securities. We have filed the form of the trust preferred securities guarantee as an exhibit to the registration statement of which this prospectus is a part. Each purchaser should read the applicable trust preferred securities guarantee for additional information before purchasing any trust preferred securities.

References to the “junior subordinated debt securities” owned by a trust means the junior subordinated debt securities issued by us and guaranteed by us on a junior subordinated basis, as specified in the applicable prospectus supplement.

General

Under a trust preferred securities guarantee, we will irrevocably and unconditionally agree to pay in full to the holders of the applicable trust preferred securities, except to the extent paid by the applicable trust, as and when due, regardless of any defense, right of set-off or counterclaim which such trust may have or assert, the following payments, which are referred to as “guarantee payments,” without duplication:

- (1) any accrued and unpaid distributions that are required to be paid on such trust preferred securities, to the extent such trust has funds available for distributions;
- (2) the redemption price, plus all accrued and unpaid distributions relating to any trust preferred securities called for redemption by such trust, to the extent such trust has funds available for redemptions; and
- (3) upon a voluntary or involuntary dissolution, winding-up or termination of such trust, other than in connection with the distribution of junior subordinated debt securities to the holders of trust preferred securities, the redemption of all of the outstanding trust preferred securities of such trust, or certain mergers, amalgamations or consolidations, the lesser of:
 - (a) the aggregate of the liquidation amount and all accrued and unpaid distributions on such trust preferred securities to the date of payment to the extent such trust has funds available; and
 - (b) the amount of assets of such trust remaining for distribution to holders of the trust preferred securities in liquidation of such trust.

The redemption price and liquidation amount will be fixed at the time the trust preferred securities are issued.

We may satisfy our obligation to make a guarantee payment by direct payment of the required amounts to the holders of trust preferred securities or by causing the applicable trust to pay such amounts to such holders.

A trust preferred securities guarantee will not apply to any payment of distributions, except to the extent a trust shall have funds available for such payments and shall have not applied such funds to make required payments. If we do not make interest payments on the junior subordinated debt securities purchased by a trust, such trust will not pay distributions on its trust preferred securities and will not have funds available for such payments and under such circumstances payments of such amounts will not be made under the trust preferred securities guarantee. See “—Status of the Trust Preferred Securities Guarantees” below. Except as otherwise described in the applicable prospectus supplement, the trust preferred securities guarantees do not limit the incurrence or issuance by us of other secured or unsecured debt.

[Table of Contents](#)

A trust preferred securities guarantee, when taken together with our obligations under the junior subordinated indenture under which the related junior subordinated debt securities are issued and the related declaration of trust, including in each case our obligations to pay costs, expenses, debts and liabilities of the applicable trust, other than those relating to trust securities, will provide a full and unconditional guarantee on a junior subordinated basis of payments due on the related trust preferred securities.

Unless otherwise specified in the applicable prospectus supplement, we will also agree separately to irrevocably and unconditionally guarantee the obligations of each trust with respect to its common securities to the same extent of the trust preferred securities.

Status of the Trust Preferred Securities Guarantees

Each trust preferred securities guarantee will be unsecured and will rank subordinate and junior in right of payment to all of our Senior Indebtedness in the same manner as our junior subordinated debt securities as set forth in the applicable junior subordinated indenture.

Each trust preferred securities guarantee will constitute a guarantee of payment and not of collection, which means that the guaranteed party may sue the guarantor to enforce its rights under such guarantee without suing any other person or entity. Each trust preferred securities guarantee will be held for the benefit of the holders of the related trust securities and will be discharged only by payment of the guarantee payments in full to the extent not paid by the trust or upon the distribution of the corresponding junior subordinated debt securities.

Amendments and Assignment

A trust preferred securities guarantee may be amended only with the prior approval of the holders of not less than a majority in aggregate liquidation amount of the outstanding relevant trust preferred securities. No vote will be required, however, for any changes that do not adversely affect the rights of holders of such trust preferred securities in any material respect. All guarantees and agreements contained in a trust preferred securities guarantee will bind our successors, assignees, receivers, trustees and representatives and will be for the benefit of the holders of the applicable trust preferred securities.

Termination of the Trust Preferred Securities Guarantees

Each trust preferred securities guarantee will terminate:

- (1) upon full payment of the redemption price of all related trust preferred securities of the applicable trust;
- (2) upon distribution of the corresponding junior subordinated debt securities to the holders of the related trust securities; or
- (3) upon full payment of the amounts payable in accordance with the applicable declaration of trust upon liquidation of the trust.

A trust preferred securities guarantee will continue to be effective or will be reinstated, as the case may be, if at any time any holder of related trust preferred securities must repay any sums paid under the related trust preferred securities or the trust preferred securities guarantee.

Events of Default

An event of default under each trust preferred securities guarantee will occur if we fail to make our required payments or perform any of our other obligations under such trust preferred securities guarantee.

The holders of a majority in liquidation amount of the related trust preferred securities will have the right to direct the time, method and place of conducting any proceeding for any remedy available to a guarantee trustee

[Table of Contents](#)

in respect of the applicable trust preferred securities guarantee or to direct the exercise of any trust or power conferred upon the guarantee trustee under the guarantee.

Any holder of related trust preferred securities may institute a legal proceeding directly against us to enforce their rights under the applicable trust preferred securities guarantee, without first instituting a legal proceeding against the trust, the guarantee trustee or any other person or entity.

We, as guarantor, will be required to file annually with each guarantee trustee a certificate as to whether or not we are in compliance with all the conditions and covenants applicable to us under the guarantees.

Information Concerning the Guarantee Trustee

Prior to the occurrence of an event of default relating to a trust preferred securities guarantee, the guarantee trustee is required to perform only the duties that are specifically set forth in the applicable trust preferred securities guarantee. Following the occurrence of an event of default, the guarantee trustee will exercise the same degree of care as a prudent individual would exercise in the conduct of his or her own affairs. Provided that the foregoing requirements have been met, the guarantee trustee is under no obligation to exercise any of the powers vested in it by a trust preferred securities guarantee at the request of any holder of the related trust preferred securities, unless offered indemnity satisfactory to it against the costs, expenses and liabilities that might be incurred thereby.

We and or our affiliates may maintain certain accounts and other banking relationships with the guarantee trustee and its affiliates in the ordinary course of business.

Governing Law

The trust preferred securities guarantees will be governed by and construed in accordance with the laws of the State of New York.

RELATIONSHIP AMONG THE TRUST PREFERRED SECURITIES, THE JUNIOR SUBORDINATED DEBT SECURITIES AND THE GUARANTEE

Full and Unconditional Guarantee

Taken together, our obligations under any junior subordinated debt securities, junior subordinated indenture, declaration of trust and guarantee provide, in the aggregate, a full, irrevocable and unconditional guarantee of payments of distributions and other amounts due on the related trust preferred securities. No single document standing alone or operating in conjunction with fewer than all of the other documents constitutes such a guarantee. It is only the combined operation of these documents that has the effect of providing a full, irrevocable and unconditional guarantee of any trust's obligations under its trust preferred securities. If and to the extent that we do not make payments on the junior subordinated debt securities, a trust will not pay distributions or other amounts due on the trust preferred securities. Each guarantee does not cover payment of distributions when a trust does not have sufficient funds to pay such distributions. In such an event, a holder of trust preferred securities may institute an action directly against us to enforce payment of such distributions to such holder after the respective due dates.

Sufficiency of Payments

As long as payments of interest and other payments are made when due on the junior subordinated debt securities, such payments will be sufficient to cover distributions and other payments due on the trust preferred securities, primarily because:

- the aggregate principal amount of the junior subordinated debt securities will be equal to the sum of the aggregate stated liquidation amount of the trust preferred securities and common securities;
- the interest rate and interest and other payment dates on the junior subordinated debt securities will match the distribution rate and distribution and other payment dates for the trust preferred securities;
- we will pay for all and any costs, expenses and liabilities of the trust except the trust's obligations to holders of the trust preferred securities under such trust preferred securities; and
- each declaration of trust will provide that the applicable trust will not engage in any activity that is not consistent with the limited purpose of such trust.

Notwithstanding anything to the contrary in the applicable junior subordinated indenture, we have the right to set-off any payment we are otherwise required to make thereunder with and to the extent we have theretofore made, or are concurrently on the date of such payment making, a payment under the applicable guarantee.

Enforcement Rights of Holders of Trust Preferred Securities

A holder of any trust preferred security may institute a legal proceeding directly against us to enforce its rights under the guarantee without first instituting a legal proceeding against the guarantee trustee, the trust or any other person or entity.

A holder may institute a direct action against us to enforce its rights under a declaration of trust only if a declaration default has occurred and is continuing and is attributable to our failure to pay interest or principal on the junior subordinated debt securities on the date such interest or principal is otherwise payable.

A default or event of default under any of our Senior Indebtedness will not constitute an indenture event of default. However, in the event of payment defaults under, or acceleration of, our Senior Indebtedness, the subordination provisions of the junior subordinated indenture provide that no payments may be made in respect of the junior subordinated debt securities until such Senior Indebtedness has been paid in full or any payment default thereunder has been cured or waived. Failure to make required payments on the junior subordinated debt securities would constitute an indenture event of default, but under the subordination provisions, no payment on

the junior subordinated debt securities could be made by us unless holders of our Senior Indebtedness are paid in full. See “Description of Junior Subordinated Debt Securities—Subordination” above.

Limited Purpose of Trust

The trust preferred securities will evidence a beneficial interest in a trust, and such trust will be created for the sole purpose of issuing the trust preferred securities and common securities and investing the proceeds thereof in the junior subordinated debt securities. A principal difference between the rights of a holder of trust preferred securities and a holder of junior subordinated debt securities will be that a holder of junior subordinated debt securities will be entitled to receive from us the principal amount of and interest accrued on the junior subordinated debt securities, while a holder of trust preferred securities will be entitled to receive distributions from the trust, including any amounts to be received upon redemption of the trust preferred securities, or amounts received from us under the applicable guarantee, if and to the extent a trust has funds available for the payment of such distributions.

Rights Upon Dissolution

Upon any voluntary or involuntary dissolution, winding-up or liquidation of any trust involving the liquidation of the junior subordinated debt securities, the holders of the trust preferred securities of such trust are entitled to receive, out of assets held by the trust after satisfaction of liabilities to creditors of the trust, as provided by applicable law, the liquidation distribution in cash. See “Description of the Trust Preferred Securities—Liquidation Distribution Upon Dissolution.” Upon our voluntary or involuntary liquidation or bankruptcy, the institutional trustee, as holder of the junior subordinated debt securities, would be our junior subordinated creditor, subordinated in right of payment to all Senior Indebtedness, but entitled to receive payment in full of principal and interest before any of our common or preferred stockholders receive payments or distributions. Since we are the guarantor under the guarantee and have agreed to pay for all costs, expenses and liabilities of the trust, other than a trust’s obligations to the holders of the trust preferred securities, the positions of a holder of such trust preferred securities and a holder of such junior subordinated debt securities relative to other creditors and to our stockholders in the event of our liquidation or bankruptcy would be substantially the same.

DESCRIPTION OF PREFERRED STOCK

Our Restated Certificate of Incorporation authorizes our Board of Directors, or the Board, to create and provide for the issuance of one or more series of preferred stock, par value \$.01 per share, without the approval of our stockholders. The Board can also determine the terms, including the designations, powers, preferences and rights (including conversion, voting and other rights) and the qualifications, limitations or restrictions, of any preferred stock. Currently, 50,000,000 shares of our capital stock are classified as preferred stock under our Restated Certificate of Incorporation. As of the date of this prospectus, 3,555,199 shares of our Fixed Rate Cumulative Perpetual Preferred Stock, Series A are outstanding. You should refer to the Certificate of Designations for our Fixed Rate Cumulative Perpetual Preferred Stock, Series A, which is incorporated by reference herein, for a description of this series of preferred stock.

General

The following description summarizes the general terms and provisions of our authorized preferred stock. The particular terms of any series of preferred stock we offer will be described in the related prospectus supplement. You should read the particular terms of any series of preferred stock we offer described in the related prospectus supplement, together with the more detailed provisions of our Restated Certificate of Incorporation and the certificate of designation relating to the particular series of preferred stock, for provisions that may be important to you. Our Restated Certificate of Incorporation has been filed as an exhibit to the registration statement of which this prospectus is a part. The certificate of designation relating to the particular series of preferred stock will be filed as an exhibit to a document incorporated by reference in the registration statement. The prospectus supplement will also state whether any of the terms summarized below do not apply to the series of preferred stock being offered. Terms which could be included in a prospectus supplement include:

- the designation of the preferred stock and the number of shares offered;
- the amount of liquidation preference per share;
- the price at which the preferred stock will be issued;
- the dividend rate, or its method of calculation, and the dates on which dividends will be payable;
- whether the dividends will be cumulative or noncumulative, and, if cumulative, the dates from which dividends will commence to cumulate;
- any redemption or sinking fund provisions of the preferred stock;
- whether we have elected to offer depositary shares, as described below;
- the terms and conditions, if any, upon which the preferred stock will be convertible into or exchangeable for common stock or other securities; and
- any additional voting, dividend, liquidation, redemption, sinking fund and other rights, preferences, privileges, limitations and restrictions of the preferred stock.

The preferred stock will, when issued, be fully paid and nonassessable and have no preemptive rights. Preferred stock will have the dividend, liquidation, and voting rights described below, unless we indicate otherwise in the applicable prospectus supplement relating to a particular series of preferred stock. You should read the prospectus supplement relating to any series of preferred stock for the series' specific terms.

Dividend Rights

Holders of preferred stock will receive, when, as and if declared by the Board, dividends at rates and on the dates described in the applicable prospectus supplement. Each dividend will be payable to the holders of record as they appear on our stock record books of the Corporation or, if applicable, the records of the depositary referred to under "Description of Depositary Shares," on the record dates fixed by the Board or its committee. Dividends on any series of preferred stock may be cumulative or noncumulative. The Corporation's ability to pay dividends on the preferred stock depends on the ability of COBNA and CONA to pay dividends to the Corporation. The ability of the Corporation, COBNA and CONA to pay dividends in the future is subject to bank regulatory requirements and capital guidelines and policies established by the Federal Reserve Board.

Table of Contents

We will not declare or pay or set apart funds for the payment of dividends on any securities which rank equally with the preferred stock unless we have paid or set apart funds for the payment of dividends on the preferred stock. If full dividends are not paid, the preferred stock will share dividends pro rata with any equally ranked securities.

Voting Rights

Unless we indicate otherwise in the applicable prospectus supplement relating to a particular series of preferred stock or expressly required by law, the holders of the preferred stock will not have any voting rights.

Rights upon Liquidation

If we liquidate, dissolve or wind up our affairs, either voluntarily or involuntarily, the holders of each series of preferred stock will be entitled to receive liquidation distributions. These will be in the amounts set forth in the applicable prospectus supplement, plus accrued and unpaid dividends and, if the series of the preferred stock is cumulative, accrued and unpaid dividends for all prior dividend periods. If we do not pay in full all amounts payable on any series of preferred stock, the holders of the preferred stock will share proportionately with any equally ranked securities in any distribution of our assets. After the holders of any series of preferred stock are paid in full, they will not have any further claim to any of our remaining assets.

Because the Corporation is a holding company, the rights of its stockholders to participate in the assets of any subsidiary, including COBNA and CONA, upon the subsidiary's liquidation or recapitalization may be subject to the prior claims of the subsidiary's creditors, except to the extent that the Corporation may itself be a creditor with recognized claims against the subsidiary.

Redemption

A series of preferred stock may be redeemable, in whole or in part, at our option or at the option of the holder of the stock, and may be subject to mandatory redemption pursuant to a sinking fund, under the terms described in any applicable prospectus supplement.

In the event of partial redemptions of preferred stock, the Board or its committee will determine the method for selecting the shares to be redeemed, which may be by lot or pro rata or by any other method the Board or its committee determines to be equitable.

On and after a redemption date, unless we default in the payment of the redemption price, dividends will cease to accrue on shares of preferred stock which were called for redemption. In addition, all rights of holders of the preferred shares will terminate except for the right to receive the redemption price.

Conversion and Exchange

The applicable prospectus supplement for any series of preferred stock will state the terms and conditions, if any, on which shares of that series are convertible into or exchangeable for our common stock or other securities, including:

- the number of shares of common stock or other securities into which the shares of preferred stock are convertible or for which the shares of preferred stock may be exchanged;
- the conversion price or exchange price or manner of calculation;
- the conversion period or exchange period;
- provisions as to whether conversion or exchange will be at the option of the holders of the preferred stock or at our option, if applicable;
- any events requiring an adjustment of the conversion price or exchange price; and
- provisions affecting conversion or exchange in the event of the redemption of the series of preferred stock.

DESCRIPTION OF DEPOSITARY SHARES

The following description summarizes the general terms and provisions of depositary shares and depositary receipts. The particular terms of any depositary shares and any depositary receipts we offer will be described in the related prospectus supplement. You should read the particular terms of any depositary shares and depositary receipts we offer described in the related prospectus supplement, together with any deposit agreement relating to a particular series of preferred stock for provisions that may be important to you. The prospectus supplement will also state whether any of the generalized provisions summarized below do not apply to the depositary shares or depositary receipts being offered.

General

We may, at our option, elect to offer fractional shares of preferred stock, rather than full shares of preferred stock. In that event, we will issue receipts for depositary shares, each of which will represent a fraction of a share of a particular series of preferred stock as described in the applicable prospectus supplement. The terms of any depositary shares will be set forth in the applicable prospectus supplement and the provisions of the deposit agreement, which we will file with the SEC.

The shares of any series of preferred stock represented by depositary shares will be deposited under a deposit agreement between us and the depositary named in the applicable prospectus supplement. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled to all the rights and preferences of the preferred stock, including dividend, voting, redemption, conversion and liquidation rights, in proportion to the applicable fraction of a share of preferred stock represented by such depositary share.

The depositary shares will be evidenced by depositary receipts issued pursuant to the applicable deposit agreement. Depositary receipts will be distributed to those persons purchasing the fractional shares of preferred stock as described in the applicable prospectus supplements.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the deposited preferred stock to the record holders of depositary shares relating to such preferred stock in proportion to the number of such depositary shares owned by such holders.

The depositary will distribute any property received by it other than cash to the record holders of depositary shares entitled thereto. If the depositary determines that it is not feasible to make such distribution, it may, with our approval, sell such property and distribute the net proceeds from such sale to such holders.

Redemption of Preferred Stock

If a series of preferred stock represented by depositary shares is to be redeemed, the depositary shares will be redeemed from the proceeds received by the depositary resulting from the redemption, in whole or in part, of such series of preferred stock. The depositary shares will be redeemed by the depositary at a price per depositary share equal to the applicable fraction of the redemption price per share payable in respect of the shares of preferred stock so redeemed.

Whenever we redeem shares of preferred stock held by the depositary, the depositary will redeem as of the same date the number of depositary shares representing the shares of preferred stock so redeemed. If fewer than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by the depositary by lot or ratably or by any other equitable method as we may decide.

DESCRIPTION OF COMMON STOCK

The Corporation is authorized to issue 1,000,000,000 shares of common stock, par value \$.01 per share. As of March 31, 2009, 442,540,141 shares were issued. The common stock is traded on the New York Stock Exchange under the symbol “COF.” All outstanding shares of common stock are and will be fully paid and nonassessable.

The following summary is not complete, and you should refer to the applicable provisions of the Delaware General Corporation Law and our Restated Certificate of Incorporation and Restated Bylaws for additional information. See “Where You Can Find More Information.”

Voting and Other Rights

Each share of common stock is entitled to one vote on all matters submitted to a vote of stockholders. Except as otherwise provided by law, the Restated Certificate of Incorporation or the Restated Bylaws, a majority of the votes cast is required for all actions to be taken by stockholders. Directors in uncontested elections shall be elected by a majority of votes cast; however, in contested elections, a plurality standard shall apply. Stockholders do not have cumulative voting rights in the election of directors, which means that the holders of more than 50% of the shares voting in an election of directors can elect all of the directors. Shares of common stock also do not have any preemptive, subscription, redemption, sinking fund or conversion rights.

Distribution

Common stock dividends are subject to preferences, if any, on any outstanding shares of preferred stock. Dividends must be declared by the Board out of legally available funds. If we liquidate, dissolve or wind up our affairs, common stockholders are entitled to share proportionately in the assets available for distribution to common stockholders.

Anti-Takeover Provisions of the Restated Certificate of Incorporation and Restated Bylaws

Certain provisions in our Restated Certificate of Incorporation and Restated Bylaws could make more difficult or discourage a tender offer, proxy contest or other takeover attempt that is opposed by the Board but which might be favored by the stockholders. The Restated Certificate of Incorporation and Restated Bylaws are filed as exhibits to the registration statement, and certain provisions are summarized below.

Classified Board of Directors. Our Board, other than directors elected by any series of preferred stock, is divided into three classes of directors, with the classes to be as nearly equal in number as possible. The class of directors elected at each annual meeting is elected for a three-year term. Some practical effects of these classification provisions are the following:

- It will take at least two annual meetings of stockholders, instead of one, to elect a majority of the Board. This delay ensures that our directors, if confronted by a stockholder attempting to force a proxy contest, a tender or exchange offer, or an extraordinary corporate transaction, would have sufficient time to review the proposal and any available alternatives before they act in what they believe to be the best interests of the stockholders. However, even if a change in the composition of the Board would be beneficial to us and our stockholders, it will take at least two annual meetings of stockholders to make this change.
- A classified Board may discourage third-party proxy contests, tender offers or attempts to obtain control of the Corporation. This will happen even if an attempt might be beneficial to us and our stockholders. Therefore, there is an increased likelihood that incumbent directors will retain their positions.

[Table of Contents](#)

- A classified Board discourages accumulations of large blocks of our stock by purchasers whose objective is to take control of the Board. This could reduce the likelihood of fluctuations in the market price of the common stock that might result from accumulations of large blocks of stock. Stockholders therefore might not have opportunities to sell their shares of common stock at the higher market price that an accumulation of stock could create.

Number of Directors; Removal; Filling Vacancies. Generally, our Board must consist of between three and seventeen directors, and vacancies will be filled only by the affirmative vote of a majority of the remaining directors, even if less than a quorum remains in office. Therefore, unless the Restated Bylaws are amended, the Board could prevent any stockholder from enlarging the Board of Directors and filling the new directorships with the stockholder's own nominees.

Under Delaware law, unless otherwise provided in the certificate of incorporation, directors serving on a classified board may only be removed by the stockholders for cause. Our Restated Certificate of Incorporation and Restated Bylaws provide that, subject to the rights of holders of preferred stock to elect directors under specified circumstances, directors may be removed only for cause and only upon the affirmative vote of holders of at least 80% of the voting power of all of the then-outstanding shares of stock entitled to vote generally in the election of directors.

No Stockholder Action by Written Consent; Special Meetings. Stockholder action can be taken only at an annual or special meeting of stockholders and cannot be taken by written consent. Under circumstances described in the Restated Bylaws, special meetings of stockholders can be called by the Chairman of the Board or by the Board. Stockholders are not permitted to call a special meeting or to require that the Board call a special meeting. Moreover, any special meeting of stockholders is limited to the business in the notice of the special meeting sent to the stockholders before the meeting.

The provisions prohibiting stockholder action by written consent and prohibiting stockholders from calling a special meeting could delay consideration of a stockholder proposal until our next annual meeting. This would prevent the holders of our stock from unilaterally using the written consent procedure to take stockholder action. Moreover, a stockholder cannot force stockholder consideration of a proposal over the opposition of the Chairman and the Board by calling a special meeting of stockholders.

Advance Notice Provisions for Stockholder Nominations and Stockholder Proposals. Only people who are nominated by, or at the direction of, the Board, or by a stockholder who has given proper written notice prior to a meeting at which directors are to be elected, will be eligible for election as directors. Business conducted at an annual meeting is limited to the business brought before the meeting by, or at the direction of, the Chairman, the Board or a stockholder who has given proper notice. A stockholder's notice to us proposing to nominate a person for election as a director must also contain certain information described in the Restated Bylaws. You should refer to our Restated Bylaws for more information, including the process and timing requirements for a stockholder notice.

Some of the effects of the provisions described above and in the Restated Bylaws include:

- the Board will have a longer period to consider the qualifications of the proposed nominees and, if deemed necessary or desirable, to inform stockholders about the qualifications;
- there will be an orderly procedure for conducting annual meetings of stockholders and informing stockholders, prior to the meetings, of any business proposed to be conducted at the meetings, including any Board recommendations; and
- contests for the election of directors or the consideration of stockholder proposals will be precluded if the procedures are not followed. Third parties may therefore be discouraged from conducting a solicitation of proxies to elect their own slate of directors or to approve their own proposal.

[Table of Contents](#)

Business Combinations. Certain mergers, share exchanges or sales of our assets with or to interested stockholders, as defined below, must be approved by the affirmative vote of the holders of at least 75% of our voting stock, voting together as a single class, including 75% of our voting stock not owned directly or indirectly by any interested stockholder or any affiliate of any interested stockholder. Our Restated Certificate of Incorporation requires this affirmative vote even if no vote is required, or a lesser percentage is specified, by law or any national securities exchange or otherwise. This affirmative vote is not required in two situations. First, it is not required if the business combination has been approved by a majority of uninterested, continuing directors. Second, it is not required if certain price and procedure requirements designed to ensure that our stockholders receive a “fair price” for their common stock are satisfied. Our Restated Certificate of Incorporation defines an interested stockholder as any person, other than us or any of our subsidiaries, who or which:

- itself or along with its affiliates beneficially owns, directly or indirectly, more than 5% of the then outstanding voting stock;
- is an affiliate of us and at any time within the two-year period immediately prior to the date in question itself or along with its affiliates beneficially owned, directly or indirectly, 5% or more of the then-outstanding voting stock; or
- owns any shares of voting stock which were at any time within the two-year period immediately prior to the date in question beneficially owned by any interested stockholder, if the transfer of ownership occurred in the course of a non-public transaction or series of non-public transactions.

Liability of Directors; Indemnification. A director generally will not be personally liable for monetary damages to us or our stockholders for breach of fiduciary duty as a director. A director may be held liable, however, for the following:

- any breach of the director’s duty of loyalty to us or our stockholders;
- acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;
- paying a dividend or approving a stock repurchase in violation of Delaware law; or
- any transaction from which the director derived an improper personal benefit.

We indemnify our officers and directors against lawsuits by third parties to the fullest extent of the law. We may agree with any person to provide an indemnification greater than or different from the indemnification provided by the Restated Certificate of Incorporation.

Amendments. The Restated Certificate of Incorporation generally may be amended with a majority vote of the stockholders, but some provisions, including some of the provisions discussed above, can only be amended with an affirmative vote of the holders at least 80% of the then-outstanding voting stock. The Restated Bylaws generally may be amended by the Board or by the stockholders; provided that in the case of amendments by the stockholders the affirmative vote of at least 80% of the then outstanding voting stock is required. These 80% vote requirements prevent a stockholder with only a majority of the common stock from circumventing the requirements of the Restated Bylaws or certain provisions of the Restated Certificate of Incorporation by simply amending or repealing them.

Anti-Takeover Legislation

We are a Delaware corporation and are governed by Section 203 of the Delaware General Corporation Law. This provision generally states that, subject to some exceptions, a corporation cannot engage in any business combination with any “interested stockholder” for three years after the time that the stockholder became an interested stockholder unless the business combination is approved by the board of directors and authorized by the affirmative vote of at least 66-2/3% of the outstanding voting stock of the corporation which is not owned by the interested stockholder. Delaware law defines an interested stockholder to include any person, and its affiliates

[Table of Contents](#)

and associates, that owns 15% or more of the outstanding voting stock of the corporation, or that is an affiliate or associate of the corporation and was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the relevant date.

Although stockholders may elect to exclude a corporation from Section 203's restrictions, our Restated Certificate of Incorporation and Restated Bylaws do not exclude us from Section 203's restrictions. The provisions of Section 203 may encourage companies interested in acquiring us to negotiate in advance with the Board, since Section 203 does not require stockholder approval for a corporation to engage in any business combination with any interested stockholder, if the board of directors prior to the time that such stockholder became an interested stockholder approved either the business combination or the transaction in which the stockholder became an interested stockholder. Business combinations are discussed more fully above.

Dividend Reinvestment Plan

Our dividend reinvestment and stock purchase plan (as amended and supplemented, the "DRIP Program") provides stockholders with the opportunity to purchase additional shares of our common stock by reinvesting all or a portion of their dividends on shares of common stock. It also provides existing stockholders with the option to make cash investments monthly, subject to a minimum monthly limit of \$50 and a maximum monthly limit of \$10,000. Optional cash investments in excess of \$10,000 may be made only with our express permission, and, in our sole discretion, we may grant a discount for such optional cash investments (from 0% to 5%). We use proceeds from the DRIP Program for general corporate purposes.

Transfer Agent

The transfer agent and registrar for the common stock is Computershare Trust Company, N.A.

DESCRIPTION OF PURCHASE CONTRACTS

We may issue purchase contracts, including purchase contracts obligating holders to purchase from or sell to us, and us to sell to or purchase from holders, at a future date a number of:

- our debt securities, preferred stock or common stock;
- securities of an entity not affiliated with us, a basket of those securities, an index or indices of those securities or any combination of the above;
- currencies; or
- commodities.

The price of the items specified above may be fixed at the time the purchase contracts are issued or may be determined by reference to a specific formula contained in such purchase contracts. The purchase contracts may be issued separately or as parts of units, including units consisting of a combination of a purchase contract obligating the holder to purchase shares of common stock or preferred stock and debt securities or debt obligations of third parties, including U.S. Treasury securities, which may secure the holders' obligations to purchase the common stock or preferred stock under the purchase contracts. We may issue purchase contracts in such amounts and in as many distinct series as we may require.

The applicable prospectus supplement will describe the terms of the purchase contracts offered pursuant to it, including one or more of the following:

- whether the purchase contracts obligate the holder to purchase or sell, or both purchase and sell, the items specified above, and the nature and amount of each of those items or method of determining those amounts;
- the amounts payable under the purchase contract or the formula by which such amount will be determined;
- whether the purchase contracts are to be prepaid or not;
- whether the purchase contracts are to be settled by delivery, or by reference or linkage to the value, performance or level of our common stock, our preferred stock, such securities of an entity not affiliated with us, a basket of such securities, an index or indices of such securities or any combination of the above, such currencies or such commodities;
- any acceleration, cancellation, termination or other provisions relating to the settlement of the purchase contracts;
- United States federal income tax considerations relevant to the purchase contracts; and
- whether the purchase contracts will be issued in fully registered or global form.

The preceding description and any description of purchase contracts in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to each purchase contract agreement and, if applicable, collateral arrangements relating to such purchase contracts. An investment in purchase contracts may involve special risks, including risks associated with indexed securities or currency related risks if the purchase contract or the related security is linked to an index or is payable in or linked to a non-U.S.-dollar currency.

DESCRIPTION OF WARRANTS

We may issue warrants to purchase debt securities, preferred stock, depositary shares or common stock of the Corporation. We may offer warrants separately or together with one or more additional warrants, debt securities, preferred stock, depositary shares or common stock, or any combination of those securities in the form of units, as described in the applicable prospectus supplement. If we issue warrants as part of a unit, the accompanying prospectus supplement will specify whether those warrants may be separated from the other securities in the unit prior to the warrants' expiration date.

Below is a description of certain general terms and provisions of the warrants that we may offer. Further terms of the warrants will be described in the applicable prospectus supplement. You should read the particular terms of any warrants we offer described in the related prospectus supplement, together with any warrant agreement relating to the particular warrant, for provisions that may be important to you.

The applicable prospectus supplement will contain, where applicable, the following terms of and other information relating to the warrants:

- the specific designation and aggregate number of, and the price at which we will issue, the warrants;
- the currency or currency units in which the offering price, if any, and the exercise price are payable;
- the date on which the right to exercise the warrants will begin and the date on which that right will expire or, if you may not continuously exercise the warrants throughout that period, the specific date or dates on which you may exercise the warrants;
- whether the warrants will be issued in fully registered form or bearer form, in definitive or global form or in any combination of these forms, although, in any case, the form of a warrant included in a unit will correspond to the form of the unit and of any security included in that unit;
- any applicable material United States federal income tax consequences;
- the identity of the warrant agent for the warrants and of any other depositaries, execution or paying agents, transfer agents, registrars or other agents;
- the proposed listing, if any, of the warrants or any securities purchasable upon exercise of the warrants on any securities exchange;
- the designation, aggregate principal amount, currency and terms of the debt securities purchasable upon exercise of the warrants, and the price at which such principal amount may be purchased;
- the number of shares of preferred stock, the number of depositary shares or the number of shares of common stock purchasable upon exercise of a warrant and the price at which those shares may be purchased;
- the designation and terms of the preferred stock or common stock, or of the preferred stock underlying any depositary shares, purchasable upon exercise of the warrants;
- if applicable, the designation and terms of the debt securities, preferred stock, depositary shares or common stock with which the warrants are issued and the number of warrants issued with each security;
- if applicable, the date from and after which the warrants and the related debt securities, preferred stock, depositary shares or common stock will be separately transferable;
- if applicable, the minimum or maximum amount of the warrants that may be exercised at any one time;
- information with respect to book-entry procedures, if any;
- the antidilution provisions of the warrants, if any;

[Table of Contents](#)

- any redemption or call provisions;
- whether the warrants are to be sold separately or with other securities as parts of units; and
- any additional terms of the warrants, including terms, procedures and limitations relating to the exchange and exercise of the warrants.

DESCRIPTION OF UNITS

We may issue units comprised of one or more of the other securities described in this prospectus in any combination. Each unit may also include debt obligations of third parties, such as U.S. Treasury securities. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The applicable unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately, at any time or any time before a specified date.

The applicable prospectus supplement will describe the terms of the units offered pursuant to it, including one or more of the following:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units;
- the terms of any agreements governing the units;
- U.S. federal income tax considerations relevant to the units; and
- whether the units will be issued in fully registered or global form.

The preceding description and any description of units in the applicable prospectus supplement does not purport to be complete and is subject to and is qualified in its entirety by reference to each unit agreement and, if applicable, collateral arrangements relating to such units.

THE TRUSTS

The following description summarizes the formation, purposes and material terms of each trust. See “Description of the Trust Preferred Securities,” “Description of the Junior Subordinated Debt Securities” and “Description of the Trust Preferred Securities Guarantees” for more information on the following:

- the trust preferred securities to be issued by each trust;
- the junior subordinated debt securities to be issued by us to each trust and the applicable junior subordinated indenture under which they will be issued;
- our guarantees for the benefit of the holders of the trust preferred securities; and
- the relationship among the trust preferred securities, the corresponding junior subordinated debt securities and the guarantees.

Each trust is a statutory trust created under Delaware law pursuant to:

- a declaration of trust executed by us, as sponsor of such trust, and the Delaware trustee, the institutional trustee and the administrative trustees of such trust; and
- a certificate of trust filed with the Delaware Secretary of State.

Each trust may use this prospectus and the applicable prospectus supplement to offer to the public, from time to time, preferred securities representing preferred beneficial interests in the applicable trust, which we call “trust preferred securities.” In addition to trust preferred securities offered to the public, each trust will sell common securities representing common beneficial interests in such trust to us and we call these securities “common securities.” All of the common securities of each trust will be owned by us. The common securities and the trust preferred securities are also referred to together as the “trust securities.”

Before trust securities are issued, the original declaration of trust for the relevant trust will be amended and restated in its entirety substantially in the form filed (or to be filed) with the registration statement of which this prospectus forms a part. The declarations of trust will be qualified as indentures under the Trust Indenture Act of 1939.

Each trust exists for the exclusive purposes of:

- issuing and selling its trust securities;
- using the proceeds from the sale of those trust securities to acquire corresponding junior subordinated debt securities from us; and
- engaging in only those other activities necessary or incidental to these purposes (for example, registering the transfer of the trust securities).

Each trust will own only the applicable series of corresponding junior subordinated debt securities. The payment terms of the corresponding junior subordinated debt securities will be substantially the same as the terms of that trust’s trust preferred securities. The only source of funds for each trust will be the payments it receives from us on the corresponding junior subordinated debt securities. Each trust will use these funds to make any cash payments due to holders of its trust preferred securities.

The common securities of a trust will rank equally, and payments on them will be made pro rata, with the trust preferred securities of that trust, except that upon the occurrence and continuance of an event of default under a declaration of trust of such trust resulting from an event of default under the applicable junior subordinated indenture, our rights, as holder of the common securities, to payment in respect of distributions and payments upon liquidation or redemption will be subordinated to the rights of the holders of the trust preferred securities of that trust. See “Description of the Trust Preferred Securities—Ranking of Common Securities.” We

[Table of Contents](#)

will acquire common securities in an aggregate liquidation amount greater than or equal to 3% of the total capital of each trust. The prospectus supplement relating to any trust preferred securities will contain the details of the cash distributions to be made periodically.

Under certain circumstances, we may redeem the corresponding junior subordinated debt securities that we sold to a trust. If this happens, such trust will redeem a like amount of the trust preferred securities that it sold to the public and the common securities that it sold to us.

Under certain circumstances, we may dissolve a trust and cause the corresponding junior subordinated debt securities to be distributed to the holders of the related trust preferred securities. If this happens, owners of such trust preferred securities will no longer have any interest in such trust and will own only the corresponding junior subordinated debt securities we issued to the trust.

Unless otherwise specified in the applicable prospectus supplement:

- each trust's business and affairs will be conducted by its trustees;
- the trustees for each trust will be appointed by us as holder of the common securities;
- the trustees for each trust will be The Bank of New York Mellon Trust Company, N.A., as institutional trustee, BNY Mellon Trust of Delaware, as Delaware trustee and the administrative trustees, who will be employees or officers of the Corporation or an affiliate of ours. The Bank of New York Mellon Trust Company, N.A., as institutional trustee, will act as sole indenture trustee under each declaration of trust and will act as trustee under the guarantees for purposes of compliance with the Trust Indenture Act. The Bank of New York Mellon will also act as trustee under the applicable junior subordinated indenture;
- if an event of default under the declaration of trust for a trust has occurred and is continuing, the holders of a majority in liquidation amount of the related trust preferred securities will be entitled to appoint, remove or replace the institutional trustee and/or the Delaware trustee for such trust;
- under all circumstances, only the holder of the common securities has the right to vote for, appoint, remove or replace the administrative trustees;
- the duties and obligations of each trustee are governed by the applicable declaration of trust; and
- we will pay all fees and expenses related to each trust and the offering of the trust preferred securities and will pay, directly or indirectly, all ongoing costs, expenses and liabilities of each trust.

The principal executive office of each trust is located at 1680 Capital One Drive, McLean, Virginia 22102, and the telephone number for each trust is (703) 720-1000.

BOOK-ENTRY PROCEDURES AND SETTLEMENT

Unless we indicate otherwise in the applicable prospectus supplement for a series of debt securities or trust preferred securities, each series of debt securities or trust preferred securities will be book-entry securities. All book-entry securities of the same issue initially will be represented by one or more fully registered global securities without interest coupons. Each global security will be deposited upon issuance with, or on behalf of, The Depository Trust Company, as depositary (“DTC”), and will be registered in the name of DTC or a nominee of DTC, in each case for credit to an account of a direct or indirect participant in DTC as described below. DTC will thus be the only registered holder of these debt securities or trust preferred securities and will be considered the sole owner of the securities for purposes of the senior or subordinated indenture or the applicable declaration of trust.

Global securities may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global securities may be held through the Euroclear System, or Euroclear, and Clearstream Banking, S.A., or Clearstream, each as indirect participants in DTC. Transfers of beneficial interests in the global securities will be subject to the applicable rules and procedures of DTC and its direct and indirect participants, including, if applicable, those of Euroclear and Clearstream, which may change from time to time. DTC has advised us as follows: it is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds securities that its participants deposit with it. DTC also facilitates the post-trade settlement among participants of sales and other securities transactions in deposited securities through electronic computerized book entry transfers and pledges between participants’ accounts, thereby eliminating the need for physical movement of securities certificates.

Direct participants in DTC’s system include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to DTC’s system also is available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, which we collectively call indirect participants. Persons that are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the participants and the indirect participants. The rules applicable to DTC and its participants are on file with the Securities and Exchange Commission.

DTC has also advised us that, upon the issuance of the global securities evidencing a series of debt securities or trust preferred securities, it will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities evidenced thereby to the designated accounts of participants. Ownership of beneficial interests in the global securities will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in the global securities will be shown on, and the transfer of those ownership interests may be effected only through, records maintained by DTC or its nominee (with respect to participants) and the records of participants and indirect participants (with respect to other owners of beneficial interests in the global securities).

Investors in the global securities that are participants may hold their interests therein directly through DTC. Investors in the global securities that are not participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream) that are participants in such system. Euroclear and Clearstream will hold interests in the global securities on behalf of their participants through customers’ securities accounts in their respective names on the books of their respective depositories. All interests in a global security, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems.

[Table of Contents](#)

The laws of some states require that certain purchasers of securities take physical delivery of those securities in definitive form. These laws may impair the ability of holders to transfer beneficial interests in global securities to certain purchasers. Because DTC can act only on behalf of the participants, which in turn act on behalf of the indirect participants, the ability of a person having beneficial interests in a global security to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

So long as DTC or any successor depositary for a global security, or any nominee, is the registered holder of such global security, DTC or such successor depositary or nominee will be considered the sole owner or holder of the debt securities or trust preferred securities represented by such global security for all purposes under the applicable indenture. Except as set forth below, owners of beneficial interests in a global security will not be entitled to have debt securities or trust preferred securities represented by such global securities registered in their names, will not receive or be entitled to receive physical delivery of debt securities or trust preferred securities in definitive form, and will not be considered the owners or holders thereof for any purpose under the applicable indenture or declaration of trust. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of DTC and, if such person is not a participant, on the procedures of the participant through which such person owns its interest, to exercise any rights of a holder under the applicable indenture or declaration of trust. We understand that, under existing industry practices, in the event that we request any action of holders or that an owner of a beneficial interest in the global securities desires to give any consent or take any action under the applicable indenture or declaration of trust, DTC or any successor depositary would authorize the participants holding the relevant beneficial interests to give or take such action or consent, and such participants would authorize beneficial owners owning through such participants to give or take such action or consent or would otherwise act upon the instructions of beneficial owners owning through them.

Unless we indicate otherwise in the applicable prospectus supplement for a series of debt securities or trust preferred securities, payment of principal and interest on such debt securities or of distributions on trust preferred securities that are registered in the name of or held by DTC or any successor depositary or nominee will be payable to DTC or such successor depositary or nominee, as the case may be, in its capacity as registered holder of the global securities representing the debt securities or trust preferred securities. Under the terms of the indenture, DTC and the trustee will treat the persons in whose names the debt securities or trust preferred securities, including the global securities, are registered as the owners of such securities for the purpose of receiving payments and for all other purposes. Consequently, neither we, nor any indenture trustee, nor any agent of us or any such person will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in the global securities, for maintaining, supervising or reviewing any records relating to such beneficial ownership interests, or for any other matter relating to the actions and practices of DTC or any of its participants or indirect participants.

We have been advised by DTC that its current practice, upon receipt of any payment of principal or interest in respect of the global securities, is to credit participants' accounts with payments on the payment date, unless DTC has reason to believe it will not receive payments on such payment date. Each relevant participant is credited with an amount proportionate to its beneficial ownership of an interest in the principal amount of the relevant security as shown on the records of DTC. Payments by participants and indirect participants to owners of beneficial interests in the global securities held through such participants and indirect participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such participants or indirect participants, and will not be the responsibility of us, any indenture trustee, nor any agent of us or of any such person. Neither we nor any such person or agent will be liable for any delay by DTC or by any participant or indirect participant in identifying the beneficial owners of the debt securities or trust preferred securities, and we and any such person or agent may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Crossmarket transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its depositary; however, such cross-market transactions will

require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global security in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream. DTC has advised us that it will take any action permitted to be taken by a holder debt securities only at the direction of one or more participants to whose account DTC has credited the interests in the global securities and only in respect of such portion of the aggregate principal amount of the debt securities as to which such participant or participants has or have given such direction.

Except as provided in the applicable prospectus supplement, owners of beneficial interests in a global security will not be entitled to receive physical delivery of the related debt securities or trust preferred securities in certificated form and will not be considered the holders of the related debt securities or trust preferred securities for any purpose under the applicable indenture or declaration of trust, and no global security will be exchangeable, except for another global security of the same denomination and tenor to be registered in the name of DTC or a successor depository or nominee. Accordingly, each beneficial owner must rely on the procedures of DTC and, if the beneficial owner is not a participant, on the procedures of the participant or indirect participant through which the beneficial owner owns its interest to exercise any rights of a holder under the applicable indenture or declaration of trust. However, if there is an event of default under the debt securities, DTC reserves the right to exchange the global securities for debt securities in certificated form, and to distribute such debt securities to the participants.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global securities among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither we, nor any indenture trustee, nor any agent of us or of any such person will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section, including any description of the operations and procedures of DTC, Euroclear and Clearstream, has been provided solely as a matter of convenience. We do not take any responsibility for the accuracy of this information, and this information is not intended to serve as a representation, warranty or contract modification of any kind. The operations and procedures of DTC, Euroclear and Clearstream are solely within the control of such settlement systems and are subject to changes by them. We urge investors to contact such systems or their participants directly to discuss these matters.

CERTAIN LEGAL MATTERS

Gibson, Dunn & Crutcher LLP will pass upon certain legal matters in connection with the securities and Richards, Layton & Finger, P.A. will pass upon certain legal matters in connection with Delaware law. Gibson, Dunn & Crutcher LLP has from time to time acted as counsel for us and our subsidiaries and affiliates and may do so in the future. Morrison & Foerster LLP will pass upon certain legal matters for the underwriters.

EXPERTS

Ernst & Young LLP, independent registered public accounting firm, has audited our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2008 as set forth in their report, which is incorporated by reference in this prospectus and elsewhere in the registration statement. Our financial statements are incorporated by reference in reliance on Ernst & Young LLP's report, given on their authority as experts in accounting and auditing.
