## CAPITAL ONE FINANCIAL CORPORATION (COF)

## Table 14: Notes to Loan, Allowance and Business Segment Disclosures (Tables 7—13)

${ }^{\text {1) }}$ The nonperforming loan rates are calculated based on nonperforming loans for each category divided by period-end total loans held for investment for each respective category
${ }^{(2)}$ Nonperforming assets consist of nonperforming loans, real estate owned ("REO") and other foreclosed assets. The total nonperforming asset rate is calculated based on total nonperforming assets divided by the combined period-end total loans held for investment, REO and other foreclosed assets. Calculation of nonperforming asset rates for our Consumer Banking and Commercial Banking businesses do not include the impact of acquired REOs.
${ }^{(3)}$ Primarily consists of the legacy loan portfolio of our discontinued GreenPoint mortgage operations.
(4) Represents foreign currency translation adjustments and the net impact of loan transfers and sales,
${ }^{(5)}$ Some of our tax-related commercial investments generate tax-exempt income or tax credits. Accordingly, we make certain reclassifications within our Commercial Banking business results to present revenues and yields on a taxable-equivalent basis, calculated assuming an effective tax rate approximately equal to our federal statutory tax rate of $35 \%$ with offsetting reclassifications to the Other category.
${ }^{(6)}$ Includes a build in our U.K. PPI Reserve in Q3 2016, Q2 2016 and Q3 2015, which impacted both total net revenue and non-interest expense within our International Card business.
${ }^{\text {(7) }}$ Calculated based on annualized interest income for the period divided by average loans held for investment during the period for the respective loan category. Annualized interest income is computed based on the effective yield of the respective loan category and does not include any allocations, such as funds transfer pricing.
${ }^{(8)}$ Calculated based on annualized total net revenue for the period divided by average loans held for investment during the period for the respective loan category
${ }^{9)}$ Includes purchase transactions, net of returns, for the period for loans both classified as held for investment and held for sale. Excludes cash advance and balance transfer transactions.
Percentages represent period-end loans held for investment in each credit score category. Credit scores generally represent FICO scores. These scores are obtained from one of the major credit bureaus at origination and are refreshed monthly thereafter. We approximate non-FICO credit scores to comparable FICO scores for consistency purposes. Balances for which no credit score is available or the credit score is invalid are included in the 660 or below category.
 not refreshed thereafter. Balances for which no credit score is available or the credit score is invalid are included in the 620 or below category.

 based on their actual risk ratings, and accordingly we are also including our nonperforming and criticized ratios measured on that basis. The table below presents our nonperforming loan rate, nonperforming asset rate and risk category information as if these PCI loans were classified based on their risk ratings in each of the periods impacted by the HFS acquisition.

## Reconciliation of Non-GAAP Measures

We report certain non-GAAP measures that management uses in assessing its capital adequacy and the level of return generated. These non-GAAP measures consist of tangible common equity ("TCE"), tangible assets and metrics computed using these amounts, which include tangible book value per common share, return on average tangible assets, return on average TCE and TCE ratio. These metrics are considered key financial performance measures for the Company. The tables below provide the details of the calculation of our non-GAAP measures and regulatory capital. While our non-GAAP measures are widely used by investors, analysts and bank regulatory agencies to assess the capital position of financial services companies, they may not be comparable to similarly titled measures reported by other companies.

${ }^{(1)}$ Regulatory capital metrics and capital ratios as of September 30, 2016 are preliminary and therefore subject to change.
(2) Total capital equals the sum of Tier 1 capital and Tier 2 capital.
 Tier 1 leverage ratio is a regulatory capital measure calculated based on Tier 1 capital divided by adjusted average assets.
(4) Common equity Tier 1 capital ratio is a regulatory capital measure calculated based on common equity Tier 1 capital divided by risk-weighted assets.
${ }^{(5)}$ Tier 1 capital ratio is a regulatory capital measure calculated based on Tier 1 capital divided by risk-weighted assets.
${ }^{(6)}$ Total capital ratio is a regulatory capital measure calculated based on total capital divided by risk-weighted assets.
${ }^{(7)}$ TCE ratio is a non-GAAP measure calculated based on TCE divided by tangible assets.
${ }^{(8)}$ Includes impact of related deferred taxes.
${ }^{(9)}$ Includes related surplus.
(10) Amounts presented are net of tax.
(11) Amounts based on transition provisions for regulatory capital deductions and adjustments of $40 \%$ for 2015 and $60 \%$ for 2016 .

[^0]:     period ended September 30, 2016 once it is filed with the Securities and Exchange Commission.

[^1]:    ${ }^{(1)}$ Interest income and interest expense and the calculation of average yields on interest-earning assets and average rates on interest-bearing liabilities include the impact of hedge accounting.
